Leave Belleville at 3 p. m. for Madoc and way stations.  
Leave Belleville for Stirling, Campbellford, and Hastings, at 3:30 p. m.  
Arrive from Madoc and way stations at 10 a. m.  
Arrive from Hastings, Campbellford, and Stirling, at 10:30.  
Trains are run by Belleville time.  
Superintendent.  
May 31st, 1880.

MANHOOD—HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Oliverwell's Celebrated Essay on the "Lost Manhood," (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess.  
Price, in a sealed envelope, only 6 cents, or two postage stamps.  
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.  
This Lecture should be in the hands of every youth and every man in the land.

Can Be Cured!

DETROIT Throat & Lung INSTITUTE.

253 Woodward Avenue, DETROIT, MICH.

M. HILTON WILLIAMS, M. D.,  
(Graduate of Victoria College, Toronto and Member of the College of Physicians and Surgeons of Ontario.)  
Permanently established since 1870. Since which time over 10,000 cases have been permanently cured of some of the various diseases of the Throat and Chest, viz: Catarrh, Thrush, Diphtheria, Bronchitis, Asthma, Consumption, Croup, Whooping Cough, Sore Throat, and all other diseases of the Throat and Chest.

Our System of Practice consists in the most improved Medical Inhalations, combined with proper diet and application for the immediate cure of all these troublesome affections. By the system of MEDICATED INHALATIONS.

Head, Throat and Lung affections have become as common as any class of diseases that afflict humanity. The very best of references given from all parts of Canada from those already cured. Gentlemen sent to any part of Ontario, by express, at the expense of the patient, and the Institute, will be "LIST of Questions" and "Medical Treatments" sent by mail.

HEAD, THROAT & CHEST.

We are enabled to offer the afflicted the most perfect remedy and application for the immediate cure of all these troublesome affections. By the system of MEDICATED INHALATIONS.

THE LAUREL-LEAF.

BY PERCY B. ST. JOHN.

THE CHATEAU DE MORLAIX.

"You are of this country, monsieur," he said, addressing the general, who was in private clothes, "can you inform me where the Chateau is?"

"Oh!" said the other, almost scornfully, "that is the Chateau de Morlaix, and it is not far from here, these smiling prairies."

"All belong to Madame Fromont," replied the general, a little more distantly, "whenever I have the honour to present you to her."

The other looked curiously at the blushing girl, and then, with a flashing eye, bowed most respectfully to her.

"The whole of the estates of the Morlaix seem to belong to Madame Fromont," said the other, with a quivering lip.

"All," replied Louise gently, while Edouard began to frown.

And he shortly began to monsieur, I suppose to continue our other, bitterly.

"Monsieur, this cross-questioning, beyond the bounds of ordinary curiosity, if monsieur has anything to say to me, my name is the General Count de Belfort," said Edouard, impatiently for the first time, trying a secret which the fate of the Empire made him rather anxious to conceal.

"Sir," said the other, unable to restrain his indignation, and even vainly checking a tear, "I mean, no doubt, to you very pertinent. If you have any satisfaction to ask of me, my name is the General Count de Belfort."

"Ah monsieur!" cried all, while Edouard added, "it is not the son of Gaston Bonas would wish to offend Monsieur le Comte."

"Can I believe my ears?" cried the other, completely bewildered; "the more I hear, the more I am amazed. Monsieur le Comte, Edouard Bonas is the distinguished general, Count de Belfort, whose conduct at Quatre Bras was the talk of all Europe."

"Monsieur le Comte, my name is Edouard Bonas, and I am the son of the general, Edouard Bonas is the distinguished general, Count de Belfort, whose conduct at Quatre Bras was the talk of all Europe."

"Your hand, my friend," said the count, mournfully; "but having left France in 1790, all I see astounds me."

"If Monsieur le Comte will do us the honor to come down to the Chateau de Morlaix, I shall return to you, my friends, I have intended to have kept it a secret, but my impatience betrayed me."

"Your hand, my friend," said the count, mournfully; "but having left France in 1790, all I see astounds me."

"If Monsieur le Comte will do us the honor to come down to the Chateau de Morlaix, I shall return to you, my friends, I have intended to have kept it a secret, but my impatience betrayed me."

GRAND JUNCTION RAILWAY.

On and after Tuesday, June 1st, trains will

run as follows:

Leave Hastings, 7:30 a.m.

Arrive in Belleville, 10:30 a.m.

Leave Belleville, 10:30 a.m.

Arrive in Hastings, 6:15 p.m.

Trains are run by Belleville time.

PRINCE EDWARD COUNTY RAILWAY.

On and after Monday, September 6, trains will

run as follows:

Leave Toronto, 7:10 a.m. and 1 p.m.

Arrive in Picton, 9:00 a.m. and 3:10 p.m.

Leave Picton, 10:00 a.m. and 4:00 p.m.

Arrive in Toronto, 11:20 a.m. and 6:00 p.m.

(Trains are run by Montreal time.)

STAGE ROUTES.

Stages leave the principal hotels for the un-

dermentioned places at the hours named:

For SPRINGFIELD, daily, at 8 a.m., and 2 p.m.

For MANDON, daily, at 8 a.m., and 2 p.m.

For BAYVIEW, TWICE, daily, at 8 a.m., and 2 p.m.

For TROTTER, daily, at 3 p.m.

For PICTON, daily, at 3 p.m.

The stages arrive in Belleville about noon

each day.

## LAKE OPELUS.—The vicinity of the

elevators presented the appearance of old

times to-day, owing to the long lines of

grain laden wagons awaiting their turn to

be unloaded.

WEATHER PROBABILITIES.—The following

are the Toronto probabilities:—Late,

moderate to fresh, southerly to south-

westerly winds, fine and warmer weather

to-day, possibly showers in some localities

to-night.

PERSONAL.—Mr. Lewis Hyman, of this

city, who has for a number of years travelled

for different firms in the boot and shoe trade,

has been appointed to the position of manager

of the Dominion Tobacco Works, Montreal,

which concerns he will represent on the road.

We congratulate Mr. Hyman on his ap-

pointment, and wish him every success in his new

business connection. The Journal of Com-

merce says of the display made by this estab-

lishment at the Dominion Tobacco works:

"Mr. D. Ritchie, of the Dominion Tobacco works,

made an elegant display and took first prize

for general assortment of cut plug tobacco,

the Globe Tobacco Works, taking second.

This exhibit is worthy of a longer notice, and

we shall refer to the Dominion Tobacco

Works in our next issue.

ENFORCE THE LAW.—It is a notorious

fact that in many drinking places in this

city, boys can go and purchase as much

liquor as they choose, and many of them

are allowed to stay in these houses of en-

tertainment until they are boozed with

drunk. Now there is only one way of put-

ting a stop to this nefarious business,

and that is for the police authorities to

enforce the law. Tavern keepers, as is

well known, are prohibited from allowing

minors and apprentices from frequenting

and drinking in bar-rooms, under a heavy

penalty, and if there are such scoundrels

as will sell strong drink to mere boys and

make them drunk, then they should be

punished as the law provides. It is the

duty of the police authorities to see

that the provisions of the law are

carried out. Will they do it, and there

will be many a household from the terrible

results which follow the degradation of its

loved ones?

A NEW MANUFACTORY.—Hamilton is

becoming the great manufacturing centre

of the Dominion. It has for years been

the seat of iron foundries, steel works,

rolling mills, nail works, sewing machine

factories, engine works, agricultural im-

plement factories, &amp;c., and latterly exten-

sive cotton mills and other branches of

industry have been established, giving em-

ployment to an army of skilled artisans

and mechanics. Amongst the new manu-

factures recently established is one, the

announcement of which will be found in our

advertising columns. Messrs. Young &amp;

Bro., one of the oldest and most reliable

firms in the "Ambitious City," have long

carried on an extensive trade, wholesale

and retail, in plumbing, gas fitting, kero-

sene fixtures, bronze stand lamps, globes,

shades, &amp;c., and under the favorable

influence of the protective policy of the

Government, with commendable enterpris-

e, they have decided to manufacture the

articles hitherto purchased in other

markets, and in July commenced the man-

ufacture of kerosene fixtures and lamps on an

extensive scale. This manufactory is on

King William Street, and joins their large

warehouse on John Street, is fitted

up especially for this business, and is

supplied with all the appliances and

machinery for the manufacture of every

description of kerosene fixtures, brackets,

pendants, chandeliers of the finest and

most modern styles, and bronze stand

lamps of the most exquisite designs. A

glance at their illustrated catalogue of

these fixtures will give an idea of the styles

and designs of their manufactures, which

are equal in point of beauty and workman-

ship to the finest seen anywhere. Already

their orders have been far beyond their

anticipations, and at the Provincial Ex-

hibition which closed yesterday at Hamilton,

they were the recipients of great attention.

In addition to prizes, they were awarded

diplomas for their manufactures. Messrs.

Young &amp; Bro., are both practical men,

prospering with this enterprise, and in em-

bodying in this new enterprise, we have no

doubt they will add very largely to their

already extensive trade.

JEWELRY AND OTHERS IN WANT OF SHIRTS

and Drawers, Tweeds or Clothing, would

be pleased by calling on James Hennessy,

332 Front Street. He has the largest and

cheapest stock in the city.

FALL OPENING.—Messrs. A. R. Fish &amp;

Co., gentl' furnishes, announce that their

fall opening will take place on Tuesday

next, the 5th inst. See the advertisement for

particulars.

LARGE FRUIT.—Mr. Edward Bennett, of

the 1st con. of Rawdon, has a pear tree in

his yard, of the Flemish Beauty variety,

four years old, which this season bore seven

pounds, one of which weighed twelve

ounces.

## Campbellford Correspondence.

CAMPBELLFORD, Sept. 20.

We have had but very little frost here

yet. The cucumbers and melons vines are

still green, and the annual flowers are look-

ing fresh and sending forth their fragrance

"to the desert air."

Our sportsmen have had a good time on

the river lately, one party brought home

67 ducks another 60. Fall ducks are also

expecting extra sport on our river the rest

of the season.

Mr. J. Keeler, M. P. for East North-

umberland and now, we are to believe

on business which will be a great benefit to

our village if carried out.

Mr. Kellahan, Messrs. Rathbun's for-

man, has been very busy to-day sending off

men to the shanties. Thirty were despatched

this morning for the back woods and

several gangs were forward before.

The timber trade is doing flourishing by

the movement in this locality.

The Seymour Agricultural show will

take place at Campbellford on Saturday,

Oct. 9th.

News Condensed.

front of E. H. Eaton's house, Truro, Nova

Scotia, and bordering the Maynor Longworth

upland, an old Roman bridge has been dis-

covered. The timbers were comparatively solid,

though some 1300 years have elapsed since its

building.

AFTERNOON DISPATCHES.

LONDON, Oct. 2.—A Vienna despatch says

Goeben, British ambassador to Turkey, will

leave Constantinople in November and shortly

after his arrival in England will be appointed

Chancellor of the Exchequer. The above

statement is regarded here as sensational.

There was a meeting of many well known

cavaliers last night to witness the final

display in the Laycock Blackman match, to come

off Oct. 5th. Hanlan and Trickett were present

and shook hands amidst enthusiastic applause.

Trickett offered to take two to the lake, he

was accompanied by his man, and the two

latter refused to accept this, as well as

two other bets offered by Trickett. Boyd has

entered for the American prize in the Inter-

national match.

ROME, Oct. 2.—There is great anxiety in

official circles about Gen. Garibaldi's move-

ments, which formed the theme of discussion

at three Cabinet Councils.

NEW YORK, Oct. 2.—Bank statement:—

Loans decreased \$380,000; specie increased

\$108,000; legal tenders decreased \$15,000;

deposits increased \$804,000; circulation de-

creased \$248,000; reserve decreased \$243,000.

WASHINGTON, Oct. 2.—Indications: lower

lake, slightly warmer, partly cloudy, light

lake rain.

Spread the Good News.

As a family medicine and tonic, there is no

remedy at present giving such universal

benefit as Electric Bitters. Our druggists re-

port a lively demand for them at times being

unable to supply the many calls. All Billions

attacked by Rheumatism, Kidney Com-

plaints, Diabetes and Gravel, readily find in

their curative qualities. Sold by Jas. Clarke &amp;

Co. at fifty cents per bottle.

Stop that Cough.

If you are suffering with a Cough, Cold,

Asthma, Bronchitis, Hay Fever, Consumption,

croup, whooping cough, or any of the affec-

tions of the Throat or Lungs, use Dr. King's

New Discovery for Consumption. This is the

most reliable remedy that is causing so much ex-

citement, and it is the only one that can be

relied upon in every instance. We can unhesi-

tantly recommend it to all. Call and get

a trial bottle for ten cents, or a regular size

for \$1.00. Jas. Clarke &amp; Co.

## Daily Intelligence.

REVELLEVILLE, MONDAY, OCT. 4.  
The Coming Census.

The Ottawa correspondent of the *Globe* gives some interesting particulars with regard to the preparations which are being made for the taking of the next census of the Dominion.

When the census of 1871 was taken, says the correspondent, the Confederation of the Dominion of Canada only comprised four provinces—Ontario, Quebec, New Brunswick, and Nova Scotia. Since that time Prince Edward Island and British Columbia have been admitted into the Union, Manitoba created, and the North-West Territories and Keewatin organized. The result of the census of 1871 was made known in five volumes. The last volume contained some valuable statistics called forth by Dr. Tache, the Deputy Minister of Agriculture, from the obscurity of old records, and relating to the growth of population in and development of the four provinces when in colonial tutelage, or even attached to the Kingdom of France. Although the Dominion has grown considerably since 1871 and new Provinces have been added, it is not expected that the bulk of the census volumes will be increased by more than twenty pages each.

The census of 1871 was taken on April 2nd of that year, whilst the census of 1881 will be taken on Monday, April 3rd. This latter date is also that on which the census of 1871 was taken. The Imperial Government have issued a circular to the colonies suggesting that the census be taken simultaneously with that of the mother land. The Dominion Government have acceded to the suggestion, and it is also believed the other colonies have already done or will do so. Thus the census of April next will be taken simultaneously throughout the British Empire.

The system of census taking adopted in 1871 was that known as the population *de droit et de jure*. This is not the system followed in England, which adopts the *de facto* system. Each system possesses its relative merits. Under the *de facto* system in England the number of persons in the house at a specified hour, say midnight are given. Should a visitor be present the visitor is included. Should a member of the family be absent he or she will be excluded from the list. The number of travellers on railroad, highway, and water is approximated. In 1871 in Canada under the *de jure* system the number of normal residents in a specified place was given as the residents, but the visitors were not included. Dr. Tache, the Deputy Minister of Agriculture and Statistics, who will be in practical charge of the work, when asked whether it was contemplated to change the *de jure* for the *de facto* system in Canada, replied that he could not speak positively, as the arrangements have not been formally adopted in Council, but judging from the tenor of his remarks it would not appear that such a change was contemplated. He referred to the *de jure* system, because it is better adapted to the wants and requirements, to the special difficulties as to organization and extent of territory, to the legislative and political peculiarities of the federal union. In a compact country like England, under one central Parliament, he thought the *de facto* system might work very well, but experience had shown that under a Federal Government the *de jure* system was preferable. For instance, in the Kingdom of Prussia the *de facto* system was enforced, but as soon as the German States were confederated in one Empire, and ever subsequently, the *de jure* system was adopted and continued. With this conclusion Dr. Tache was inclined to agree, as otherwise large centres of population, such as Montreal, Toronto, Quebec, Hamilton, Ottawa, etc., would be made to appear as possessing a greater number of inhabitants than they really do.

In the census taking of 1871 there were 15 chief Census Commissioners, 260 district Commissioners, and 2,799 Enumerators. The duty of the Chief Commissioners was to assist the Department in imparting to the local officers a knowledge of their work. The schedules then were nine in number, and solicited information under the following heads: (1) Normal returns of the living; (2) of deaths; (3) of public institutions, real and personal estates; (4) of cultivated lands and products; (5) of live stock, animal products, home-made fabrics, and furs; (6) of industrial establishments; (7) of foreign products; (8) of shipping and fisheries; and

(9) of mineral products. Next year, owing to a better system of grouping, based upon the experience of the last census taking, it is understood that there will only be seven schedules, but the details of the headings cannot be given at the present time, except to state that they are principally like those of 1871.

A rumor has been prevalent that under the heading of "Religion" a change has been made which might lead to confusing the enumeration of the adherents of the Church of England and the Roman Catholic Church. On enquiry it is found that no change has been made. The headings remain as in 1871, Catholics and Church of England. Many of those who are styled in ordinary parlance "Free-thinkers" object to being characterized in the census returns as without religion because they were not Christians. Even the division under the heading "Without Religion" are not comprehensive enough. Columns for Atheists, Deists, and "No Religion" are also given. Now, it is claimed to be possible that the majority of modern Free-thinkers are neither atheists, deists or of no religion, but are the Christian "Theists" who think that it is difficult to some extent, and satisfy the conscientious objections of those who decline to be enumerated under either of the headings in the accepted form.

When the census was taken in 1871 the four Provinces were divided into 206 census districts and 1,701 sub-districts. This number will be increased next year, as the extent of settled country is larger and the number of Provinces increased. In the old settled districts the principal divisions will remain the same, although there are important changes, and especially in Quebec, respecting the sub-divisions. The Province of Manitoba will be divided into twenty-five districts. At the present time the staff is employed in preparing schedules and examining the returns of previous years. As soon as the Government have definitely adopted the schedule they will be printed, and will take, it is estimated, thirty tons of paper. Twenty-five clerks are to act as enumerators in the Census Department, for the use of whom a large room has been fitted up with countless shelves and several long tables with myriads of pigeon holes. Five thousand portfolios for filing the returned schedules have been obtained.

The arrangements, as outlined, appear to be perfectly satisfactory so far as they go, but we hope to see provision made for the gathering of full and satisfactory statistics of the manufacturing industries of the country, the performance of which branch of the work has not hitherto been satisfactory. No doubt some extra expense would thereby be necessitated, but this, in view of the importance of the result to be attained, Parliament and the people would willingly sanction.

## Revenue Returns.

The revenue returns for September for the principal ports show, so far as received, a highly gratifying increase over the returns for the same month last year, and demonstrate that the N. P. is effectually performing its appointed task of restoring to the Dominion the revenue which it has lost.

The following are the returns, so far as they have come to hand:

	1880.	1879.
London.....	\$8,429.00	\$7,124.04
Kingston.....	16,429.24	16,569.00
Bellefleur.....	8,674.04	11,100.00
St. John.....	10,743.00	11,100.00
St. Catharines.....	10,743.00	11,100.00
Hamilton.....	30,315.06	71,063.22
Ottawa.....	17,361.00	11,100.00
Montreal.....	61,061.62	300,739.61
St. John, N. B.....	106,270.00	72,381.00
Halifax.....	106,270.00	106,270.00

## INLAND REVENUE.

	1880.	1879.
Toronto.....	\$8,649.70	\$8,249.74
Kingston.....	17,053.00	8,674.00
Bellefleur.....	6,615.00	5,046.42
Montreal.....	121,352.00	99,992.62
St. John, N. B.....	11,353.00	11,353.00
Halifax.....	17,966.00	16,139.00

## Railway Notes.

A Peterborough Review reporter on Saturday interviewed Mr. Geo. A. Cox, Manager of the Midland Railway, in regard to the disputed right of way in Peterborough. Mr. Cox said the Midland is "not trying to take any advantage of the Grand Junction Company, but that they are only claiming that which they are justly entitled to. He also says the rival companies will have to fight the matter out in the Court of Chancery, and the Midland is perfectly willing to do this to maintain their rights. Mr. Rickford declares that he is going to use the road and build a railway to Hilliard's mill and carry the lumber at a cheap rate, and thus matters stand at present. Both companies have had the best legal advice that can be obtained, and both are determined not to give in.

The same paper says:—"A gentleman from the neighborhood informed us to-day that the tracklayers have almost reached Mr. Joseph Redmond's farm in Otonabee. A locomotive ran up nearly that far yesterday. As this is only about five miles from town by the road, and even less by the railway track, it is altogether probable that a train will reach town, if the difficulty with the Midland is settled, by the time the autumn is over, as they reach Downer's Corners all will be plain sailing, as the track was laid from that place to Ashburnham before, and the roadbed is in good condition."

THE PATCH WORK MONEY.—The Montreal *Witness* says:—"During the past week a clever fraud has been perpetrated on at least two of our banks by the passing of a huge \$10 bill, apparently of the same Bank's issue. The fraud is very ingenious. It is done by neatly scratching or slitting away one half of the thickness of the bill covering the words and figures 'five' on the obverse and reverse sides and letting in (so to speak) very neatly with mangle the words and figures of ten from useless Consolidated or other Bank bills. This patchwork fraud can be detected by holding the bill up to the light and by the small imprints of the figure 'five' or 'what over the actual denomination of the Bill may be, on various parts of the bill. The public should carefully examine their money, as numerous frauds are being perpetrated."

## News Condensed.

Sir A. T. Galt was in Montreal on Saturday. —A far felt hat factory has been established in Montreal. —The present population of Toronto is estimated at 76,034. —It is said that Jay Gould has purchased the *World* newspaper. —It is said the Scott Act has been carried in Marquette, Manitoba. —Mr. Lafontaine, the Schickel delegate, is making a tour of the Northwest. —Gov. Hancock, the historian, celebrated his 80th birthday on the 3rd inst. —A Dominion \$1 note changed to a \$4 bill was passed the other day at Napawa. —The assessment of Toronto for 1880 shows an increase of \$3,052,105 over last year. —Archibald Brown, the renowned war correspondent, arrived in New York on Saturday. —It is said the Canada Central Railway will be completed as far as Denix River this fall. —Sir Charles Tupper returned to Canada by the *Peruvian*, which arrived at Rimouski on Saturday. —There were fifty-one applications for the position of assistant teacher in the Napawa High School. —Several newspapers in New York have been indicted for advertising places for sale of lottery tickets. —Diphtheria is prevalent in Annapolis and has been spreading the schools and driving business away from the place. —On the 3rd inst., the steamship *Isaac Bell* with a valuable cargo, was lost at Portsmouth, Virginia, lost \$230,000. —The Allan line are having a new steamer built for the Canada trade. She will be about 5,500 tons and 600 horse power. —Rev. Dr. Cleary, parish priest of Danganbawn, county of Waterford, has been appointed by the Pope to be Bishop of Kingston, Canada. —It is said the attendance at the Provincial Exhibition has been very satisfactory. —An extensive shipment of cattle to England is shortly to be made by New Brunswick dealers. The shipment will comprise 300 head. —The final session of the Pan-Presbyterian Council was held on Saturday, when it was resolved to hold the next meeting in 1884, at Belfast. —Lumber shipments from the Saginaw Valley, Michigan, for the year up to date, amount to \$24,000,000, the largest taken for a like period in the history of the Valley. —Three steamships are now being built on the Clyde for the Atlantic which will be the largest and swiftest steamers afloat. They are respectively 6,500, 7,000, and 8,500 tons. —Peter Meyer, editor of the *Berlin News*, has lost a \$500 letter shot brought by E. R. Faber and wife, Formosa, whom he charged with being blackmailers and of bad repute. —Mr. Gordon Starr, of Brooklyn, has been general freight agent on the Canada Central Railway, and Mr. Archibald Barker assumes the joint duties of superintendent and manager. —Garibaldi and his men Monotti have gone to Genoa, and the Ministry are somewhat in a fix as to what to do with them. The veteran's own organ says that no fear need be entertained. —The Canada Packing Company, of Quebec, have commenced putting up fresh codfish in cans, and are making preparations for large business in that line next season. —Edward McGilivray, son of Mr. Edward McGilivray, wholesale merchant of Ottawa, has been drowned in the river on the 2nd of Victoria Island. He was about to go on a trip down the river when in the darkness, he stepped in to the water. The body had not been recovered. —A number of journalistic changes are about taking place in Hamilton, the most important of which is that Mr. H. F. Gardiner, proprietor of the *Standard*, resigns, and Mr. McCulloch will be at the head of the *Spectator* with Mr. Freed as assistant editor.

—The *Wanderer* is at Foster's wharf, discharging coal from Oswego. —The *Schr. J. Walters* has arrived from Fair Haven, with cargo for Rathbun & Son. —The *Schr. Annie Fulconer* is taking a cargo of dry goods to J. D. Macaulay's storehouse. She will go to Windsor. —The *Schr. D. Freeman*, which has had a rebuild at Mill Point, and was supplied with a new mainmast, arrived here yesterday afternoon in tow of the tug *E. Bonar*. —The tug was from the south-west, and with her tow and then endeavored to make the harbor, but the drift of the light schooner was so great that she floated to the westward of the Grand Junction wharf, and both craft grounded on the flat there. In working off, the tug had two narrow escapes from upsetting, by striking buoys. She, however, got off safely, released the schooner and brought her into port. —The schooner *Wanderer*, the arrival of which is noted above, left Oswego on Friday and had a very rough passage across the lake. The crew report that they saw the topsails of a schooner above the water on Honey's shoal, near the Ducks Islands. The sunken vessel, judging from the fact that she stood upright, was believed to be loaded, she was heading to the north, and from the distance between her spars she was thought to be larger than the *Oliver Branch*, which it was believed was the craft that had sunk. The *Ocean Wave* was met in the Reach. There were seventeen vessels at South Bay Point and sixteen at McDonald's cove, waiting for the wind and sea to moderate when the *Wanderer* crossed.

—The MISSING VESSEL.—Respecting the reports of the founding of an unknown schooner near the Main Docks on Wednesday last, the *Kingston News* says:—"The schooner *Oliver Branch*, Capt. Ayle, left Oswego on Wednesday morning last with a cargo of coal for McFarlane & Co. and since which with no tidings have been heard of her. With a fair wind she would have reached the Main Docks in about four hours, which would tally pretty close with the time the vessel was first reported to have been seen. The *Oliver Branch* is owned by Oliver & Byrne and Captain Ayle. All the circumstances considered, more reliance can be placed on this than on any of the previous reports, still there is no knowing what a day may bring forth. As soon as the sea goes down and the wind shifts more northerly, a search should be instituted in the vicinity of the Ducks, where the cause and fate of the wrecked vessel and her crew may possibly be revealed. The continued silence of the *Oliver Branch* gives grounds for the belief that she is the lost vessel."

—The yacht *Blondin* arrived yesterday morning from Kingston, where she has received the necessary repairs. The topmast has been set up, and now the yacht presents a fine appearance. On way up she did some remarkably fast sailing, having worked from Kingston to Bath under double reefed canvas in one hour and thirty-five minutes.

—The Halifax people have raised \$600 towards paying the expenses of Warren Smith, who will go to England and compete in the Hop Bitter race, for single scullers on Nov. 22nd. Wallace Ross, J. H. Riley and J. A. Kennedy will leave for England next week. —Gilbert Frederick Brierley, whose death was announced of inflammation of the lungs on the 22nd inst., was the third member of the wonderful Grace family to distinguish himself on the cricket field. He was born at Bowdoin, near Bristol, on Dec. 18th, 1850, and his name was connected with first-class cricket during the past eleven seasons. His best scores were—213, 206, not out; 192, not out; 189, not out; 180, not out; 166, 165, not out; 147, not out; 134, 132, 112, and 101, making a total of 1,827 runs. His score of 213 was made on August 11th, 1876, the same day that his brother W. B. was playing at Canterbury his 344, the highest innings yet recorded in a first-class match. His innings of 166 was played with twenty-two the field, and in playing 165, not out, he was opposed to the best bowling in England. He hit 189, not out, on August 29th, 27th, 1876, and thereby scored more runs than did the whole Surrey eleven with the bat in their innings. He was a splendid batsman, and of the game, a fine, free bat, with plenty of hitting power; a splendid fast round arm bowler and one of the best fielders in England, being a sure catch and a long and accurate thrower. He had played in many of the great matches since 1870, and had formed one of the English eleven that visited Australia in 1873-74. His probably last appearance on the cricket-field was in the great match between England and Australia, on September 6th, 7th and 8th, when he was twice retired without scoring.

BELLEVILLE, TUESDAY, OCT. 5.

## "Harrington Importers."

The chief organ of the Opposition has resumed its war on the Customs Department, which it charges with "harrington importers," by enforcing the very provision of the law which the Mackenzie Government re-enacted; which the members of that administration stated in Parliament ought to be carried out; and which Mr. Mackenzie's Minister of Customs by several circulars to Collectors of Customs, required to be strictly enforced. Despite, however, of their apparent determination to prevent the "laughing" of Yankee goods in our markets—despite the Globe's approval of the same—the law was never put into effective operation by the Mackenzie Government, and the consequence was that many Canadian manufacturers had to succumb to the competition which the Government of that time, in the face of their public declarations, either allowed or were too stupid to prevent being conducted in an illegitimate and dishonorable manner. By these means thousands of Canadian mechanics were thrown out of employment, and many additional thousands were placed in a state of semi-starvation by being placed on half or three-quarters time, and at a reduced rate of pay at that. Now that the present head of the Customs Department is honestly endeavoring to enforce the law as he found it—now that, by calling to his aid experts in the principal branches of trade, who know and are able to fix the fair market value of goods, and who are not influenced by the desire to give play to Canadian manufacturers and working men, he is assailed with a virulence which, under the circumstances, is on the face of it inexplicable, but can probably be attributed to the excess of party spleen, with which the chief organ is so liberally endowed. The Mail takes up the matter on behalf of the Government, and shows that satisfactory evidence of systematic undervaluation on the part of Yankee exporters was presented to the late Government.

Our contemporary says:—"For instance, here is a case of jewellery which showed, in 1876, an undervaluation of fifty per cent. —an interesting fact for local jewellers and traders. Again, penicillaries, manufactured also in Canada, were valued at 25 per cent. less than their value, and the Collector of Customs was instructed to bring the invoice price up to the fair market value. Again, a lot of shoes showed an undervaluation of 30 per cent., and the consignees were thereupon placed under official surveillance. Again, a lot of "pegwood in rolls" showed an undervaluation of 75 per cent., and the importer's son was harrowed up in consequence by the Collector, who broached the "monstrous" doctrine that one man should not be allowed to undersell his neighbor by defrauding the revenue. Again, a lot of hair-cloth shows an undervaluation of 50 per cent., and the Collector of Customs is instructed to make the importer do better. Again, a lot of fancy goods are put in at a fancy price, 50 per cent. below their real value, and the 'monstrous' law was put in motion to make the consignee pay duty on the real value. Glassware and lamps entered at 50 per cent. less than value were also made to pay former duty. Willow ware put in at half its value was the cause of grief to another innocent importer. We have before us some specimens of fraudulent invoices, invoices to be filled up to the good will of the importer, and of most of the fraudulent invoices, involving perjury in some cases, by which the revenue is cheated, and fair trade disturbed, by practices against which the law is now, as it has always been, directed, but of which the Globe and some of its contemporaries seem determined to be the champions."

The result of these disclosures, as we have seen, is that the Government, made a great loss over the matter, but in reality did nothing, thus shamefully deceiving the public and neglecting their duty. The Globe itself makes plain another effect, in addition to those above noted, of this neglect of its political friends. In an article in its issue of the 2nd inst., on the subject of the revenue returns for September, it endeavors to account for the failure of the Cartwright tariff as a revenue producer by saying that this was because of "the falling off in the value of imports." That the value of imports in 1876-77 was in reality much less than at the present time, we flatly deny; but by means of fraudulent invoices a large decline in the

value for duty was made to appear, and this dishonesty being unchecked by the Government, the country was robbed of a large part of the revenue which ought to have been collected, many of our manufacturers were ruined, thousands of our workmen were either reduced to a state of beggary or driven out of the country; and the Government, with all the facts in their possession, looked on with folded hands, doing nothing and declaring that they were helpless—as powerless as a wheel would be to set it in motion. Under the present vigorous administration of the Customs Department, these grievances have been remedied, so that our people have fair play in the matter and the revenue is no longer cheated. The only persons who can feel aggrieved are the few dishonest importers who formerly carried on a species of smuggling by entering goods at a value under their value, and the manufacturers in the United States who furnished the false invoices. For such sharps as these we have no sympathy, nor will any one who has a regard for honesty. The Globe, in their organ, may constitute itself their organ, but the job is a disreputable one, and our contemporary will probably wish to be well rid of it before its task is ended.

The importer who conducts his business honestly need not fear being "harringtoned." It may be that errors will at times occur on the part of the Customs officers, but those who happen to be aggrieved thereby can feel assured of being justly and fairly dealt with in the end.

## County Debentures.

## A GOOD SALE.

A few weeks ago the County of Hastings offered \$400,000 County Debentures for sale to the highest bidder. The Debentures were issued by the Corporation of the County in payment of Railway Aid, and are redeemable one-half in eighteen and the other half in twenty years, from the first day of July, 1880, and bear interest at the rate of six per cent. per annum. Thirteen tenders were received from the following parties:

Mrs. J. H. Hambley, Belleville, \$5,000, offered 101.  
Home Savings and Loan Company, Toronto, \$40,000, offered 101.  
J. L. Burrows, Oswego, \$4,000, at 102.  
British Canadian Loan and Investment Company, Toronto, \$40,000, at 103.  
B. M. Britton, Kingston, \$40,000, at 105.  
Imperial Bank, Toronto, \$40,000, at 105.  
E. Cox, Toronto, \$40,000, at 105 25-100.  
Pellett & Oler, Toronto, \$40,000, at 105 50-100.  
Dominion Bank, Toronto, \$40,000, at 105 50-100.  
Quebec Church Society, Quebec, \$20,000, at 106.  
O. J. Campbell, Toronto, \$40,000, at 106 2-100.

Canada, Son & Co., Toronto, \$20,000, having 10 years to run, at 106, and for \$20,000 having 20 years to run, at 107 3-16.  
A. T. McCord, Toronto, \$20,000, at 107 3-16.  
Mr. Cord got the \$20,000 at 107 3-16.  
Canada, Son & Co., the balance of the \$40,000, thus making the sale average 107 3-16. Considering the fact that the highest price quoted for the best of Ontario County Debentures has been 105, and that until very recently the rate ranged from 104 to 105, this may be considered an exceptionally good sale. The competition for these debentures shows that there is an abundance of money in the country, and the price obtained shows that the credit of the County of Hastings stands as high as if not higher than that of any other municipality in Ontario, and also speaks volumes for the excellent management of the County's finances by its Treasurer, Thomas Wills, Esq. We congratulate Mr. Wills and the County on the remarkably successful sale of their debentures.

## News Condensed.

—250 immigrants arrived by the *Peruvian*.  
—Fallman & Co's Electric Lighted Show is to visit Belleville shortly.

—The Western Fair at London opened yesterday, with good prospects.  
—Thirty lives have been lost by a gunpowder explosion in the arsenal at Utsuki, Japan.

—A Dublin dispatch reports that a process server was murdered in Ireland on Friday.

—On Saturday night last an attempt was made to burglarize the safe of Messrs Noon & Tyne, Kingston, but was unsuccessful.

—Mr. Joseph Hickson has delayed his trip to England until next Saturday. He will then sail on the Allan steamer "Guelph."

—On the 3rd, two men named Foster and Peacock, were drowned near Morrisburgh while running the rapids in a small skiff.

—The Governor General remained over at Kingston yesterday and inspected Queen's College Buildings and the Military College.

The County Inspectors of Lunatics have reported that pleuro-pneumonia exists among the swine, and fever continues to spread.

—A true bill has been found in the Chicago Court against Dr. Cream and Mrs. Hattie Mack for the murder of Miss Faulkner, of Ottawa.

—Several persons are reported to have been killed and many more injured by the fall of a gallery during mass in a Roman Catholic at Manchester.

—Mrs. L. H. Bell, of York, has entered an action against Mr. Ashley, of the same name, for selling the said husband after being forbidden to do so.

—Another round house is to be erected at St. Mary's. Over 160 locomotives arrive there every twenty-four hours, and the present accommodation is insufficient.

—There is no ground whatever for the rumors of an early conclusion of peace between Chili and Peru. There is nothing to show that the belligerents even contemplate a cessation of hostilities.

## CITY COUNCIL.

MONDAY, Oct. 4.

The Council met at the usual hour. Present:—The Mayor; Ald. Farley, Lingham, S. Charles, Holburn, McIsaac, Van der Horst, Hambley, Wallbridge, Jellet, Brennan, Niles, Frost, Holden, Dickson, Costello, Gen. A. L. Smith, Ostrom, Jas. Smith.

The minutes of the last meeting were read and approved.

The Clerk announced that the statement of receipts and expenditures for 1879 was printed, and laid before the members.

## PETITIONS.

A petition from Alex. Robertson, asking that, as while he was building his new block he had no business on the property on which it is situated, the taxes for that time be remitted.

## REPORTS.

Ald. Hambley, chairman of the Water and Gas Committee, and Ald. Robertson, Chairman of the Harbor and City Property Committee, reported that they had called their Committees together, and obtained no quorum.

## NOTICES.

Ald. Dickson renewed his notice of motion, regarding the franchise tax.

## RESOLUTIONS.

Ald. Robertson, in answer to Ald. Jellet, said he had received a communication from the Government, saying the new light-house would be built and attended to by them, but not this season.

## BY-LAWS.

Ald. Jellet introduced a new By-law to raise a loan of \$80,000.—Read a first time.

Ald. Dickson's notice of a By-law respecting the salaries of officials was allowed to stand.

## MOTION.

Ald. A. L. Smith moved that the Mayor be instructed to open correspondence with the Grand Trunk Railway Company respecting their contract with the city.—Carried.

The Council went into Committee on By-laws, the Mayor presiding.

The second reading of the By-law to raise the loan, Ald. Dickson in the chair.

The By-law to raise the loan and provide a sinking fund, was considered.

Ald. A. L. Smith thought the City of Belleville could borrow money in England at a per cent. The Minister of Customs had said he would do all in his power to assist us and would secure the assistance of Sir John Rose. He moved in amendment that the debentures be issued for two years.

Ald. Jellet said Ald. Smith didn't know what he was talking about. Could Mr. Bower do anything for us?

Ald. Jellet said that people holding debentures would not give them up till they had expired, and some of them run for years yet, and the debt could not be wholly consolidated till then. This By-law would save the city a large amount of interest. The matter had been fully discussed. Hereafter we could pay off debentures as they came due and consolidate our debt.

Ald. A. L. Smith said this By-law would lock up this amount for 30 years.

Ald. Dickson thought no one would invest in two year debentures.

Ald. Jellet said Ald. Smith's motion was absurd. Now is the time to sell our debentures, as money is plenty.

Ald. Robertson said if Ald. Smith had no more definite scheme, he would report the By-law. Every day lost was money lost.

Ald. A. L. Smith said if we could get on for two years, he believed we could get the money in England for 40 per cent.

Ald. Vandusen thought 50 years a long time, but two years was altogether too short. Arrange the debentures so that a number of them would mature at each time, and then take a step towards consolidating the whole debt.

Ald. Dickson said if we could take these debentures at once, we could get a better price, but he would not oppose the Chairman of Finance on this, as he had made thorough enquiries.

Ald. Jellet said the largest cities in the Dominion paid more than Ald. Smith thought we could get the money for.

Ald. Gen. said there were other points to be discussed, and the By-law should go to the Finance Committee.

Ald. Jellet said the matter had been fully considered by the Committee and the Council.

Ald. Holden thought Ald. Smith's views were worthy of consideration. \$30,000 was more than we really need. He would like to see the By-law go to the Finance Committee.

The Western Fair at London opened yesterday, with good prospects.

Ald. Jellet said we must have a sinking fund, and we had none now. The matter had been fully discussed in the city papers, and the members must understand it.

Ald. A. L. Smith said he had heard that Ald. Jellet had been offered the matter at 5 per cent.

Ald. Jellet said that was for the whole debt.

Ald. Frost said the longest debenture falls due in 17 years. It would be better to issue these debentures for 15 years.

Ald. Gen. said the amendment was lost.

Ald. Gen. asked if the By-law must not go to the Finance Committee. No notice had been given.

Ald. Jellet said he had given notice. If Ald. Gen. had been in his place in the Council when the matter was discussed he would know all about it.

Ald. Gen. raised the point of order that the By-law must go to the Finance Committee.

Ald. Dickson ruled the point was not well taken.

Ald. Gen. asked the Mayor to rule.

Ald. Dickson—I'm in the chair now.

Ald. Gen. appealed to the Mayor and said the conduct of Ald. Dickson was outrageous. He contended that the Mayor should rule.

Ald. Dickson said Ald. Gen. could appeal to the Council. The Mayor was a member of this Committee. The Mayor was a member of this Committee.

## Bad Drowning Calamity.

## Four Persons Drowned.

LAST MONDAY, Oct. 4.—After church meeting held in the Prince of Wales Hotel last night, twelve persons entered a small boat to cross to Victoria Bay. When near the end of their journey four of their party were drowned, named Mrs. John Murray and her son, Angus Murray, Miss McKinnis and Miss McDonald. The cause of the accident was overloading the boat.

THE APPLE TRADE.—Apple shipments from Montreal are increasing weekly, the Canadian contributors being supplemented by consignments from New York State. It is expected that the shipments to England this year will aggregate half a million barrels. Apples which sell in the market for \$1 to \$1.25 a barrel fetch from \$1.50 to \$2.50 in British markets. Liverpool and Glasgow are now the principal markets, though Bremen and Hamburg are taking some shipments. Although prices are low, the foreign market this year is unusually active, owing to the failure of the crop all over England and the continent.

GOVERNMENT OF COURT CASE.—A Winnipeg dispatch says:—In the case of the Queen v. Howe for contempt of court, the Chief Justice gave judgment on Saturday, making the rule of attachment absolute. Sentence was deferred. Justice Duff concurred in the decision. The Times, Mr. Rowe's paper, commented on the judgment says:—"We admit that this is not the first instance in a British court of justice where the court on its own motion and at the investigation of the judge who feels that he has been maligned, has initiated proceedings for a contempt of court committed, not in the first instance where a judge who has claimed to have been so slandered has claimed upon his own case, but we believe that this practice is solely confined to courts in the Province of Manitoba. Under these circumstances no one will be surprised at the ruling of the court."

DELICATE WOMEN.—Cases of female weakness, delicate and enfeebled constitutions, and all suffering with Stomach, Liver and Kidney complaints, will find Electric Bitters a speedy and certain cure. The sick and prostrated should realize that such a reliable remedy is placed within their reach. Health and happiness will surely follow where Electric Bitters are used. For sale by Jas. Clarke & Co.; price only five cents.

STRAYED.—Came into the enclosure of the undersigned on Charlotte Street, Belleville, a white pig with black spots. The owner can have same by paying charges. JOHN THOMPSON, at Gen's Drug Store, 131 1/2 St.

FOR SALE OR TO LET.—Two lots for sale, a frame house on Cedar Street, in good repair, with nice garden, containing fruit trees attached. Rent, \$4 per month. Apply to BELL & PONTON, Barristers, Sept. 29.

HOUSE TO LET.—On Pinnacle St. between Bridge and Dundas Sts. a two story brick house, in good repair. Possession given 1st Oct. Apply to JAMES GLEN, Executor. 115 1/2 St.

TO RENT IN SUTHERLAND'S TERRACE.—The house at present occupied by Mr. Wolfe, of the Customs, also the house lately occupied by Mr. Frederick Lingham. Apply to N. B. FAIRBANKS. 41 St.

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Bartman & Simons. Possession on the 15th day of October next, at which date present lease will have expired. JOHN BELL. 84 St.

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Bartman & Simons. Possession on the 15th day of October next, at which date present lease will have expired. JOHN BELL. 84 St.

TO LET.—The store on the east side of Front Street next the Bank of Commerce, now under lease to Bartman & Simons. Possession on the 15th day of October next, at which date present lease will have expired. JOHN BELL. 84 St.

GOVERNMENT OF COURT CASE.—A Winnipeg dispatch says:—In the case of the Queen v. Howe for contempt of court, the Chief Justice gave judgment on Saturday, making the rule of attachment absolute. Sentence was deferred. Justice Duff concurred in the decision. The Times, Mr. Rowe's paper, commented on the judgment says:—"We admit that this is not the first instance in a British court of justice where the court on its own motion and at the investigation of the judge who feels that he has been maligned, has initiated proceedings for a contempt of court committed, not in the first instance where a judge who has claimed to have been so slandered has claimed upon his own case, but we believe that this practice is solely confined to courts in the Province of Manitoba. Under these circumstances no one will be surprised at the ruling of the court."

DELICATE WOMEN.—Cases of female weakness, delicate and enfeebled constitutions, and all suffering with Stomach, Liver and Kidney complaints, will find Electric Bitters a speedy and certain cure. The sick and prostrated should realize that such a reliable remedy is placed within their reach. Health and happiness will surely follow where Electric Bitters are used. For sale by Jas. Clarke & Co.; price only five cents.

STRAYED.—Came into the enclosure of the undersigned on Charlotte Street, Belleville, a white pig with black spots. The owner can have same by paying charges. JOHN THOMPSON, at Gen's Drug Store, 131 1/2 St.

## Daily Intelligencer.

### Correspondence.

While correspondence will be accorded space  
for the expression of their views on topics of  
public interest, it must be in concise and  
clear language, and the views expressed are  
those of the correspondents themselves.

To the Editor of the Intelligencer.

Sir,—I am glad to see that our politicians  
are ambitious to do their duty and that  
one of increasing the revenue of our city is  
one of the first things they are thinking of.  
I am sure that the views of the people are  
being taken into consideration, and that the  
views of the people are being taken into  
consideration, and that the views of the  
people are being taken into consideration.  
I am sure that the views of the people are  
being taken into consideration, and that the  
views of the people are being taken into  
consideration.

Yours, A. S. FERRIS.

For the Intelligencer.

"Charles McDavitt, Reeve of Ban-

gor, et al."

Mr. Editor.—In yesterday's INTELLIGENCER

I find a letter from my bachelor friend

Charles McDavitt, who I am sorry to say still

seems to feel angry at my first as well as

second communication about his bachelor-

hood. "Choose twelve gentlemen," as in many

cases might be the case, but a jury of 12

young ladies would no doubt decide the case

fairly, they would in my opinion be the best

judges, and if it is a matter of the "fury

of the law" he had better say no more about it.

As to my striving to make him "appear

ridiculous. For why? Simply because having

slurs cast upon him as a Revere, (he) had

the audacity to reply and sign himself, Revere.

I once knew an Indian called "Captain

John," who when he had taken a glass or two

used to say, "Me Captain John, very big man,

me Captain John, very big man, me Captain

John, very big man, me Captain John, very

big man, me Captain John, very big man, me

Captain John, very big man, me Captain John,

very big man, me Captain John, very big man,

me Captain John, very big man, me Captain

John, very big man, me Captain John, very

T. MUIR,

Late Muir & Lawrence.

Windsor Hotel, Campbellford,

T. BLUTE, Proprietor.

THIS is acknowledged to be the best Hotel

in any of the island towns and villages,

and equal to the best in the city. There is

good boating, fishing and hunting in the

vicinity, and the delightful country around

Campbellford makes it one of the most pleas-

ant of Canadian summer resorts. Families

desiring of spending a few weeks, or parties

coming on Saturday and remaining over Sun-

day, can be accommodated at reasonable prices.

For Nice can be arranged for by applying to

Mr. T. BLUTE. 2843m

## The Intelligencer

FAMILY ALMANAC

FOR 1881,

Will Shortly be Published.

ANNUAL ILLUSTRATED ALMANAC.

THIS work will contain over sixty pages,

handwritten printed on toned paper, with

a large and varied budget of interesting and

valuable general articles, attractive in style

and handsomely illustrated.

In addition to the articles of general interest,

it will contain a large amount of local

information, and such a character as to make it

of special value to every inhabitant of the

County.

5,000 Copies

of this Almanac will be published, and gratui-

tously and judiciously distributed throughout

the Counties of Hastings and Prince Edward,

and City of Belleville, thus rendering it one

of the most valuable mediums for advertising

ever presented to business men.

Certain pages will be devoted to advertising,

at the following rates:

One page.....\$12.00

One half page..... 8.00

One third page..... 6.00

One fourth page..... 4.00

The attention of one business man is called

to the importance of placing their Business

Cards in the family circle, where they will be

preserved.

Business men who may not be waited upon,

desiring of taking advantage of this opportu-

nity of making money, can send their orders to

the office of the

Intelligencer Co.,

Corner Front St. and Market Square.

OPPOSITE ALBION HOTEL.

PATENTS

obtained for new inventions, or for improve-

ments in old ones. Caveats, Trade Marks and

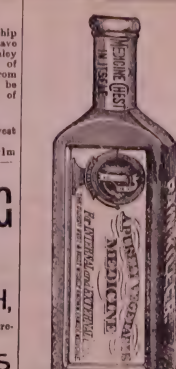

all patent business promptly attended to.

Inventions that have been re-

jected may still, in most cases, be patented

by us. Being opposite the U. S. Patent Office,

sively, we can secure patents in less time

## SUBSTITUTES!

THE public are cautioned against a custom which  
is quite common of late among a certain class  
of medicine dealers, and which is this: When asked  
for a bottle of PAIN-KILLER, they suddenly discover that  
they are "sold out," "that have another article just as  
good, if not better," which they will supply at the same  
price. The object of this deception is transparent. These  
substitutes are made up to sell on the great reputation of  
the PAIN-KILLER, and being composed of the vilest  
and cheapest drugs, are brought by the dealer at about  
half what he asks for the genuine PAIN-KILLER, which  
enables him therefore to realize a few cents more profit  
per bottle upon the imitation article than he can on the  
genuine.

For CHOLERA MORBUS, CRAMPS,

SUMMER OR BOWEL COMPLAINTS

PERRY DAVIS' PAIN-KILLER

IT CURES ALMOST INSTANTLY

The PAIN-KILLER being superior and more effective, revealing at

as and as soon as previously-labeled bottles are therefore cheapest

I am authorized to contract for advertisements in the DAILY INTELLIGENCER at our best rates.

Belleville, Thursday, Oct. 7.

## The New Post Office.

We learn that, upon the report of the Departmental Engineer who visited this city early in the year, for the purpose of examining the various properties offered as the site for a post office and public building, the Government decided to purchase the property of Thomas W. H. Bell, on the south-west corner of Pinnock and Bridge Streets. The purchase has been completed, at the next session of Parliament a sum sufficient for the erection of the building will be appropriated, and work on its erection will be commenced as early as possible in the spring.

The site selected by the Government is an excellent one for the purpose, and is generally approved. The Government are entitled to receive the attention which they have paid to the requirements of Belleville, where just claims in the regard now for the first time receive practical recognition.

## A Sweet Subject.

The Globe has not had anything to say as to the sugar "monopoly" since the Montreal Journal of Commerce demonstrated in a way to render successful contradiction impossible, that the effect of the N. P. has been to give our people not only better but cheaper sugar than could have been had under the Tariff Act, which has been the reason for the reduction in the United States. Neither have the minor organs, which professed to pity the housewife because the N. P. had so increased the price of sugar as to prevent her from making the usual quantity of preserves, dilated on that subject lately. Perhaps the fact that grocers are now selling as high as 13 pounds of sugar for a dollar has something to do with their silence.

## Political Notes.

WHAT THE REVENUE TARIFF DID.

The Mail says:—"The manufacturers of St. John have formulated and proved a serious charge against the late Dominion Government, that of imposing a tariff which, in four years, caused a loss to St. John and Portland manufacturers alone of over two and a quarter millions of dollars of annual wages paid, and about four thousand people driven out of employment. And this, notwithstanding the enormous expenditure and the employment afforded during the rebuilding of the burnt district. The St. John Sun publishes statistics which fully substantiate the accusation. There is not a city, town or village in the country that has not suffered to a greater or less extent from the same cause and in a similar way. And yet the Globe and many of its contemporaries sigh for the return to power of the party whose infamous adherence to an imperial tariff has been the productive of such lamentable results, and left a series of deluges behind.

## A POINT AGAINST THE TARIFF.

Says the Port Hope Post:—"An Ottawa paper makes a point against the Tariff tariff. A New York merchant was recently interviewed, who is, by a reporter, and among other things said business had increased greatly. 'Why, it is enormous,' he went on to say, 'our sales throughout the West are over a hundred per cent. greater than last year, while the advance in the Southern trade is simply amazing. We have orders that cannot be filled in two months.' Says our shrewd contemporary at the capital, ironically, 'Of course, it is all owing to the N. P., that business is booming in New York.' Of course it is—to the American N. P., which the Canadian resembles somewhat in its policy. And the prosperity which their N. P. has brought on our neighbors, our N. P. is bringing us."

## THE BUDGETARY TRAGEDY.

Good progress is being made in the Budgetary trial. A large number of witnesses were examined on Wednesday, the evidence being largely directed towards showing the character of the Vigilance Committee. William Donnelly was placed on the stand, and substantially repeated the evidence given at the request. The last witness examined was Martin Hogan, who also in William Donnelly's house on the night of the murder.

## THE TORONTO AND OTTAWA.

The Globe states that Mr. Goodhue and his colleagues have determined to build the Toronto and Ottawa Railway, the cost of which is estimated at \$60,000, of which the municipalities interested will give bonuses amounting to \$1,200,000. Of this Toronto will be asked to contribute \$300,000, and although the Globe favors the giving of this bonus, it is not confident that it will be granted.

## DISSENTING TENDERS.

The Osborne Express says:—"During the past week no less than three tenant farmers in this vicinity have mysteriously disappeared, forgetting to pay the rent due on their farms, and leaving behind them many heavy unpaid 'store bills,' but not leaving behind them anything wherewith to remunerate their sorrowing creditors."

## ZORPISA.

We have secured the agency for this compound for Dyspepsia and Liver Troubles. It is an under the most favorable conditions, being very highly endorsed and approved. Its wonderful ability to the Digestive Organs and the Liver, increases the discharging of the stomach and regulates the liver, can be tested by securing a sample bottle, which sells at 10 cents, or large sized bottle, 70 cents. L. W. YOUNG, Agent.

—Mrs. Lewis, of Toronto, whose name has been lately mixed up with the Handford scandal, is a woman of attractive personal appearance and a good conversationalist.

## THE UNION EXHIBITION PRIZE LIST.

CLOSING NOTES.

The attendance in the afternoon improved very much, there being probably not less than 2,000 people on the grounds at 2:30 p.m. Amongst the visitors were the pupils of the Institution for the Deaf and Dumb, who seemed much pleased with what they saw. The school children also attended in large numbers.

The chief object of attraction was the horse ring, where exhibitions of style and speed were given in the presence of a very large and deeply interested crowd. The show was a good one, and the judges had much difficulty in deciding between so many fine animals.

Mrs. O. R. Jones's three year old colt by "Mile," which took first prize, a beautiful animal. It possesses the clean, powerful, muscular legs, the youthful but perhaps immature body, the round deep body, strong hips and the clean neat head of its sire, and is one of the nicest colts seen in the ring here for several years.

At 4 o'clock the exhibitors began to remove their articles, the visitors began to leave the grounds, and in the space of two hours the grounds were clear and the building emptied of its contents, with the exception of a very few articles. The following is the PRIZE LIST.

## BLOOD CATTLE.

In this class fall pedigree, properly certified man-in-the-farm entries. D. H. Jones, 1st; J. H. Jones, 2nd; J. H. Jones, 3rd; J. H. Jones, 4th; J. H. Jones, 5th; J. H. Jones, 6th; J. H. Jones, 7th; J. H. Jones, 8th; J. H. Jones, 9th; J. H. Jones, 10th; J. H. Jones, 11th; J. H. Jones, 12th; J. H. Jones, 13th; J. H. Jones, 14th; J. H. Jones, 15th; J. H. Jones, 16th; J. H. Jones, 17th; J. H. Jones, 18th; J. H. Jones, 19th; J. H. Jones, 20th; J. H. Jones, 21st; J. H. Jones, 22nd; J. H. Jones, 23rd; J. H. Jones, 24th; J. H. Jones, 25th; J. H. Jones, 26th; J. H. Jones, 27th; J. H. Jones, 28th; J. H. Jones, 29th; J. H. Jones, 30th; J. H. Jones, 31st; J. H. Jones, 32nd; J. H. Jones, 33rd; J. H. Jones, 34th; J. H. Jones, 35th; J. H. Jones, 36th; J. H. ## Daily Intelligencer.

BELLEVILLE, THURSDAY, OCT. 7.  
6 O'CLOCK EDITION.

## City and Vicinity.

**THE CHAIR.**—One prisoner—a drunk—lodged at the police station last night.

**WEATHER PROBABILITIES.**—The following are the Toronto probabilities:—Lakes, Wind shifting to the south and east, fine weather to-day, followed by rain areas to-morrow.

**PERSONAL.**—Hon. Mr. Bowell arrived here from the Capital last evening and left this morning to attend the North Hastings exhibition. To-morrow he will attend the fair to be held at Stirling.

**YACHTING NOTE.**—The yacht Kathleen was taken to Trenton yesterday afternoon by Capt. Outhbert, Mr. J. K. Cumming, and others. A match between the Kathleen and the Surprise is being talked of.

**FROM THE NORTH-WEST.**—An interesting letter from Major O'Neil, of the Mounted Police, giving some valuable information as to the Wood Mountain country and the Indians, will be found in other columns.

**THE HORSE TRADE.**—Purchasers are now in the market and are securing horses for use in Michigan. The animals sought after are of the serviceable class, large, strong and fit to work in the lumber limits. Fair prices are being paid for such as are suitable for the purpose.

**Big Work.**—Mr. J. G. Peck informs us that Mr. Vanblanc's recent exploit in potato digging having been doubted, he set to work in the presence of our informant, and in one hour dug 43½ bushels of potatoes. The soil is loamy and very favorable to rapid work of the kind.

**MEETING.**—The South Hastings Teachers Institute will meet in the Central School in this city on Thursday and Friday, Oct. 28th and 29th, when a programme of matters appertaining to school instruction and school interests will form subjects for discussion.

**FROST.**—There was a severe frost in this section last night, as was evidenced by the appearance of the sidewalks this morning. Those who were incautious enough to leave their plants outside now regret having done so, while others in dread of such an event made the necessary preparations for the coming of the icy king.

**GAME.**—Fall ducks are coming in now in considerable numbers, and many are being daily shot. A gentleman who resides on Big Island, states that on Tuesday evening, whilst he was milking a cow, he counted over 90 shots that were discharged from the High Shore. A resident of Huff's Island also gives the information that ducks are becoming numerous in that locality.

**LARGE YIELD.**—A private letter received from a former resident of Thurlo, who is now located in the 1st con. of the Township of Faraday, states that the writer this season raised 415 bushels of potatoes, the yield of 3 bags of seed. The land on which the potatoes were grown had during the past three seasons been devoted to the growth of wheat. As the above statement can be properly verified, it shows that there is as good land in some localities in the northern portion of this county as in the district along the bay shore.

**BEDON STREET CHURCH.**—The pastor of Bridge Street Church said last Sunday evening that when the altar was laid in the basement of that church, that church was going to have a suite of rooms for Sabbath School purposes which would be as fine as any in the Dominion. Such a statement coming from a gentleman who has travelled so extensively, led us to go in to see what was going on in the basement, and such a transformation as met our eyes! But here we must stop, for we remember also that Dr. Jeffers said on Sunday evening, "It is not fair to judge anything until it is completed. Wait until the scaffolding is taken down, &c., &c." and we take his wise advice and wait a description of the alterations until before the opening, which we now understand is to be on Sunday, the 23rd inst.

## MARTIN.

There are no arrivals to record to-day. The schooner Flora Carver, with lumber, left last evening for Oswego.

The schooner A. G. Ryan, which was supposed to have been lost during the gale of Wednesday last week left Toronto yesterday for Jordan to load wheat for Kingston.

The schooner Delacore and Muley are chartered to load grain here for Oswego, and were expected to arrive to-day.

The tug Madama ran on the Brothers bar on Monday night. The Lady Franklin took her off yesterday.

The prop. Armande ran upon a shoal at Gananoque at 2 o'clock this morning. The Steamer Princess Louise pulled her off.—10.

The schr. W. W. Grant, from Napawa, with barley for Oswego, had a rough voyage last night. She entered the harbor with her knick heads and the heel of her bowsprit carried away.—10.

The schr. Florence had her foremast torn into shreds when near Oswego, on Thursday. She ran back to that port.

Journal and others in want of Shirts and Drawers, Towels or Clothing, would be pleased by calling on James Hennessy, 337 Front Street. He has the largest and cheapest stock in the city.

## POLICE COURT.

(Before Thos. Holden, Esq., P. M.)

THURSDAY, 7th Oct., 1880.

William Meagher appeared to answer the charge of having been drunk and disorderly on the public streets. As this was the first offence he was allowed to go.

## Bones from the Depot.

A car load of cattle from Trenton, passed down last night, destined for the eastern market. Freight traffic "boomed" to-day, as there was an extra number of freight trains each way.

Six cars of hogs; 5 of cattle; 3 of butter and 2 of apples, for Montreal, and eight cars of refrigerated beef from Chicago, for Worcester, Springfield and Lawrence, Mass., passed eastward this morning. Seven cars of steel rails for the use of the North Western Grand Trunk, went westward this afternoon.

Two special trains with passengers, bag, baggage &c., passed westward this morning. Each train consisted of 16 cars, and their occupants were destined for Manitoba. Their number was augmented by a party from this district.

The mid-day express from the west was an hour behind time to-day.

Thos. Watkin shipped one car of cheese to England to-day via Montreal.

The Grand Junction train this morning brought in six cars of grain from Campbellford. One car of cheese came in yesterday from the same point, and a car similarly laden arrived this morning.

Three cars of hematite iron from the Oco & Mitchell mine, Madoc, arrived to-day and will be sent to West Middlesex, Pa., where it will be smelted. This is the first shipment of ore that has been made from this section to Pennsylvania.

A car load of stump machines arrived this morning.

The locomotive officers have been painted and additional light furnished them. These improvements were greatly needed and the change is a very acceptable one.

An enlargement of the present station or the erection of a new building should receive the early attention of G. T. R. authorities here, as the present accommodations are far too limited for the purposes to which they are now devoted.

ZOPESA, from Brazil, is now come into Canada. It is a mild purgative, acting as a cathartic, and giving strength and energy to the Digestive Apparatus of the human stomach, correcting and increasing the acids. It is strongly Antacid and carries off all surplus bile, and gives the liver, gives sound digestion and speedy health to the Dyspeptic and the Bilious. Ask Dr. W. Yeomans for a ten-cent sample bottle and taste ZOPESA, the new compound. Large eight ounce bottles 75 cents. 13424wly

## Sporting Notes.

The Long Point duck shooting party bagged a lot of game. The Marquis of Lorne bagged 115, Col. De Winton 115, Col. Walker 181, Capt. Harbord 65, Rev. Dr. Ryerson 41, and Bryce Allen 112.

Courtney's race with Riley was fixed for Tuesday at Enniscorthy, but Riley failing to appear, Courtney rowed three miles alone in 20:28.

Captain Stone claims that Maud S. can trot in 2:10. Hickok claims that St. Julien can do anything that Maud S. can accomplish, and Mr. Balch, who recently purchased Parson, promises that next year she will beat the pair of them.

**ESSENTIAL OILS ("Eucalypti")** to beautify and preserve the teeth. It sweetens and gives fragrance to the breath. Delightfully cooling and refreshing. Testimonials from all over the country of its excellence. Price 50c. 13424wly

## Tweed Notes.

The meeting of farmers in the Town Hall Hungerford, was well attended on Saturday, the 2nd inst.

The Rev. Mr. Gordon, was called to the chair and T. Graham, Secretary, they came to the conclusion to send their barley to Crookston Station on the N. H. R. R. and employ Mr. Geo. Easterbrook as their Superintendent to see that grain and weigh for them. A Committee was appointed to select the most advisable time to sell, they are determined they will not draw their grain this fall over the road to Belleville. They will ship about 15,000 bushels of barley, exclusive of other grains.

Wm. Coulter, of Huntingdon, exhibited three large potatoes in Tweed a few days ago, which weighed in the aggregate 45 lbs., they were of the Early Vermont variety.

A meeting of the Tweed Branch of the Upper Canada Bible Society was held in the Methodist Church, Tweed, on Monday evening the 4th inst. when addresses were delivered by the following gentlemen: The Rev. Mr. Tredder, R. Gordon, Esq., rector; Rev. Mr. Walker and J. G. Manly. The officers chosen for the year are: Robert Gordon, Esq., Pres.; the ministers in charge of the Tweed Circuit, to be Vice Pres.; Wm. Wright, Treas.; Wm. Wray, Sec.; L. Tuttle M. D., Deputary. Committee: John Newton, W. J. Bowell, J. T. Reynolds and Joseph Elliott. Collectors: Miss Lydia Wray, Mrs. Dettlor, Miss M. J. Gordon, Miss Oliver, Miss John, Miss Jennie Newton and Miss O. Porter.

## Spread the Good News.

As a family medicine and tonic, there is no remedy at present giving such universal satisfaction, and effecting so many astonishing cures as Electric Bitters. Our druggists receive a lively demand for them at all times, unable to supply the many calls. All Bilious Attacks, Stomach, Liver and Kidney Complaints, Diarrhoea, Bile, &c., yield to their curative qualities. Sold by Jas. Clarke & Co. at fifty cents per bottle.

**THE EASTERN CHIEF.**—No further move has been made in the East. The Sultan is still convinced that the concert of the Powers will yet be broken, although his Ministers have all advised him to submit. The conditions insisted on by him that assurances be given that no naval demonstration be made in the future are regarded as preposterous.

## Cured of drinking.

A young friend of mine was cured of an insatiable thirst for Liquor, which had preyed him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. He took a bottle of the third took away the appetite for liquor; made him nervous steady, and he has remained sober and steady for more than two years, and has no desire to return to his cups. I know a number of others that have been cured of drinking by the use of a leading B. B. Office, Ill.

## Serious Accident at the Rifle Range.

## A Marker Dangerously Wounded.

About one o'clock this afternoon an accident of a very serious character occurred at the rifle range during the progress of the Association match at the 600 yards range.

From the statements of those who were on the ground, it appears that Sergeant George Fraser, of the 1st Co. of the 15th Battalion, was acting as one of the markers. Sergeant Garratt and Bugler Brown were on the mound and one of them fired a few seconds after the other. A bullet hit the target, and Fraser went to ascertain where it had hit, when the second bullet struck him on the left side. The ball entered the back about the angle of the ninth rib, penetrating about nine inches. After receiving the wound Fraser ran southward toward the marksmen, and after going a short distance sat down. The attention of those present was drawn to him, and his situation being made known, medical attention was summoned and he was taken to his home at Pinnacolo and Dundas Streets.

At this writing it has not been ascertained whether or not the injury is of a fatal character, but Drs. Burdett and Eskins will hold a consultation, when the character of the wound will be determined.

Garratt and Brown do not think either particularly one the person who fired the unlucky shot, though some of the men assert that the latter was the person who caused the accident.

LATER.—The result of the consultation between Drs. Burdett and Eskins was that they came to the conclusion that the wounded man will probably recover.

## Rifle Shooting.

## The 15th H. A. at the Ranges.

The annual rifle matches of the 15th Battalion Rifle Association opened this morning over the usual ranges.

The weather was pleasant, but a stiff air blow over the ranges from the north west and interfered considerably with the accuracy of the shooting. The officers and men appeared in uniform and as the sun shone brightly, the scarlet coat, the polished buttons and the smooth gun barrel dazzled the eyes and made the scene attractive. The average shooting was below middling, as the score attested, but the figures of some of the marksmen show that there is good material in the Association.

The opening event was the Merchant's Match; ranges 200 and 600 yards; 6 shots at each range; the score which is hereto appended:

	300 yds.	500 yds.	Total.
Lt. Rowe	18	20	38
Pte. Donald	16	15	31
Lt. Hastings	15	15	30
Pte. McNeill	15	11	26
Serge. Soles	15	11	26
Pte. McNeill	15	7	22
Serge. Ruttan	15	8	23
Pte. Masson	17	5	22
Pte. Yerlany	11	7	18
Serge. Gerow	15	5	20

NOTE.—The tie in the above record are yet to be decided.

At the conclusion of the above three cheers were called for and given for Lt. Rowe, the winner of the first prize.

## COMMERCIAL NOTES.

**EXPORTS.**—The value of the exports to the United States for the last quarter, as furnished by the returns of Col. Twitchell, American Consul at Kingston, presents a total of \$156,614.68 whilst the reports from Napawa, Canada, show that the same port made up an additional total of \$170,938.27. The principal articles exported were various grain, iron ore and lumber.

**PHOSPHATE.**—The Kingston Whig of the 6th says: "During the past week upwards of 80 tons of phosphate has been purchased by one firm here. Over 40 tons of this has been brought in on wagons from the Lo-borough district. The price has been reduced by 50 cents to \$10.50 per ton, a cablegram announcing the fall being received this morning."

## AFTERNOON DISPATCHES.

**LONDON, Oct. 7th.**—Reports from various parts of the kingdom show that considerable damage was done lately by heavy rains and floods.

**NEW YORK, Oct. 7.**—James Stephens, the founder of Fenianism, for whose person the English Government offered a reward of \$25,000, was discovered here yesterday destitute and starving. His immediate needs were covered by a newspaper reporter.

**NEW YORK, Oct. 7.**—The Warrenburgh shoddy mill, occupied by Ryan & Co. was burned last night. Loss \$13,000.

**ST. LOUIS, Oct. 7.**—J. K. Emmet, actor, has delirium tremens at the house of his sister here; his condition is very dangerous. Mr. Emmet is now in New York, and has been summoned by telegram to come at once if his sister be in her husband's hands.

**BOSTON, Oct. 7.**—A plot to release a large number of prisoners from the state prison at Concord was discovered yesterday and was frustrated.

**MINNEAPOLIS, Oct. 7.**—Camp & Walker's steam saw mill was burned last evening. Loss \$75,000.

**WASHINGTON, Oct. 7.**—Indications: lower lakes, partly cloudy, rising temperature.

## Stop that Cough.

If you are suffering with a Cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, loss of voice, tickling in the throat, or any affection of the Throat or Lungs, use Dr. King's New Discovery for Consumption. This is a great remedy that is causing so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is really the only cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle for ten cents, or a regular size for \$1.00. Jas. Clarke & Co.

## BUCKLE'S ARCADE BALVO.

THE BEST BALVO in the world for Cuts, Bruises, Scors, Ulcers, Rashes, Rheum, Tetters, Chaps, Burns, Stings, Corns, and all kinds of Skin Eruptions. Throat, and is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per bottle. For sale by Jas. Clarke & Co., 90-ly

## A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a remedy that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. J. H. T. Lewis, Station D, New York City.

## Commercial.

## BELLEVILLE MARKETS.

INTELLIGENCER OFFICE, Belleville, Oct. 7, 1880.

The West Belleville Elevator, which has been shut up for the last two weeks, was opened to-day, and commenced taking in grain, when rye went up with a rush. We quote rye to-day at 85c, which price is still readily. Up to noon to-day we heard of sales as high as 90c.

With such reliable advice from Oswego, an effort was made by buyers to drop the price of barley 50 cents yesterday, but the market had regained its lost position by noon to-day, and all good barley is taken to-day at 60c, superior 65c.

WHEAT—\$1.10.  
 BARLEY—45c to 65c.  
 RYE—85c to 90c.  
 OATS—32c to 40c.  
 PEAS—10c to 10 1/2c.  
 LAMB—8c to 7c 7/8 per pound.  
 HOGS—Dressed, 36.50 to 37.00.  
 LARD—8c to 10c.  
 BUTTER—16c to 18c.  
 BUTTER—Roll 20c to 25c.  
 EGGS—12c to 12 1/2c per dozen.  
 HONEY—Rough 75c, 50c butchers' packed; 80c.

SHEEP—75c to \$1.00.  
 DEERINGS—50c to 60c.  
 CALF SKINS—11c per lb.  
 WOOL—28c per lb.  
 LARD—8c to 11c.  
 FALLOW—Rough, 35c.  
 FALLOW—Rendered, 55c.  
 CABBAGE—30c per bag.  
 POTATOES—10c to 50c per bag.  
 FLOUR—Wholesale, 85c per bbl.  
 FLOUR—Retail, 90c per bbl.  
 HAY—\$10.00 to \$11.00 per ton.  
 STRAW—40c to 45c per pair.  
 EGGS—30c to 35c per pair.  
 CHEESE—35c to 50c.  
 TURKEYS—50c to \$1.00.

## TORONTO MARKET.

TORONTO, October 7.—Fall wheat, No. 1, \$1.02 to \$1.03; No. 2, \$1.00 to \$1.01; No. 3, 95c to 95c. Spring—No. 1, \$1.09 to \$1.10; No. 2, \$1.07 to \$1.08; No. 3, \$1.03 to \$1.04. Barley—No. 1 70c to 75c; No. 2 65c to 70c; No. 3 60c to 65c. Peas—No. 1, 65c to 66c; No. 2, 64c to 65c. Oats—No. 1, 31c to 32c; No. 2, 30c to 31c. Corn—No. 1, 45c to 46c; No. 2, 44c to 45c. Extra, 44c to 45c. Fancy, 44c to 45c. Strong bakers, 55c to 56c; spring extra, 54c to 55c; superfine, 54c to 55c; fine, 54c to 55c. Hard, 53c to 54c. Spring wheat, \$1.00 to \$1.10. Fall wheat, 90c to 92c; Oatmeal, 83c to 84c.

Wheat and barley. Flour 50c lower and dull at the decline. Barley 50c lower and unchanged. Peas and Oats firm and in moderate demand at quotations.

## MONTREAL MARKET.

MONTREAL, Oct. 7.—Flour receipts 5,745; sales 6,618 bbls. Market quiet, prices unchanged. Quotations:—Superior extra \$3.30 to \$3.35; extra \$3.15 to \$3.17; spring extra \$3.25 to \$3.30; superfine \$4.70 to \$4.80; strong bakers, \$5.50 to \$5.55; fine, \$4.10 to \$4.20; middling \$4.60; polars \$3.90 to \$3.70; Ontario bays \$2.55 to \$2.65; city do. \$3.00 to \$3.05.

Oatmeal \$4.25 to \$4.35; Cornmeal \$2.75 to \$2.80.

Wheat—12c, superior \$5.25; 20c do \$5.25; 10c extra \$5.15; 10c to \$5.15; 50c do \$5.20; 12c spring extra \$5.25.

Grain—Canada No. 2 spring wheat \$1.16 to \$1.18; red and white winter \$1.10 to \$1.12. Corn \$1.15. Peas 80c to \$1.01. Oats 30c to \$1.10. Rye 85c to 85c to quality.

Provisions—Butter, western 17c to 18c; B. M. 19c to 21c; Eastern Townships 20c to 22c; creamery 25c to 28c. Pork \$18.50 to \$19. Hams 12c to 14c. Bacon 10c to 11c. Ashes—\$4.55 to \$4.65 for pots.

## MONTREAL STOCKS.

The following is the official report of the Montreal Stock Exchange, Oct. 6:

Name.	asked.	sale.

Local Agents of the Intelli-  
gencer.

The DAILY INTELLIGENCER is for sale  
every evening at the following places. Sub-  
scribers taken at these agencies by the  
week at ten cents.

BELLEVILLE.  
A. Robinson—Front Street.  
J. C. O'Connell—Front Street.  
M. O. Donaghy—Front Street.  
J. C. Reynolds—Bridge Street.

MADISON.  
C. G. Wilson—Drug and stationery  
store.  
Dr. G. H. Boulter—Drug and stationery  
store.

CAMPBELLFORD.  
T. Oliver, and at the Windsor Hotel.  
TRENTON.  
J. B. Christie—at the Post Office.

## Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in  
newspapers ready for mailing can be had at  
the business office, corner of Front and  
Market Streets, every Thursday. Price  
5 cents.

J. H. HATTON, NEWSPAPER ADVERTISING  
AGENCY, 41 PARK ROW, (Time Building),  
NEW YORK.

I am authorized to contract for advertisements  
in the DAILY and WEEKLY INTELLIGENCERS  
at our best rates.

**Daily Intelligencer.**  
BELLEVILLE, FRIDAY, OCT. 8.

## The Revenue.

The returns of the revenue for the first  
quarter of the current fiscal year have  
been given to the public in a commendable  
promptitude, and the result proves to  
be entirely satisfactory. The July returns  
showed an increase of \$99,541.14 over the  
same month of last year; August followed  
with an increase of \$387,799.23; and Sep-  
tember succeeds with \$69,165.18. The whole  
increase in the first quarter of 1880-1 over  
the corresponding period of 1879-80 is  
\$1,877,795, a fact which disposes most  
effectually of the wild assertions of some of  
the Grit organs that with the increase in  
the rate of duties there had occurred a de-  
cline in revenue.

The figures for the first quarter of the  
past three years compare as follows:—

	1878.	1879.	1880.
Customs.....	\$3,127,478	\$3,313,015	\$4,732,623
Excise.....	1,653,963	1,812,228	2,235,298
Other sources.....	1,401,147	909,128	1,194,669

It is thus almost certain that the esti-  
mate of revenue which was made by the  
Finance Minister, and which the Opposi-  
tion professed to consider as being  
much too sanguine, will be more than  
realized. Sir Leonard Tilley estimated the  
revenue of the current fiscal year at \$25-  
517,000, but if the present rate of increase  
be kept up, it seems probable that the re-  
venue will amount to two and a half mil-  
lions more. With a buoyant revenue, with  
a great increase in manufacturing and  
all other branches of industry, with relief  
from the temporary burden of the construction  
of the Pacific Railway, there is every reason  
to look forward to a bright and prosper-  
ous future for the country.

## Political Notes.

INDEPENDENCE AND ANNEXATION.  
The Ottawa Free Press expresses astonish-  
ment that "not a single Conservative  
paper in Canada denounces Mr. Goldwin  
Smith for preaching Annexation, nor the  
Toronto Telegram for advocating Independence."  
The two kinds of folly referred to  
have so few adherents in Canada—beyond  
a few malcontents who adhere to the Grit  
party—that they are scarcely worth pro-  
ceeding, otherwise the subject would receive a  
due share of attention from the Conserva-  
tive press. But why don't the Grit press  
debate the subject? It would be quite as  
profitable as vain assaults on the N. P., and  
on the Government's policy generally.

## Producer and Consumer.

Says the London Advertiser: "It should  
not be forgotten that the consumer is the  
person whose interests should be consulted  
in Canada. Till the whole condition of  
the country is changed, the vast majority  
of the people of the Dominion are con-  
sumers rather than producers of manu-  
factured articles." This is true—in a certain  
extent. But the Advertiser can hardly have  
failed to note that, by the operation of the  
N. P., the country is rapidly being con-  
verted into a producer as well as a con-  
sumer of manufactured articles. And as  
one of the consumers—meaning we suppose  
the classes not engaged in manufacturing—  
have not suffered by the change in our  
commercial policy.

## Contract Brokerage.

The Mail offers the following sensible  
suggestions:—"The Opposition parties  
have tried and convicted the Conservatives  
implied by the revelations before the  
Pacific Railway Commission; and are now  
hard at work defending Mr. Thomas Nixon  
and other Reformers whom the evidence  
has shown to be dishonest. Would it not be  
well to let the accused have been in self-  
defence, and then to condemn the guilty  
without respect of persons or politics? The  
course these journals are pursuing shows  
that they have no desire to condemn cor-  
ruption, except when committed by a political  
opponent. Let everybody have a chance to  
speak in his own defence, and then let the  
guilty suffer alike."

## Better Times.

The Grit papers are every day chroni-  
cling the return of better times, but they  
invariably say that the good times are  
coming "in spite of the N. P." says the  
Montreal Times. Now, what kept the  
"good times" away in the days of Mr.  
Mackenzie? Was it not the lack of con-  
fidence, which deterred people from invest-  
ing their money, thus shutting off work  
for the masses, which in turn diminished

the market for all classes of goods? The  
N. P. restored confidence. It has led  
directly to the investment of some  
millions of dollars in productive, labor-  
employing enterprises. And still the N. P.  
is an affliction, and the people are getting  
prosperous "in spite of it." Why fa-  
vor, so long as the prosperity puts in its  
appearance. They had been going down  
to receive small favors in a thankful spirit,  
and they now acknowledge the efforts of the  
Government to aid them by expressing  
satisfaction with their administration of  
affairs at every available opportunity.

## NORTH HASTINGS FAIR.

## A LARGE ATTENDANCE.

## A GOOD SHOW.

The annual Exhibition of the North  
Hastings Agricultural Society was held at  
Garners, Township of Huntingdon, on  
Thursday, October 7th. It was a bright,  
beautiful October day, the air balmy, fresh  
and invigorating, the sun shining out  
brilliantly, and the weather being in good con-  
dition; by all means the most favorable  
attendance was very numerous. From all  
parts of Huntingdon, and from Rawdon  
and Stirling there was a large representa-  
tion, and Madam and Marmora furnished  
a considerable number of visitors. The Show  
was necessarily somewhat scattered, the  
Society having no suitable buildings or  
grounds for its use. The exhibits were in one  
fold, the Horses, Swine and Poultry  
in another—the Roots and Vegetables and  
Grain were found in an old building not far  
from the hotel—while the ball room con-  
nected with the hotel was utilized for the  
exhibition of Domestic Manufactures, Dairy  
produce, and Fruit. As it was, there was  
not sufficient room to make a proper display  
of the very large exhibit made in some of  
the departments, particularly of Domestic  
Manufactures, and Roots and Vegetables  
and Fruit, and these were seen to con-  
siderable disadvantage. The Show was a  
very creditable one, in many respects far  
ahead of that of last year, and out-  
rivaling in several of the depart-  
ments the exhibition of the West Hastings  
Fair.

In the Domestic Manufactures there was  
a very large and fine display of home-made  
flannel, carpets, rugs, quilts, coverlets,  
mattresses, &c., while in the fancy and  
ornamental department, there was some  
excellent designs in crocheted work, lace,  
Berlin wool work, capes, raised work, &c.,  
showing rare taste and some very fine  
specimens of the art. Indeed it would be  
difficult to find any of our County shows  
a greater variety or finer display of work in  
this department than was exhibited by the  
fair daughters of the North Riding.

Of Fruit, there was a small display of  
apples and pears, the specimens of both  
being, however, very choice, and of grapes  
and melons, there were a few samples.  
The Dairy department was well represented,  
there being over thirty lots of choice  
butter, of such even merit as to render it  
difficult for the judges to decide which  
should have the preference. Of honey and  
maple sugar there were several samples.

In Roots and Vegetables the North has  
generally excelled the productions of the  
South, and this year the display in this  
department was far ahead both in quantity  
and quality of that of the West Hastings  
Fair. Several varieties of very fine pota-  
toes were exhibited, but the choicest speci-  
mens were those of the Early Vermont and  
the Snow Flake, which seem to have been  
the favorites with most of the exhibitors.  
There were some choice table beets and  
carrots, huge mangels, mammoth squash  
and pumpkins, large solid cabbages, im-  
mense turnips and a great variety of other  
roots.

In Grain and Seeds there was the largest  
and finest exhibition ever made at the  
North Hastings Fair, there being no less  
than 150 bags of different varieties, while  
of corn there were no less than 60 lots,  
some of which would have compared favor-  
ably with the best shown at the Provincial  
Exhibition.

The show of Oatmeal was comparatively  
meagre, though there were a few head of  
Durham and Ayrshire and a number of  
grades in good condition.

Poultry was represented by a few tur-  
keys, geese, ducks, and chickens. Of  
Sheep there was the largest and finest  
show of Cotswolds and Leicesters ever seen  
at a North Hastings Fair, some of the  
former comprising a number of yearlings  
brought from the Guelph Model Farm by  
the Messrs. Taylor. Both as to number  
and quality the show was far ahead of that  
at Belleville.

There were only a few lots of Swine,  
chiefly of the Berkshire breed.  
Of Horses, there was a good show, par-  
ticularly of carriage horses, and brood mares  
with foal yearlings.

A number of lumber wagons, demerits  
and open top buggies were exhibited,  
principally from the manufacturers of Mr.  
Chas. Ashley of Foxboro, and of Mr. Wm.  
Hudson, of Rolin.

Mr. John Graham, of the Stirling Foundry,  
had a number of steel ploughs, which  
it will be seen by the prize list carried off  
premiums. Mr. J. G. Foster exhibited a  
fine cultivator, a plough, harrow and com-  
bination, and Mr. John Robinson had on  
the ground one of Watson's reapers. There  
were a number of mowers and rakes, and  
other agricultural implements, but the names  
of the exhibitors were unable to learn.

Take it altogether the exhibition was a  
very creditable one, and one of the most  
successful ever held by the North Hastings  
Agricultural Society. It is to be hoped  
that steps will soon be taken to have suit-  
able buildings erected and grounds secured  
for the future exhibitions of this Society.

## The following is the

## PRIZE LIST.

DONORS WITH PRIZES.—Bull 3 years  
and upwards, 1st W. H. Chapman; 2d Geo.  
Taylor; Bull calf, 1st Geo. Taylor; Heifer  
1 year old, 1st Geo. Taylor; Heifer 2 years  
old, 1st Geo. Taylor; Heifer 3 years old, 1st  
Geo. Taylor; Heifer 4 years old, 1st Geo. Taylor;  
Heifer 5 years old, 1st Geo. Taylor; Heifer 6  
years old, 1st Geo. Taylor; Heifer 7 years old,  
1st Geo. Taylor; Heifer 8 years old, 1st Geo.  
Taylor; Heifer 9 years old, 1st Geo. Taylor;  
Heifer 10 years old, 1st Geo. Taylor; Heifer 11  
years old, 1st Geo. Taylor; Heifer 12 years old,  
1st Geo. Taylor; Heifer 13 years old, 1st Geo.  
Taylor; Heifer 14 years old, 1st Geo. Taylor;  
Heifer 15 years old, 1st Geo. Taylor; Heifer 16  
years old, 1st Geo. Taylor; Heifer 17 years old,  
1st Geo. Taylor; Heifer 18 years old, 1st Geo.  
Taylor; Heifer 19 years old, 1st Geo. Taylor;  
Heifer 20 years old, 1st Geo. Taylor; Heifer 21  
years old, 1st Geo. Taylor; Heifer 22 years old,  
1st Geo. Taylor; Heifer 23 years old, 1st Geo.  
Taylor; Heifer 24 years old, 1st Geo. Taylor;  
Heifer 25 years old, 1st Geo. Taylor; Heifer 26  
years old, 1st Geo. Taylor; Heifer 27 years old,  
1st Geo. Taylor; Heifer 28 years old, 1st Geo.  
Taylor; Heifer 29 years old, 1st Geo. Taylor;  
Heifer 30 years old, 1st Geo. Taylor; Heifer 31  
years old, 1st Geo. Taylor; Heifer 32 years old,  
1st Geo. Taylor; Heifer 33 years old, 1st Geo.  
Taylor; Heifer 34 years old, 1st Geo. Taylor;  
Heifer 35 years old, 1st Geo. Taylor; Heifer 36  
years old, 1st Geo. Taylor; Heifer 37 years old,  
1st Geo. Taylor; Heifer 38 years old, 1st Geo.  
Taylor; Heifer 39 years old, 1st Geo. Taylor;  
Heifer 40 years old, 1st Geo. Taylor; Heifer 41  
years old, 1st Geo. Taylor; Heifer 42 years old,  
1st Geo. Taylor; Heifer 43 years old, 1st Geo.  
Taylor; Heifer 44 years old, 1st Geo. Taylor;  
Heifer 45 years old, 1st Geo. Taylor; Heifer 46  
years old, 1st Geo. Taylor; Heifer 47 years old,  
1st Geo. Taylor; Heifer 48 years old, 1st Geo.  
Taylor; Heifer 49 years old, 1st Geo. Taylor;  
Heifer 50 years old, 1st Geo. Taylor; Heifer 51  
years old, 1st Geo. Taylor; Heifer 52 years old,  
1st Geo. Taylor; Heifer 53 years old, 1st Geo.  
Taylor; Heifer 54 years old, 1st Geo. Taylor;  
Heifer 55 years old, 1st Geo. Taylor; Heifer 56  
years old, 1st Geo. Taylor; Heifer 57 years old,  
1st Geo. Taylor; Heifer 58 years old, 1st Geo.  
Taylor; Heifer 59 years old, 1st Geo. Taylor;  
Heifer 60 years old, 1st Geo. Taylor; Heifer 61  
years old, 1st Geo. Taylor; Heifer 62 years old,  
1st Geo. Taylor; Heifer 63 years old, 1st Geo.  
Taylor; Heifer 64 years old, 1st Geo. Taylor;  
Heifer 65 years old, 1st Geo. Taylor; Heifer 66  
years old, 1st Geo. Taylor; Heifer 67 years old,  
1st Geo. Taylor; Heifer 68 years old, 1st Geo.  
Taylor; Heifer 69 years old, 1st Geo. Taylor;  
Heifer 70 years old, 1st Geo. Taylor; Heifer 71  
years old, 1st Geo. Taylor; Heifer 72 years old,  
1st Geo. Taylor; Heifer 73 years old, 1st Geo.  
Taylor; Heifer 74 years old, 1st Geo. Taylor;  
Heifer 75 years old, 1st Geo. Taylor; Heifer 76  
years old, 1st Geo. Taylor; Heifer 77 years old,  
1st Geo. Taylor; Heifer 78 years old, 1st Geo.  
Taylor; Heifer 79 years old, 1st Geo. Taylor;  
Heifer 80 years old, 1st Geo. Taylor; Heifer 81  
years old, 1st Geo. Taylor; Heifer 82 years old,  
1st Geo. Taylor; Heifer 83 years old, 1st Geo.  
Taylor; Heifer 84 years old, 1st Geo. Taylor;  
Heifer 85 years old, 1st Geo. Taylor; Heifer 86  
years old, 1st Geo. Taylor; Heifer 87 years old,  
1st Geo. Taylor; Heifer 88 years old, 1st Geo.  
Taylor; Heifer 89 years old, 1st Geo. Taylor;

## Daily Intelligencer.

WELLVILLE, FRIDAY, OCT. 8.

## 5 O'CLOCK EDITION

## City and Vicinity.

**WEATHER PROBABILITIES.**—The following are the Toronto probabilities:—Lakes: Moderate to fresh winds, mostly southerly to easterly, fine warmer weather.

**THE CENTRAL FAIR.**—The attendance at the Kingston Central Fair on Wednesday was unfavorable affected by frequent showers during the afternoon. Amongst the local exhibitors are Messrs. G. & J. Brown, who show a fine fanning mill.

**A GIANT PEAR.**—A specimen of fruit in the shape of a pear of the Duchesse du Angouleme variety has been placed on our table by Mr. William Jones, gardener for Alexander Brown Esq. The pear weighed 14 ounces, and is a beauty in size and appearance.

**THE AGRICULTURAL COMMISSION.**—Mr. J. W. Johnson, of the Ontario Business College, this morning received a summons to attend before the Agricultural Commission to give evidence in respect of Agricultural education and experience. The meeting is to be held in the Council Chamber on Monday, the 18th inst., at 10 a. m. This is a notable compliment to Mr. Johnson and to the college as well, as he is the only expert in that line who is to testify before the Commission.

**WARNING.**—The Police Times says: "Mr. Hamilton of Belleville, Collector of Inland Revenue for this district, paid a visit to Picton Tuesday for the purpose of warning dealers against violation of the law which requires them to remove all traces of revenue stamps from empty or partially empty boxes of cigars or packages of cigars or snuff. We referred to the provisions of the act of last session, at the time it came in force, and the collector, though only warning dealers on this visit, announces that he will have to see after that the provisions of the act are strictly enforced. Hotel keepers and others who deal in cigars, tobacco and snuff will do well to take warning."

**ASTRONOMICAL.**—The sky at night during this month is very beautiful. The planets appear very large. Jupiter is near the earth, and will not appear so large again during our decade. He is almost at his nearest point to our world. The able astronomer of the Providence Journal mentions Western storms, malaria and large meteors as incidents that may have some thing to do with the nearness of Jupiter to the earth and the sun. Saturn, too, is comparatively near the earth, but his brightness is not quite so conspicuous as it would be if Jupiter were not his great rival. Both planets are moving south. Meteors and Northern Lights may now be looked for.

**THE RAILWAY DISPUTE.**—The Peterborough Review of the 7th says:—"The Midland Company have completed that line over the disputed territory, and to-day the first train backed down from Auburn. They have already taken up to Auburn and switched on to the main line several car loads of Mr. J. Z. Rogers' lumber, which was piled near the track. There is no prospect of a settlement at present between the two companies, and as the Grand Junction Company have to run a train in to Peterborough, before they can claim the Belleville and County bonuses, it is altogether probable that some arrangement will be made between the two. A report has been in circulation throughout the town for some days, to the effect that the Grand Junction was to reach town by building a bridge below the locks, at the place first proposed. Upon making inquiries we could not find out anything that would sustain the rumor, beyond the fact that a G. J. R. engineer had surveyed such a line."

**THE CANADIAN MONTHLY.**—Our National Magazine, the Canadian Monthly, for October, opens with an historical paper of much interest on "Annapolis Royal and the Expatriation of the Acadians," from the pen of Mr. Arthur Harvey, of Toronto. The other papers are important in the number are Mr. Thomas Hodgins' dissertation on "The Privilege of the Crown in Colonial Legislation," Mr. Manly's article entitled "What is Money?" and Mr. E. LeBlond's inquiry into "The Principle of Copyright." These papers, which form the backbone of the number, are varied in their interest and thoughtful in their treatment. Of lighter articles, the two stories "Clinker," and "In the Shadow of Death," will be found exceedingly readable, while the paper on "Economics of a Boarding-House" will also be found entertaining and amusing. The remaining papers include the fourth series of the report of the meetings of "The Toronto Girls' Oration," and an article on "The Marvels of Scientific Logic"—the latter a clever arrangement of the so-called triumphs of Materialistic Evolution. The poetical department of the magazine, as usual, is well maintained. "Remember me," "The Return of Aphrodite," "A Love Lullaby," "The Legend of St. Hilda's Bell," and "The Gleaners' Land," being all meritorious productions. "Round the Table" gossip of a variety of matters of general interest, while the "Critical Department" has some admirable reviews of books—the only criticism in Canadian literature in which criticism has done justice to it. "Literary Notes," and "Bric-a-brac" close a capital number of the Magazine, which we heartily commend to our readers.

**THE CRUELTY.**—There was but one signature on the register of the police station last night—that of a drunk.

**THE ACCIDENT.**—George Frazon, the victim of the accident at the rifle range yesterday, passed a restless night, and this morning was reported very weak. His condition is considered by his friends to be critical. Dr. Burdett is still confident that the man will recover.

**NEW SIDEWALK.**—A sidewalk is now in process of construction, on the south side of the Kingston road, and will extend for a considerable distance east of the city limits. It will doubtless be well appreciated by those living along the road, as it will be of great convenience to them when coming to the city.

**BAD SIDEWALKS.**—Belleville is not the only place which has bad sidewalks. The Kingston *Waig* of the 7th says: "While Mrs. McCarthy was proceeding to the Fair with her husband a loose board in the sidewalk flew up and tripped her. Her arm was fractured by the fall. She was placed in a street car and taken home. Numerous other accidents are reported as the result of defective sidewalks."

**JURYMEN** and others in want of Shirts and Drawers, Towels or Clothing, would save money by calling on James Hennessey, 332 Front Street. He has the largest and cheapest stock in the city.

## Legal Literary Society.

A well-attended meeting of Barristers and members of the Law Society was held on Wednesday evening, at the office of Blair & Hough, for the purpose of organizing a Society, for the study of the law and for cognate objects. The following officers were elected:

President, Thomas Holden, Esq., P. M.  
1st Vice Pres., John J. Flint, Esq.  
2nd Vice Pres., John W. Williams, Esq.  
Secretary, W. R. Kiddell, Esq., L. L. B.  
Executive Committee, Messrs. Hough, Porter and Carroll.

It is intended to hold meetings every Wednesday evening during the winter, and the prospects are fair that the society will prove a useful and interesting institution. All who are engaged in legal pursuits are invited to become members.

## POLICE COURT.

(Before Thomas Holden, Esq., P. M.)

FRIDAY, OCT. 8.

**OBSTRUCTING STREET.**  
Mr. Jelliet, lessee of the ferry, charged Downey & Preston with obstructing the passage of vehicles to and from the ferry by leaving cars standing on the railway siding in front of their elevator. The case was adjourned till Monday next.

## MARRIAGE.

There were no arrivals and no departures up to noon to-day.

Vessels are needed here for the transportation of grain, the elevators on the east side of the river being now well filled.

## Rifle Shooting.

The 15th K. A. at the Ranges.

At the conclusion of the Merchants Match yesterday morning the prize for the Association Match were competed for. The ranges were 400 and 500 yards, five shots at each range. Lieut. Rowe, the winner of the first prize in the preceding contest—was the victor in this and thus made the highest aggregate score.

Here are the total scores:—  
Lieut. Rowe, Medal and Photo. 33  
Pte. Pope 27  
Bugl. Brown 25  
Pte. McLeod 23  
Lieut. Hastings 21  
Pte. Peck 19  
Pte. Mason 18  
Sergt. Soule 18  
Sergt. Redick 15  
Sergt. Carratt 17

Then succeeded the Consolation Match at the 400 yards range, five shots, the record of which is below, as well as the aggregate prize-winners.

Corp. Benjamin 20  
Pte. Soule 19  
Pte. Badgley 19  
Pte. Anderson 19

**AGGREGATE PRIZES.**  
1st Lieut. Rowe, Medal and Photo. 71  
2nd Pte. Peck 54  
3rd Pte. Anderson 54

The competition for the Company Challenge Cup of the 15th Batt. opened this morning shortly after nine o'clock and closed at 1:30 p. m. Only three companies of the battalion were represented, and the victory rested with the team of No. 1 Co., who led the score at each successive stage of the match. The ranges were 200, 500 and 600 yards, 5 shots at each range. The following is the score:—

**NO. 1 COMPANY.**  
200 yds. 500 yds. 600 yds. Tl.  
Pte. Mason 19 10 13 42  
Pte. Pope 17 18 19 54  
Pte. Peck 15 18 19 52  
Pte. Hastings 19 19 11 49  
Pte. Row 19 23 13 55

**Grand total 239**

**NO. 2 COMPANY.**  
200 yds. 500 yds. 600 yds. Tl.  
Sergt. Gowan 16 9 9 34  
Pte. McDonald 14 9 7 30  
Pte. Ryan 13 9 2 24  
Pte. Gowan 13 9 2 24

**Grand total 137**

**NO. 4 COMPANY.**  
200 yds. 500 yds. 600 yds. Tl.  
Sergt. Rutan 11 13 9 33  
Pte. Serles 12 13 9 34  
Pte. Vermilyea 12 4 2 18  
Pte. Peck 12 7 5 24  
Pte. Serles 11 7 8 26

**Grand total 125**

As will be seen from the above, No. 1 Company were the victors by 109 points over No. 2 and 114 over No. 4. At the termination of this match the several members of the winning team were presented by Capt. Biggar with a badge bearing the figure 1880, and with this event the meeting came to a close.

## Echoes from the Depot.

The express train from the west, due here at 12:01 p. m., was forty minutes late to-day.

Hodges & Son shipped seven cars of cheese to Montreal this afternoon for the European market.

One of the large six wheeled engines stationed at this depot brought in 29 loaded cars to this station this morning.

## Trotter at the Track.

The race for named horses took place at the bay side track yesterday afternoon and was fairly attended. The trotting course was not very fast, and what little running was indulged in did not materially benefit any of the contestants.

Of the eight entries four came to the post and the race was won in an equal number of heats. There was an usual a little "jockeying" shown, but it was of little or no avail. The race was won by John Gauthier's roan gelding, which took the first, third and fourth heats; F. Gauthier's entry was second.

After the above race Allen's roan, H. Rankin's black, and W. Hunter's sorrel horse had a brush, which was easily won by the last named. At the conclusion of this event Gauthier's roan gelding, which took the first, third and fourth heats, was the subject of the announcement that the track had been completed in 3:58. This led to a little unpleasantness, after which all interested returned home.

ZOPESA, from Brazil, is now come into Canada. It is a mild pungent, acting as a wonder tonic, and giving strength and vigor to the system. It is a mild purgative, acting as a wonder tonic, and giving strength and vigor to the system. It is a mild purgative, acting as a wonder tonic, and giving strength and vigor to the system.

## Stirling Correspondence.

THURSDAY, OCT. 7th, 1880.

The village the last couple of days somewhat resembled the rush of grain in the days of Baker, when the grain was so abundant. The village the last couple of days somewhat resembled the rush of grain in the days of Baker, when the grain was so abundant. The village the last couple of days somewhat resembled the rush of grain in the days of Baker, when the grain was so abundant.

One of our old landmarks, in the person of Mr. Edward Rosebush, died on Wednesday morning at his farm.

A young friend of mine was cured of an insatiable thirst for liquor, which had preyed him that he was unable to do any business. He was entirely cured, but the cure was not without its cost. He was cured of an insatiable thirst for liquor, which had preyed him that he was unable to do any business.

## Bloomfield Notes.

The first fair of Prince Edward County was held at Bloomfield on Saturday, October 2nd, on behalf of the Township of Hallowell. The day was all that could be desired, and quite a crowd gathered together to celebrate the occasion, and to display their grand turnouts, fine clothes &c. The show was quite meagre (so to speak). There was a fair display of carriages and horses, the coats were far below the usual display.

The exhibit of cows was rather slim. Mr. Story showed some blood calves from the Model Farm, which attracted much attention. Mr. Calhoun also exhibited a very fair herd of cows. The sheep and swine were hardly worth commenting upon. The vegetables were very fair, but few in number, and not many varieties, and the display of fruit was rather small.

There was quite a display of fine art in the hall, but not as good as preceding years. Mr. S. Parliament was there with his spring-tooth harrow, which seemed to take with those engaged in the honest work of the soil. Mr. Bowmaker also exhibited quite a novelty in the way of a farmer's gate, which can be opened and shut without troubling the occupant of the vehicle to leave the seat. It also attracted much attention.

The Ladies' Aid Society of the Methodist Church held a bazaar on the same day, and quite a little sum was realized.

The section men are busily engaged leveling the track of the P. E. Co. R. R., which work was very much needed, for you will scarcely have a person who has been over the road without commenting on the roughness of it.

Some farmers in this vicinity have been saved the trouble of removing their stock of corn from the barn to the crib, for they did not stop to the crib, but the Danahy lecturers, gave a very good discourse on his favorite subject, to a large audience on Monday evening last.

Mr. Platt, our School Inspector, has paid visits to our two schools and reported fair progress in each, which speaks well for the teachers in charge. He advises the trustees of No. 6 to procure some assistance in their school, for he thinks Mr. White can hardly do justice to the number he has in charge. His average is now 55 to 60, and of all grades, which is too many for one teacher.

**Spread the Good News.**  
As a family medicine and tonic, there is no remedy at present giving such universal satisfaction, and effecting so many astonishing cures as Electric Bitters. Our druggists represent a lively demand for them at times, and are unable to supply the many calls. All Bilious Attacks, Stomach, Liver and Kidney Complaints, Diabetes and Gravel, readily yield to their curative power. Sold by J. W. Clark & Co. at 50 cents per bottle.

## Tweed Notes.

There was shipped at Crookston Station on Thursday, two thousand five hundred bushels of barley. Under Mr. Easterbrook's superintendence everything is going on well.

**Stop that Cough.**  
If you are suffering with a Cough, Cold, Asthma, Bronchitis, or any other complaint of the Throat or Lungs, use Dr. King's New Discovery for Consumption. This is the only remedy that is causing so much excitement by its wonderful cures, curing thousands of cases of Cough, Cold, Asthma, Bronchitis, or any other complaint of the Throat or Lungs, use Dr. King's New Discovery for Consumption.

Dr. King's New Discovery has been used successfully in every instance. We can unhesitatingly say that this is really the only cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle for free, or a regular one for \$1.00. J. W. Clark & Co.

**MARRIED.**  
In Belleville, on Thursday, the 7th inst., by the Rev. J. H. Lusk, Miss Elizabeth NICOL, to Mr. H. DUFFELL, of Belleville.

**DIED.**  
At M. duon on Friday, the 31st inst., CHARLES WAITE, of J. H. PRINCE, County Surveyor, aged 8 years, 6 months and 5 days.

## Commercial.

WELLVILLE MARKETS.

**WELLVILLE, OCT. 8 1880.**  
Grain buyers are still hesitating and farmers are raising the bar.

The opening of the West Wellville Elevator has caused a keen competition, much to the benefit of the seller.

Barley is brisk to-day with 600 offered for good quality, but with the keen competition considerable sale up to 65c, and in some cases for an extra bright sample we saw 67c offered.

Rye is also in brisk demand to-day, at 85c, in some cases as high as 90c, and for some 70c has been paid, which is certainly an extraordinary price.

Wheat is in demand to-day, at 85c, in some cases as high as 90c, and for some 70c has been paid, which is certainly an extraordinary price.

## Exports to the United States.

We are indebted to Col. Prince, U. S. Consul here, for the following statement, showing the value of declared exports from the Consular district of Belleville, for the Quarter ending Sept. 30, 1880:

Lumber, 10,375,700 ft.	\$190,384.19
Iron ore, 3,120 tons	8,002.85
Household goods, 34 persons	3,619
Wool, 120,000 lbs.	900
Flour, 7,444 cwt.	7,444.00
Hops, 2	125.50
Sheep and Lamb, 500	400
Haled straw, 400	400
Wheat, 12,500 bush.	12,500.00
Barley, 27,230 bush.	17,230.00
Rye, 40,000 bush.	40,000.00
Calumet, 1,639	1,639.00
Poplar Wood, 577	577.00
Household Goods, 700	700.00
Miscellaneous	700

Value, \$384,002.73

Amount paid 1879 22,000.00

Balance, \$362,002.73

## THE ASSIZES.

In the case reported yesterday, "Boverson Fire Co. vs. —" verdict for plaintiff, \$900.

Wednesday vs. McCreary—Action on an account. Referred to A. G. Northrup—Clute & Mcullen for plaintiff; Flint & Jelliet for defendant.

Thursday vs. Edward Fink Insurance Company—Action on a policy of insurance, policy never reached plaintiff. An important question as to effect of contract under the receipt. Duff's contention was that with usual conditions was issued and sent to the plaintiff, conditions have not been filled by plaintiff. Verdict for plaintiff for \$71.25. Duff vs. Clute for plaintiff; Wallbridge & Allison for defendant.

Bailey vs. Leonard—Action for damages for malicious arrest. Parties live near each other in Marmora. Dispute arose as to line, FID removed rail fence from the line to his own place. Deft. had him arrested for stealing the rails. Verdict for plaintiff for \$75. Duff vs. Clute for plaintiff; Wallbridge & Allison for defendant.

## Sporting Notes.

Hanlon continues to practice steadily on the Thames. The betting is largely in his favor.

The London Times thinks Laycock, the Australian, showed very poor form in his match with Blackburn.

The yacht "Hesperus" has been stripped of her rigging for the rest of the season. She will either be rebuilt or replaced with a new one of about the same tonnage.

The Hop Bitters man is said to want five Englishmen hand five Americans to compete in his race over the Thames on the 22nd prox.

St. George's Club of New York is the oldest cricket club in the States.

Giles, the professional of the St. George's Club of New York, is 60 years old, and made 60 runs recently off the bowling principally of Lane, the Staten Island professional.

The Longwoods, of Boston Mass., were defeated on Monday last, on their own grounds, by the St. George Club, of New York. The Longwoods made 80 and the New Yorkers 151.

The Picton yachts, both of first and second class, raced on Thursday last for a championship in each class. The Mocking Bird and J. J. were the starters in the first class and the former won, the latter snapping her hobbyist. In the second class there were three starters. The Flora won by 100 to 80, while the Chicagoes have a balance on hand of \$12,000 after paying all expenses.

**THE PACIFIC RAILWAY.**—The Mail says: "We understand that the representatives of the French, German and English capitalists interested in the prosecution of the work of the Pacific Railway, Paris and London for New York and for Ottawa, where they may be expected to arrive in the course of ten days or so. They will remain Ottawa, we believe, till the details of the scheme of railway construction are settled with the Government. The utmost expedition will not doubt be desired by both the Government and the syndicate and the details may be expected to be settled as speedily as the gravity of the work will permit. Meantime the public will be satisfied with knowing that from day to day the business of the negotiations will be going on under the eyes of the whole cabinet. The business has now reached a point of perfect agreement, wanting little to make it complete and that little will soon be supplied."

**THE BIDDULPH TRAGEDY.**—In the Biddulph trial yesterday the case for the defence was begun. An endeavor was made to set up an alibi, one Thompson, a Biddulph farmer, and his wife swearing that Carol slept at their house on the night of the murder, while the boy O'Connor swears he saw him at the Donnelly home at the time of the murder; and Wm. Donnelly testifies that he saw him among the crowd outside his house when his brother John was shot.

## MURDER AT QUEBEC.

**Fatal Quarrel Between Sailors.**  
SOUTH QUEBEC, Oct. 8.—Two sailors of the ship *Phosphorus*, lying at the foundry wharf, got into a quarrel last night, when one drew his knife and stabbed the other in the throat, killing him instantly. The murderer has been arrested.

## AFTERNOON DISPATCHES.

LONDON, Oct. 8.—Homer, of Boston, has entered for the American prize in the International repatriation.

Hawdon is training for a match with Laycock on Nov. 15.

Quebec, Oct. 8.—Arrived, the *Lyonic* from Cardiff. The *SS. Celtic*, from Europe, brought \$242,000 gold.

Salem, Mass., Oct. 8.—Chas. Freeman, the Poconet child murderer, to-day escaped from Danvers prison hospital.

London, Oct. 8.—Board of Trade reports for September show the value of imports into the United Kingdom to be \$5,000,000 in excess of those for the same month last year, and the value of exports \$2,625,000 in excess of those for the same month last year.

Washington, Oct. 8.—Indications: lower lakes, slightly warmer, partly cloudy.

Everybody who "Traberry" to beautify and preserve the teeth. It sweetens and gives fragrance to the breath. Delightfully cooling and refreshing. Testimonials from all over the country of its excellence. Price 50c.

**CHICAGO MARKETS.**  
CHICAGO, Oct. 8.—Barley 76 cash; 76 Oct; No. 3 52c bid cash. Close \$7.77, Oct. \$6.90 Nov; 55c Jan. Pork \$18.50 Oct; \$18.25 Nov; \$18.75 Dec; 18c bid; 85c bid Jan. Close Wheat 64 Oct; 64 bid Nov; 44 Dec. Corn 39 Oct; 40 bid; 40 bid; 44 bid; 38 bid May.

**ONTARIO MARKETS.**  
Ontario, N. Y., Oct. 8.—Wheat fair; sales 7,000; white and red \$1.05, to \$1.06. Corn quiet, Duluth 91 to 92. Barley in fair demand, sales 10,000 No. 1 Canada 85; 16,700 do 83c; 3,000 do above grade 85c; 9,200 do 86c; 4,800 No. 2 Canada 80c. Rye firm, Canada nominally 90c in bond. Cornmeal 20 bid.

**QUEBEC MARKETS.**  
Quebec, Oct. 8.—Wheat and peas 64; corn 39; barley 44 to New York; barley 34 to Albany.

**QUANTAL CERTIFICATES.**—Handsome gold cups for sale at \$100.00 each.

## Ordered Clothing!

OVER THE SEA

OVER THE SEA

XXXIX.

After spending two days in Venice, I proceeded, by train, across the country

FLORENCE.

There is nothing worthy of special note in the way of scenery, until we near Florence and get a glimpse of the lofty Apennines immediately upon arriving in the city. I did the wisest thing possible—hired a guide, a very intelligent, gentlemanly Italian, who

a very intelligent, gentlemanly Italian, who thoroughly understands the best way

seeing the principal sights in the shortest possible time. My friend translated the names of the things, and we had no difficulty. We told him we had no money, but he said he would let us see everything out, that we wanted to see as much of Florence as possible in a day. "If you will not stay too long in the picture gallery," he said, "I will take you to the tower seeing about four o'clock this afternoon."

After a hurried breakfast, we started out at 8 o'clock. The day being oppressively hot, it required no little exertion to keep the guide. We visited only a few of the local churches, and saw very much in the way of cathedrals and stopping places. The paintings, sculptures, and decorations, altars laden with flowers, candles, etc., are magnificent. The architecture is a mixture of the most build of marble, and modern mosaics, and tessellated floors of the most marvellous description. The Church of the Annunciation is noted principally for the statue of the Virgin, surrounded by most costly and valuable

of gold and silver, gems and trinkets  
great splendor. The Church of St. Lore

led us to the finest mosaic chapel in the world. Its paintings (one of which, representing Mosoa with the laws on the tablet of stone, took eleven years to paint) are the best ancient artists. The great cat, the famous mosaic of the Duomo Campanile, which I shall not attempt to describe, is the work of Mosias contains the most wonderful works of mosaic art (mostly modern); and, notwithstanding when you learn that there are four tables in it valued at \$60,000. The King's Palace we also visited, and were astonished at the magnificence and wealth of the place, and the beautiful, but, alas, has no resources. Well, I have said too much, but one cannot see any signs of poverty; they look like the sailors and chambers you read of in Arabian Nights. We next visited

collections in the world; here, in the an-

one called the "Tribune," is the work of the sculptor Venus, the Listen to the Wind, the Water, the Wind, the Wonderful Dancing Fawn, to which Michelangelo so marvellously restored head and arms; the beautiful Raphael, and four others, by Raphael. A little room is truly a casket of gems.

It requires quite a struggle to leave a sanctuary of genius. There are no fewer than 1,400 paintings and 500 pieces of sculpture in this gallery, all more or less deserving of notice.

Some of the finest sculpture may be found here, in the open squares, in the public buildings, surrounded by crowds of loiterers and the drivers, together with the loiterers, who lean against the walls, often sit smoking on their base.

Florence exels in churches and

historic associations; but in other resp

[illegible]

town, they have a venerable and impressive appearance.

Long celebrated for her maritime achievements against the Saracens, added, in 1063, a still brighter leaf to her chaplet by burning the chain of vessels laden with rich merchandise, and bringing the home in triumph to her native Arno. An unanimous decree the citizens determined to convert this booty into a cathedral to surpass all others in the city, and to erect a perpetual monument to her glory and a perpetual monument to their country's honor." Nothing can be more noble and glorious than the Pisan interior I directly east and west, the long range of mighty columns, the dome, the arches, the vaulting, the windows, the mosaics, the statues in its vast altar. The rich light pours through a hundred windows of stained glass. In the centre, hanging low from the high roof, is the lamp of antiquity.

to Galileo the movement of the pendulum

The Cathedral is of white marble, the beautiful lints—the work of seven centuries—produce an effect which can be compared to the work of the great masters (the finest of all painters) alone. The composition of the Leaning Tower is also complete, and looks as fresh as if the sculptor had finished it yesterday, and not five hundred years ago. From the Cathedral to the black and white marble, and the two are beautifully blended as to form a most artistic edition.

The river Arno is just as muddy here at present, but there is a lovely pond on each side of it, up which we strode after night seeing and "took stock" of the pretty buildings. The water is very low after the winter drainage and promenade.

We ran down from here to Lagnora,

and Canada. Upwards of 60,000 sample bottles of the medicine have been distributed among the medical profession, from whom the firm have received numerous testimonials of the most highly laudatory character. In addition to the home demand the oil is exported in considerable quantities to Spanish America, Australia, and other foreign countries. Commercially it is a great success, but the benefits which it can be trusted upon suffering humanity are simply incalculable.

Another valuable preparation from the laboratory of this firm is Scott & Bowne's Palatable Castor Oil. Every one is familiar with the efficacy of

inconveniences occasioned by constipation, etc., and most people know experimentally how disagreeable is the castor oil in ordinary use. This preparation is in a form of emulsion, is perfectly palatable, and superior to all other medicines when a cathartic is required. It can be given to children without the slightest difficulty, and for this reason alone is one of the most valuable medical preparations extant. This is for sale by druggists throughout the country.

For Macdonald—Daily, at 8 a.m. and 3 p.m.

## Daily Intelligencer.

BELLEVILLE, MONDAY, OCT. 11.

## 5 O'CLOCK EDITION.

## City and Vicinity.

**BOARD OF EDUCATION.**—A regular meeting of the Board will be held to-morrow night.

**POISON.**—There were one tramp and one prisoner in the hospital on Saturday night, and last night the prisoner was alone in the cells.

**PERSONAL.**—Mr. Amos Rowe, of the Winnipeg Times, was in the city yesterday and left this morning with Mrs. Rowe for Winnipeg.

**THE RIVER.**—The Hastings Rifle Association's matches will commence to-morrow. It is probable that there will be a large number of competitors.

**Fog.**—There are now, as usual at this time of year, heavy fog nights and morning. That of this morning was unusually dense, but the rays of the sun dispelled it.

**THE ACCIDENT.**—Sergeant Frizone tested better on Saturday night and seemed somewhat better yesterday. He slept well last night and this morning his condition was reported to be rather more favorable.

**THE ASSIZES.**—The business of the Court is all finished, except the case of Palmer vs. Soimes, the rehearing of which case will take place on Friday next, when the Court will sit at specially for that purpose.

**BIG WORK.**—At the West Belleville elevator on Saturday 160 wagon loads of grain were received. If the loads averaged 40 bushels each—as they probably did—this would make a total of 6,400 bushels taken in on that day.

**SLOW PROGRESS.**—A party who left on the Katie Gray at about 10 p.m. on Saturday made slow progress. At about noon yesterday the yacht was only about ten miles distant from the starting point, having been becalmed up to that time.

**CONFIRMATION.**—The rite of confirmation was yesterday morning administered by the Bishop of Ontario in Christ Church, about forty candidates, of whom the majority were females. The congregation was very large, and His Lordship delivered a forcible address on confirmation. About one hundred persons partook of the holy communion at the close of the other service. The Bishop proceeded during the afternoon to Trenton.

**TOBACCO.**—According to the new Act, passed during last session, a specific duty of 20 cents per lb. must be paid on all manufactured tobacco, plug or cut. Not a single ounce can be sold over the counter, except in plugs or packages, sealed with the stamp of the Internal Revenue department, packed in each package or box, as dealers are not now allowed to break bulk at all. The penalty for the first offence against the new law is \$200 and for the second, \$500.

**A MUSICAL TREAT.**—A rare musical treat is to be given to the public on Friday evening next, when the famous Mendelssohn Quintette Club of Boston, assisted by Miss Marie Nellini, vocalist, will give an entertainment in the City Hall under the auspices of the Mechanics' Institute. The merits of the organization are well known to the public of Belleville, and it is now even stronger than ever, for lovers of fine music should make it a point to attend.

**THE GRAND JUNCTION.**—Truckling is progressing rather slowly on the Grand Junction at present, says the Peterborough Review of Saturday, on account of the very crooked and winding character of the track at the place where the workmen are engaged at present. They expect to reach the end of the line to-night, and from that point to Ashburnham the track is almost a straight line, and will be plain sailing. If the weather remains as it is we shall probably chronicle the arrival of a train at Ashburnham about Wednesday evening. The Chancellor is expected to give his decision regarding the dispute between this Company and the Midland on Tuesday, so that they will know whether they can run on to Peterborough or not, over the disputed part of the track.

## News Condensed.

—The price of coal in Toronto has fallen to \$5.70.

—The nominations for Brome take place at Knowlton to-day.

—A shock of an earthquake was felt at Ottawa on the 9th inst.

—The price of real estate in Montreal is rapidly advancing.

—Hon. J. Burpee is now manager of the New Brunswick Railway.

—Cranich as a field for the investment of French cash is to be taken up.

—The latest case of vulgar display in New York city is an \$8,000 bonnet.

—Steps are being taken to form a boot factory at Buckingham near Ottawa.

—A new and interesting line of post has appeared to the Swiss cantons of St. Gall.

—The addition and improvements to the Russell House, Ottawa, will cost \$100,000.

—A party of hunters the other night killed four bears in the northern part of Manitoba.

—Newfoundland fishing has not been good but things are better on the Labrador coast.

—The second crop of raspberries was picked from bushes in South Frederickburgh on the 9th.

—The proposed transfer of Adjutant General's office is not likely to take place before January 1st.

—To buy an annuity for Rev. Dr. Wilks of St. Charles, Montreal, \$4,500 has been subscribed.

—The movement to build a \$250,000 hotel on the island opposite Toronto has fallen through.

—Metcalfe's dry goods store, in Ottawa, was robbed of a quantity of goods in the night of the 8th inst.

—Parliament is further prorogued until the 23rd of November, and is not then called for the despatch of business.

—Seven hundred more cartridges have been found in the river at Quebec near the spot where the *Atlatla* was anchored.

—The Russian Government is making many political arrests, and the situation at St. Petersburg is becoming daily more exciting.

—On the 9th the cattle sheds at Mill's distillery were burned. Eleven hundred cattle in them perished, and many more were injured. Loss \$50,000.

—Russia is making great military preparations for the Bulgarian, Black Sea, and Danubian depots. Russian officers are departing for Adrianople and Athens.

—Messrs. Stephen, Angus, McIntyre and Cochrane, members of the Pacific Railway Syndicate, have had interviews with the Canadian relative to the railway business.

—It is reported that Lieut General Smyth, who was Major-General Lord's predecessor in command of the forces in Canada, has been put in command of Her Majesty's forces in South Africa.

—Major Harper, of Whitty (Ont.), has opened a communication with the French capitalists interested in the establishment of sugar beet factories in this Province. Whitty wants a factory.

—Mr. Thomas McCreedy, of Ironides, Ottawa county, is the owner of a cow that has given birth to twenty calves in eight years. There were four triplets and four doublets.

—One of the early pioneers of the Red River settlement in the person of Alexander Hanmerman of Kildonan died on Saturday last at the mature age of 70 years. He settled in Kildonan in 1815.

—The Winnipeg Times says Mulvey, Collector of Inland Revenue, made a seizure of a large quantity of tobacco at Emerson on Friday last, for an infringement of the excise law, and has reported the matter to Ottawa.

—The Emperor Alexander of Russia, whose monarchical marriage with the Princess Dolgorouki is believed to be an accomplished fact, is not, it seems, much more faithful to his new wife than he was to his old one. He has, it is already formed a fresh liaison with a pretty Polish lady.

—Mr. Geo. A. Kirkpatrick, M.P., of Kingston, Mr. Thomas White, M.P., and the Rev. Dr. Sullivan, of Montreal, were among the delegates introduced at the opening of the General Convention of the Protestant Episcopal Church of the United States on Thursday.

—Major-General Laurier has issued a general order dismissing from the volunteer service a private for "answering" an officer while in the ranks, instead of obeying his order, and dismissing also the officer for subsequently using personal violence to the private and striking his name off the company roll.

—Mr. Geo. A. Kirkpatrick, M.P., of Kingston, Mr. Thomas White, M.P., and the Rev. Dr. Sullivan, of Montreal, were among the delegates introduced at the opening of the General Convention of the Protestant Episcopal Church of the United States on Thursday.

## THE EASTERN CRISIS.

## The Gordian Knot Cut.

## DULIGNO SURRENDERED.

Paris, Oct. 11.—It is rumored that the Duke has already evaded Duligno, and the Montenegrins occupy their place. A Montenegrin despatch, dated the 10th inst., states that the Council of Ministers has decided upon the immediate and unconditional surrender of Duligno.

London, Oct. 11.—News of the surrender of Duligno was received here with great delight by friends of the administration, who regard it as a decided triumph of Gladstone's policy. Up to half past 2 this afternoon, the foreign office had not been advised of the occupation of Duligno by the Montenegrins.

London, Oct. 11.—It is rumored that the Sultan has agreed to furnish his ministers with the unconditional surrender of Duligno.

A Constantinople despatch says the Sultan declared if the fleet came to Constantinople, he will abdicate. The Sultan is doing his utmost to make separate terms with Russia, with success.

The Daily News says the Cabinet summoned for to-day is postponed in consequence of the information that the Sultan is once more in a promissory mood.

A Constantinople correspondent says: I am informed the Sultan has decided to send Duligno immediately, but will maintain his previous demands with regard to the naval demarcation.

On the 10th inst., the Picton Gazette says: "It is rumored that arrangements are being made to tender a banquet to the Hon. Hector Langerion, C.B., by the bay counties, either at Bellefleur or at Picton. For our part we would have with pleasure the visit of the foremost statesman of the Province of Quebec to our fair country, where he is sure to be accorded most hearty reception."

The Biddulph murder case. The jury in the Biddulph murder case have disagreed. The trial was that of James Carroll for the murder of Mrs. Donnelly, and whether or any other of the prisoners will be tried at the present Assizes for any of the other murders will probably be determined to-day.

On the 10th inst., the Picton Gazette says: "It is rumored that arrangements are being made to tender a banquet to the Hon. Hector Langerion, C.B., by the bay counties, either at Bellefleur or at Picton. ### Local Agents of the Intelli- gencer.

The DAILY INTELLIGENCER is for sale every evening at the following places. Subscribers taken at these agencies by the week at ten cents.

A. Robinson—Front Street.  
J. O. Orrell—Front Street.  
M. O. Dempsey—Front Street.  
J. G. Reynolds—Hedge Street.

G. W. Wilson—Drug and stationery store.  
Dr. G. H. Boulter—Drug and stationery store.

T. Oliver, at the Windsor Hotel.  
J. B. Christie—at the Post Office.

### Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

J. M. HAYES, NEWSPAPER ADVERTISING AGENT, 41 PARK ROW, (Times Building), NEW YORK.

Is authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at the best rates.

### Daily Intelligencer.

BELLEVEILLE, WEDNESDAY, OCT. 13.

#### Political Notes.

It is astonishing with what pertinacity the Grit and independent press cling to the idea that they are the only true interpreters of public opinion. The London Advertiser says:—"Even the Toronto Telegram is giving up the N. P., and when matters get to length, they must be 'bad' indeed in all conscience. The workingmen, it seems, are getting dissatisfied at the coal war, and snuffing other blessings which they owe to Sir Leonard's wisdom and the N. P.'s course of operation." Considering that an election was recently held in the chief city of the Province, in which the Ministerial candidate had a very large majority, the assertion as to the workingmen, and the coal duty is evidently of a purely gratuitous nature, and so with regard to other duties. The Grits are just as happy in interpretation of public opinion as they were in their prophecies of evil flowing from the N. P.

#### THE DOMINION.

A proclamation published in Saturday's Globe unites with the Dominion the whole of British America except Newfoundland and its dependencies. It probably will not be long that colony seeks admission to the Dominion, and if an agreement can be made as to terms, the grand scheme of Confederation will be accomplished.

#### ENDED AT LAST.

The crisis in the East has at last been ended by the submission of the Turks, who have surrendered Duligno to the Montenegrins. The Sultan played a desperate game in bidding defiance to the powers for so long a period as he did. His hope was, evidently, that a conflict of interest would arise and so cause a division amongst the powers; but finding that this expectation was not likely to be realized, he at last yielded to coercion. This is well as a further prolongation of the difficulty would probably have proved disastrous to the Ottoman empire and may have resulted in war between some of the great powers.

#### COAL AND SUGAR.

The London Advertiser gets off the following:—"The Belleville INTELLIGENCER is pleased to tell the Advertiser that the consumers 'have not suffered by the change in our commercial policy.' Our esteemed contemporary forgets the coal and sugar taxes." Not at all. The consumers of soft coal are not, thanks to the duty, but coal from Nova Scotia cheaper than it can be procured from the United States.

The Belleville Gas Company have now over 800 tons of Nova Scotia coal in their bins. The duty on bituminous coal was imposed for the purpose of benefiting the iron industry of Nova Scotia, and this it has done to such an extent that the shipments of this year will be over 100 per cent. greater than those of the past season. The duty on hard coal is a revenue duty, the great bulk of which is paid by the rich residents of cities and towns along the front. As to the "sugar tax," the Montreal Journal of Commerce states and proves to a demonstration that the people of Canada get better and cheaper sugar under the present tariff than under that of the Macdonald Government, and have besides the benefit arising from the great refining industry. Let the Advertiser try again.

#### THE PACIFIC RAILWAY.

In his speech at the nomination in Bromo, Sir Charles Tupper gave a further insight into the Pacific Railway bargain. He stated that one thousand miles to the foot of the Rocky Mountains, will be completed and running within three years. This is an announcement which will be received with unequalled satisfaction throughout the country.

#### A HOPFUL PROSPECT.

Sir Charles on the same occasion said he had, during his first year in office, reduced the deficit in the working of the Dominion colonial railway from \$716,000 to \$307,000, and next year hopes to put the balance on the other side of the ledger. This is the sort of administration the country wants—not empty boasts of economy, but real reduction of expenditure, but real practical saving. The era of deficits is happily about over.

A. BRIDGES, Editor.—The Collingwood Advertiser is at loggerheads with the Town Council. Lately the editor wished to inspect the town books and was refused. He, therefore, entered action to force his right, and a rule nisi was granted ordering the mayor and corporation to allow the inspection of the books.

### Tryendinaga Fair.

The annual Fair of the Agricultural Society of Tryendinaga was held at Shannonville on Saturday, the 9th inst. So far as the weather was concerned everything was favorable for a good exhibition and a good attendance, but there was nothing.

The show of stock, being only some 300 entries, compared with over 500 last year.

Mr. Loomis of Shannonville, and Mr. Beckwith of Lonsdale, exhibited a number of buggies and democrats of their own manufacture.

Mr. R. F. Pagan had on exhibition two fine steel ploughs, and an elegant set of bedroom furniture in ash and walnut, and sideboard, of his own manufacture.

Mr. Thomas Deasy showed a Maxwell Reaper, and Mr. Stuckey had a Cultivator.

Mr. D. N. Doughty exhibited a handsome case of sundries, and a good stove.

Some excellent small boats and shoes were exhibited by Mr. Thos. Crepper and Mr. C. E. Clarke.

Messrs. Osborn & Bro. of Lonsdale, had on exhibition several sets of light carriage harness and draught harness.

There was only a small display of roots and vegetables; but two lots of chesnuts, a solid sample of butter, a fair show of grain and three or four quilts and coverlets; one of the quilts was actually worn out, the Judges came to the conclusion that it had been re-covered.

The following is the PRIZE LIST:

CATTLE.—Consisting of Shorthorns, Devonshire and Ayrshires. Bull, 3 years old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey. Milch Cow, 3 years old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey. Heifer, 1 year old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey. Heifer, 2 years old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey. Heifer, 3 years old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey.

GRAND CATTLE.—Bull, 2 years old, 1st, G. Munro; 2d, Chas. Long; 3d, T. F. Stuckey. Milch Cow, 3 years old and up, 1st, Chas. Long; 2d, R. L. Lasker; 3d, T. F. Stuckey. ### Hastings Rifle Association.

#### THE ALL-COMERS MATCH.

Representative from Port Hope, Kingston, Picton and this city and county, took part in this contest, which opened at the range at two o'clock yesterday afternoon. The attendance of spectators was very limited as the weather was very uninviting. A stiff, raw wind blew in fitful gusts across the grounds, and frequently the sunlight was partially obscured by passing clouds, rendering the light dim and uncertain.

The whole, however, the shooting was very good, for the most part, and the wind, the evening was excellent. There were 28 competitors, divided into two squads so that a quartette of marksmen could utilize the targets at one time. The ranges were 200, 300 and 400 yards, 5 shots at each range, and therefore the highest possible score attainable was 25 at each stage.

Subjoined will be found the several scores of the winning marksmen at the different ranges in the order of merit.

200 Yds.	300 Yds.	400 Yds.	Total
Sgt. Cunningham, 40th	20	18	38
A. Kingston, 40th	19	17	36
Corp. W. Hilton, 40th	19	19	38
Sgt. L. Macpherson, 40th	19	19	38
Volunteer 40th	19	12	31
W. H. Orchard, 40th	18	17	35
J. T. Macpherson, 40th	17	13	30
J. Donald, 40th	16	11	27
S. Mason, 40th	16	12	28
Corp. Strachan, 40th	17	14	31
Sgt. J. Hargrave, 40th	17	14	31
J. Hodge, 40th	15	14	29
W. R. Kennedy, 40th	15	17	32
W. R. Kennedy, 40th	15	17	32
W. R. Kennedy, 40th	15	17	32

At the first range some of the first shots did good work, but at the next stage all the competitors began to fall away. At the last range the shooting was fair, but the cold air interfered with the accuracy of the marksmen. Owing to the intervention of darkness, the conclusion of the contest was not reached until this morning.

#### Board of Education.

—TUESDAY, OCT. 12.

A regular meeting of the Board of Education was held tonight.

PRESENT.—Messrs. J. Diamond, W. J. Diamond, Hayne, Johnson, Will, Tennant, McGinnis, Van Allan, Wensley, Richards, North, Ock, Tracy, Burke.

In the absence of the chairman, Mr. Shepherd, it was moved that Mr. Will take the chair.

The minutes of last meeting were read and confirmed.

A letter was read from the churchwardens of St. Thomas' Church, asking that the fence between the Central School yard and the burying ground be repaired, as the boys of the school were in the habit of going there to play.

Mr. Burke said the posts were available for use, and he pressed a speedy arrangement of this matter.

Mr. J. Diamond moved that the petition be laid upon the table for consideration to night.

Mr. Johnson said the matter had already been before the Board.

Mr. W. J. Diamond said that this petition had not been before the Board before.

Mr. Burke thought it would be well to build a plain board fence, and not a wire one, as had been talked of.

Mr. VanAllen thought it was the duty of the Church members to share in the expense of building the fence.

Mr. W. J. Diamond said it was not the Church that had destroyed the fence, but the children of the school.

Dr. Tracy considered that the Board should build the fence and pay for it.

Mr. Wensley said that he had seen dozens of boys in the graveyard, and had seen pigs there also, that had got in from the school yard.

He said the fence was getting worse every day, and he thought it was the duty of the Board to build a new one.

Mr. J. Diamond held that if there were not funds to build a good fence they should repair the old one, but he thought this was not the proper mode of discussing the matter.

It was moved that the matter be taken up to-night.—Carried.

The Finance Committee's report was presented and the payment of several accounts amounting to \$1,000, was ordered.

The report was received.

Mr. Johnston, Inspector, read a letter from the Minister of Education, granting extended certificates for one year to Miss Walton, Miss Chisholm and Miss McLean.

The Inspector also read a summary of the attendance of pupils at all the schools in the City, the number being 1,355.

Mr. J. Diamond wished his notice of motion on the subject to be read.

On the Finance Committee report, Mr. Tennant on the Finance Committee report. Mr. Tennant on the Finance Committee report.

There was considerable discussion on the account of Mrs. Kane for cleaning, amounting to \$10, which had not been out down by the Committee to \$5.

Moved in amendment by Mr. J. Diamond, that Mrs. Kane's account be increased to \$8.

The motion was lost.

All the accounts were passed.

### News Condensed.

#### Burglars are operating in Ottawa.

—Disturber has appeared among the horses in the city.

—There are twenty new students at Queen's College, Kingston.

—Hon. D. L. Macpherson, Speaker of the Senate, is in Ottawa.

—The police put a stop to a prize fight in Montreal on the 12th.

—A little child died at Montreal a few days ago from the bite of a rat.

—Five car loads of ice were shipped from Ottawa on Monday for New York.

—One and a half million feet of lumber was exported from Port Hope yesterday.

—A number of French officers are in Canada buying horses for the French army.

—Wm. Blake, M. P. for Canada, Ireland, has just returned to Montreal on a visit of inspection.

—Oil has been discovered at a depth of forty feet at Picton; the excitement is great.

—Thirty-six casks of crockery have been detained at Ontario for alleged under-valuation.

—Six persons convicted of selling liquor on the London fair grounds have been fined \$20 and costs.

—A five-year old girl named Leplante was run over by the train and instantly killed near Ottawa.

—The withdrawal of the best troops from Canada has been condemned in Anglo-Indian circles.

—The annual reports for presentation to Parliament are being rapidly prepared for publication.

—A lead mine has just been discovered at Picton, near Ottawa. Several parties have visited the place.

—A Valparaiso despatch of Oct. 10th says: Chili and Peru have accepted the offered mediation by the United States.

—The cost of the Huddell trial to the Crown has been about \$5,000; the witnesses' fees alone reached \$1,200.

—The Scott Act has been carried at Marquette by a majority of 41. Only about one-fifth of the electors voted.

—The last stone of the masonry for the Chandler Bridge at Ottawa was laid on the 11th with appropriate ceremony.

—Mr. J. Fraser, representing English capitalists, is negotiating for the establishment of iron smelting works in Kingston.

—The Pacific Railway Commissioners completed their labors at Winnipeg on Monday, and left for the east yesterday morning.

—Fourteen bodies have been taken out of the Hudson river since the 1st of September, and are expected to be found shortly.

—The Farnham beet-sugar company commenced operations yesterday with a large force of men at erecting buildings which will exceed 300 feet in length.

—An old gentleman named Fitzgerald claims to have raised 64 bushels of oats on his farm, which is situated near Emerson, Manitoba.

## POLICE COURT.

(Before Thos. Holden, J. P. M.)

OBSTRUCTING THE STREET.

In the absence of Mr. O'Brien, the counsel for the defence, the case of Jellat vs. Jellat, was further adjourned until to-morrow.

SPORTING NOTES.

Notis defeated the Australians by one

wicket. Scores: Notis, 88 and 131 for nine

wickets; Australians, 141 and 77. Shows-

bury carried his bat out for 60, and Barnes

made 42 in the second innings of the county.

Australian v. Victoria. Played on Sept.

27th, 28th, and 29th. The Australians won

by two wickets. The team left Southampton

early on the morning of the 5th inst.

for Venice and Brindis, whence they proceed

to Sicily, en route for Australia. When they

reach the colonies they will play a series of

matches before the team breaks up, and

Atelaide, Melbourne, Sydney, and else-

where. They played 32 matches in Eng-

land, and in Scotland, and 2 in Ireland.

Currently, both in Scotland and in

Ireland they scored one win and one draw,

the drawn matches being at Dublin

and Glasgow, and their victories at

Belfast and Edinburgh. Of the 33 Eng-

lish matches, 19 were won, 10 drawn,

and 4 lost. It is generally ad-

mitted that the Australians eleven are

far inferior in batting to the best among

Englishmen, their bowling and fielding will

be a fair comparison with anything Great

Britain can show. Spofforth bowled in 27

matches, and took 391 wickets with an

average of 5.64 runs per wicket; while

Palmer's 268 wickets cost 7.22 runs each,

and Boyle's 250 wickets 8.10 each. The

highest batting average was obtained by

Murdoch, who is by far the best bat in the

team. He scored 1,218 runs, and averaged

22.8. On Monday the 4th inst., the eleven

before their departure, they dined at the

Mansion House with the Lord Mayor.

The treating performance for the year

1880 has been the most remarkable in the

history of the track. Last year the record

was closed by St. Julian at Oakland, Cal.,

where he covered the then fastest mile in

2 1/2. This race was against time, and

was won by half a second the time with

which Rarus closed the preceding season.

It may be recalled that Rarus made his

somewhat disputed record of 2:13 1/4 in a

fourth trial heat at Buffalo in August 1878,

in a heat against time. Prior to this time,

the record of Goldsmith Maid, 2:14, had

stood first, as that of Dexter (2:17) had

in 1872, or the time of the celebrated Flora

Temple, which has passed by recollection.

This season Jockey Club, on the track

time from 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

of 2:11 1/2 to 2:10 1/2, with a record

## SOPERA, from Brazil, is now in Can-

ada. It is a mild purgative, acting as a wound

up, and giving strength and energy to the

digestive apparatus of the human stomach, cor-

recting and increasing the acids. It is strongly

recommended for all ailments of the stomach,

and for the Liver, giving sound digestion and

health to the Digestive and the Biliary.

—AND—  
**HAIR RENEWER**  
Grey and Faded Hair Restored

Equal to the best and cheaper than similar preparations imported, which often injure and destroy the hair. Price only 50c a bottle.

Read the following testimonial :—

BELLVILLE, Sept. 3d, 18  
MR. W. H. MITCHELL.

DEAR SIR:—I have used your Canadian  
Restorer, and find it to be a good article  
best in fact. I have ever used, and knowing  
the ingredients of which it is composed, I  
recommend it to the public as a valuable  
preparation, free from all poisonous qualities.

## Local Notices.

Notice under this head, for a time, after an interval of 24 hours.

**CITY MARKET.**—The undersigned having been re-elected in first class city style the old stand of Alfred, Ellis, on Bridge Street, adjoining the Custom House, is prepared to supply fresh and salted meats, sausage, poultry, and vegetables, at the lowest prices, and a share of public patronage solicited. Geo. I. Thacker.

**CALL AT McEwen & Stocker's** and see their stores. They have the Royal Blue burner, with and without gas, the best stove in the market, and the Windsor base burner with and without gas, the cheapest first class stove in town; also Cooking, Parlor, and Box stoves of the latest patterns and make. Every stove warranted to give satisfaction or money refunded. 1404 1/2

## Daily Intelligencer.

BELLEVILLE, SATURDAY, OCT. 16.

## 6 O'CLOCK EDITION.

## City and Vicinity.

**COUNCIL.**—A regular meeting of the City Council will be held on Monday night.

**THE CELLS.**—There were two prisoners in the cells last night.

**THE COMMISSION.**—The Agricultural Commission appointed by the Ontario Government will hold a sitting here on Monday. The proceedings are likely to be of interest.

**MENDELSSOHN QUINCY CLUB.**—The concert given in the City Hall by this company last night was a rich musical treat, but the attendance was not nearly so large as it ought to have been.

**THE TORONTO AND OTTAWA RAILWAY.**—The Perth Town Council has renewed its bonus of \$75,000 to the Toronto and Ottawa Railway. Ottawa is to be asked to renew its bonus of \$200,000.

**RAILWAY FREIGHT.**—The Stirling News-Argus says:—"During August 1544 tons of freight was received at the Stirling station, and 1304 tons shipped. In September the figures were 644 tons received, and 2114 tons shipped."

**THE RIFLE.**—In the Carruthers match at Kingston on the 14th, Corporal Hilton scored 42 out of a possible 50 at 400 and 500 yards and stood sixth. In another match Hilton scored 51 out of a possible 75 and stood tenth on the list of winners.

**WEIGHT AND MEASURES.**—The Inspector of Weights and Measures is determined to thoroughly enforce the law. So far but one person has been prosecuted, and a nominal fine imposed, but future delinquents will not be let off so easily. Let all concerned govern themselves accordingly.

**CORRECT SCORE.**—The official score makes the majority of points by which the 49th Battalion team defeated that of the Prince Edward Rifle Association in Tuesday's match one hundred and fifty. In our report Capt. White was credited with three points too many at the 500 yards range.

**BASS FISHING.**—Mr. Samuel Kennedy, an employee of the Grand Trunk, and two friends spent Wednesday afternoon in fishing in the bay near the city and were fortunate enough to capture 93 fine bass. Considering the lateness of the season this is an excellent one and may lead to a strike on the part of others to equal it.

**DESTRUCTIVE FIRE.**—On Thursday night 14th inst., the house, barn and workshops in the 2nd concession of Sidney owned by Mr. Charles Rowe and tenanted by Messrs. Houston and son, were totally destroyed by fire. There was expended 45,000 bushels of grain in the barn, and this, together with the farming implements, was consumed. The family had a narrow escape from being burned in their beds. The cause of the fire is unknown. Buildings partially insured.

**PAINTER M. SOMMER.**—This case, the second trial of which was commenced yesterday, was productive of much interest. Court room being well filled during the day. The interest manifested was to some extent owing to the celebrity of the counsel engaged in the case, there being a general desire to witness the legal sparring between Messrs. Betune and McCarthy. In this respect the audience taken by each was numerous and the arguments for and against by each of the eminent counsel respectively of a masterly character, and greatly enjoyed by old habits of the Court room. The trial resulted in the plaintiff being non-suited.

**METROPOLITAN HALL.**—The next company which will appear in the Metropolitan Hall will be Mr. Power's "Galley Slave" combination, who will perform there on the evenings of the 19th and 20th. The Montreal Star publishes a flattering review of the performance in that city by saying: "A better 'all round' company than that now playing 'The Galley Slave' at the Theatre Royal is seldom seen. It would be absurd to say that this is not a plenty of superior talent to be found, but the cast is peculiarly and exceptionally good as a whole. The tendency of modern drama is unfortunately toward the centralization and concentration of interest upon one or two characters. There is absolutely nothing of the kind about 'The Galley Slave,' about the company playing it. Of course the comedy has a hero and a heroine, and a very interesting couple they are, but the other characters are so good that the audience have no chance to become entirely absorbed in their real or woe." On the second night of their appearance, the highly interesting new comedy 'Dr. Jekyll' will be given.

ARRIVALS.—The S. S. *Montana* arrived at Rimouski 5:45 a.m. The mails left at 7:30 a.m.

**ASSESSMENT.**—The assessors to-day made their return of the assessment of the city for 1881.

**BIBLE CHRISTIAN CHURCH.**—A Social will be held in the Bible Christian Church on Tuesday evening next. A good programme is expected.

**THANKSGIVING TEA.**—The Blocker St. Church purposes holding its annual Thanksgiving tea on Tuesday evening next. Remember the date, Nov. 3rd.

**LABOR YIELD.**—Mr. John H. Russell, of Hamilton, informs that he has 14 bushels of Burbank seedlings planted in the spring, he had a yield of 61 bushels of potatoes.

**A GOOD BAND.**—Messrs. Pullman & Hamilton's band paraded the streets to-day in a wagon drawn by ten horses. Although not very numerous, the band is an excellent one.

**A HOUSEHOLD PARTY.**—EVERY FAMILY aims to appreciate and enjoy the pleasure afforded by a really healthy and delicious perfume, should supply themselves with the genuine MURRAY & LAMMAN'S FLORIDA WATER. It is the most delightful and most lasting of all fragrant waters.

**WEATHER PROBABILITIES.**—The following are the Toronto probabilities:—Lake, brisk to hard south easterly to south westerly winds, and rainy weather to-day, followed by westerly or north westerly gales and colder weather to-morrow.

**UNCLE TOM'S CABIN.**—Mr. A. H. Simmons, representing Atlantic & Ellis' "Uncle Tom's Cabin" dramatic company, was in town to-day, making arrangements for their appearance, which will be on Saturday afternoon and evening, the 23rd inst.

**PRINCE EDWARD FAIR.**—The County of Prince Edward Agricultural Society held their annual meeting at their grounds at Picton on the 15th. The weather was all that could be desired, and the attendance was the largest ever seen on the grounds. The receipts at the gates exceeded those of last year by \$79.

**ANNIVERSARY SERVICES.**—The anniversary services in connection with University M. R. Church will be held to-morrow, Sunday, Oct. 17th. Preaching in the morning at 11 and in the evening at 7 o'clock, by Rev. F. M. Finn of Trenton. Subject of morning discourse "The only alternative," subject of evening discourse, "Hunting for a Man."

**A HARD CASE.**—David Mountney, who was to-day sent to goal for two months for beating his wife, is one of the hardest of hard cases. He has been in the Central Prison, and has frequently been convicted of minor offences. At about 3 o'clock this morning it became necessary to remove him to another cell, and when Sgt. Snider proceeded to do so, the prisoner seized the officer with a torrent of the most foul abuse, and then struck at him. Snider effectually quieted the ruffian, though it required considerable exertion to do so.

**CHURCH DEDICATION.**—The Methodist Church of Canada, in connection with the church, dedicated a beautiful chapel at Bogart, on the 13th inst. The main building is 28x40 and the vestry 16x20. The church is gothic in style, and has such an air of completeness that called forth the admiration of all who saw it. It cost one hundred dollars including shed and fence, but is considered by competent judges to be worth about twelve hundred; this is owing somewhat to the fact that there was considerable work done by the friends in the neighborhood. The workmanship gave evidence that the contractors (S. G. Dufour carpenter, F. Lawrence mason, and C. Campbell painter), appeared in their work. The Rev. Dr. Jeffers preached in the morning in his usual eloquent style from 9th Corinthians v. 18, and formally dedicated the church. The expenses of the building was all met but one hundred dollars, which the trustees do not consider much burden, and will be able in the future to provide for without much trouble.

**HUNTER DUNN.**—Mr. Geo. S. Sydney, Business Agent for Mr. Tony Denier, was in town to-day making arrangements for the appearance of the great pantomime company under Mr. Denier's direction. The favorite old pantomime has been entirely rejuvenated, and is in all the essentials new. It will be presented in the Metropolitan Hall on Friday evening, the 22nd inst. The Chicago Times says of it: "Tony Denier deserves thankful credit for having succeeded in putting a new face upon at least part of that very aged pantomime entitled 'Humpty Dumpty.' The performance thereof by his company is lent to a dialogue that awakens laughter rather than reason of its surroundings. Denier has gone a little further than Grimaldi (as Mr. Adams is pleased to style himself), essays the verbally comic with more or less success, his example being followed by the Pantaloon and others, in various degrees of volubility. Pantaloon has reached the threadbare stage of use, and any change of any kind cannot but be viewed as an improvement and a relief. Mr. Denier has gone a little further than Grimaldi (as Mr. Adams is pleased to style himself), essays the verbally comic with more or less success, his example being followed by the Pantaloon and others, in various degrees of volubility. Pantaloon has reached the threadbare stage of use, and any change of any kind cannot but be viewed as an improvement and a relief. ## MANHOOD

### HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Oliver's "The Lost Manhood," a book which contains the most complete and reliable information on the subject of manhood, and its restoration. It is a book which every man should read, and which every man should have in his possession. It is a book which will show you how to restore your manhood, and how to keep it in perfect health. It is a book which will show you how to avoid the many dangers which surround the subject of manhood, and how to keep your manhood in perfect health. It is a book which will show you how to restore your manhood, and how to keep it in perfect health. It is a book which will show you how to avoid the many dangers which surround the subject of manhood, and how to keep your manhood in perfect health.

THE CULVERWELL MEDICAL CO., 41 Ann St., New York.

MORNING DESPATCHES.  
EUROPEAN.

CHURCH, Oct. 18.—Hutchins, who was shot at, is a Justice of the Peace. Only one man was killed. Hutchins and a driver were attacked with revolvers, but did not use them.

London, Oct. 18.—The Times says the belief that the Government intend to prosecute the agitators, has already produced a lull in the agitation. The second rate leaders are now being arrested. The London Standard says that the agitators at Langford altered an uncertain crowd. It may be suspected he has not yet made up his mind what course to pursue, and his followers share his hesitation.

A Castle Murov despatch says Admiral Seymour informed all the Admirals that the Turks were concentrating a large number of troops in Smyrna.

## AMERICAN.

NEW YORK, Oct. 18.—Christopher Emmis, while asleep on the roof of his house, was shot, and fatally, fell to the ground and was fatally hurt.

Zanderfelt stated yesterday that his business was not connected with the visit of any enterprise under his management. He said he had bought some time works of art.

The Times says Cocking will devote his entire time to canvas from to-morrow till the eve of the election.

200,000 barrels of apples have been shipped to Europe in the past three weeks, and the thousands of barrels also sent to the West Indies and the South American States.

It was stated yesterday that Grant would take rooms at a hotel here for several months.

The Herald says it is rumored that in view of the fact that Hancock's recent letter defied his views on the tariff was sufficiently explicit, any letter on the subject, making his views so clear and broad that there can be no mistake in the matter.

Arrived Chicago from Glasgow.

MAGUIRE, Pa., Oct. 18.—In a fight in the slabs at Schuylkill, the men of the night, who had each other in a terrible manner. One died.

LEAVELL, Oct. 18.—Several stores were burned here on Saturday. Loss \$20,000.

VICTORIA, B. C., Oct. 18.—On Thursday night a fire broke out in the mill of the Victoria Mill Co., which completely destroyed the mill. The fire broke out at 12:30, and the mill was completely destroyed. The damage to the mill was estimated at \$100,000.

SAVANNAH, Oct. 18.—A steamer from St. Louis, reports that the Indian who murdered the Government Collector 15 months ago, was hung on the seventh.

OVER COATS for the million. The largest stock of over coats in Belleville. A good useful overcoat for \$4.25. JAS. HENNEWAY.

PALMER vs. SOLIMES.—In the matter of the day we find the following report of the Judge's charge, in the case of Palmer vs. Solimes:—“I can scarcely conceive a more dislabeled imputation than that made by the defendant against the plaintiff. As he (the defendant) did not believe it, he was not justified in speaking of it to his friends. If he believed it to be true he should have pleaded a justification and put it on record. A more admirable charge than the defendant went about the street spreading could scarcely be conceived. How any Christian man could reconcile such conduct with his conscience is inconceivable, and in this case is a good illustration of the old adage, ‘a man is a good deal of a hypocrite.’”

Ontario Agricultural Commission.—A meeting of the above Commission was held in the Council Chamber this morning at half past two o'clock, to take practical evidence in the matter of grain growing in the severe drought. The following were present: Mr. J. W. Johnson, of the Ontario Commercial College, was examined on the matter of keeping farming accounts.

Mr. Johnson said on an average there were about 30 students who passed through the college and returned to the farm. They gave them Commercial Education, not Agriculture. He said he knew of no farmer who keeps accounts; some of them know a gain and loss on different operations on the farm; the farmer is satisfied with the manner of keeping a record of the state of his affairs; has such information framed a set of accounts; has not found it difficult to frame a set of accounts from such information; never hired an accountant; he has no practical knowledge of his work; he has no practical knowledge of his work; he has no practical knowledge of his work.

## Our Iron Industries.

## What is Doing in the Madoc Mines.

## From the Madoc Review.

An impression seems to prevail, outside the immediate neighborhood of the mining district, that little or nothing is doing in the Madoc iron mines at the present time. This is a very erroneous impression, and with the object of giving our readers an idea of what is now being done, a representative of the Review paid a flying visit to the principal mines in this locality on Saturday last. The first one visited was the Homalito mine, on the gravel road. Here a force of twenty-one men are at work engaged in drawing the ore to the railway track. The ore is raised from the bottom of the mine to the wagons by means of a steam hoist, from 100 to 120 tons being taken out daily. We were informed by Mr. Charles S. Mitchell that some extensive alterations and improvements are at present being made, and that the mine is being substituted of a “skip road” instead of the one now in use for bringing up the ore to the surface, which would enable them to get out about four times as much as they are able to do by their present means. A couple of shafts have been sunk at the bottom of the mine as a test of the extent of the ore before they undertake such an extensive work, and we believe the company are thoroughly satisfied with the result. There is every indication of iron in unlimited quantities, as deep as they like to go, and if the projected improvements are carried out, things will be decidedly lively around there this fall. The number of men will be largely increased as the work gets in regular running order.

From there we visited the Seymour mine, and found the work going on. About twenty-five men are at present employed. A large new blacksmith shop has just been erected, and other necessary buildings are in course of construction. A steam drill is situated in the bottom of the main shaft, the ore being raised from below to the tramway cars, where it is sorted and run out to be loaded. From the improvements that are being made at this mine there appears to be no fear of the business “playing out” very soon.

At the Sixth mine Mr. Munson is pushing things vigorously, forty-five men being employed, and nine teams engaged drawing to the railway track. This force, we were informed, will also be increased in a week or two, and it is evident a big business is intended to be done here for some time to come. The ore, both for quality and quantity, is all that could be desired.

A call was also made at Messrs. Lee & Co.'s Slate Quarry, where operations, during the past month or so, have assumed large proportions. They are now getting out a fine quality of slate at a depth of between 30 and 40 feet, and have on hand a large quantity ready trimmed for building purposes, a nice specimen of which we have in our office. We have no doubt but that they will succeed in establishing an extensive business in this line.

Since writing the above we learn that Messrs. Dickson and Campion, of Belleville, have purchased Mr. Lee's interest in the quarry. The company is now composed of Messrs. Loomis and Greenough of this village and Messrs. Frankel, Dickson and Campion of Belleville.

—Hansen has entirely recovered from his indisposition of last week, and is now reported to be in excellent health. His rival is stated to have shown a remarkable trial over the course of the morning.

Chicago Ahead.—All the world now looks up to Chicago as the great western metropolis of America, being far ahead of all competing cities; but none the less, in its life, is Electric Bitter. From their real intrinsic value they have advanced to the front, and are now far ahead of everything else. To try them is to be convinced. For sale by Jas. Clarke & Co. at fifty cents per bottle.

BUCKLE'S ARTHUR BALBOA.—The Best Sarsaparilla for the World for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chills, Corns, and all kinds of Skin Eruptions. This Sarsaparilla is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. 95-ly

ZOPESA, from Brazil, is now coming to Canada. It is a mild purgative, acting as a wonder upon the bowels, and giving strength and energy to the rectum and increasing the acids. It is strongly Anti-bilious, gives sound digestion and speedily removes all the impurities of the blood. It is the best ZOPESA, the new compound. Large eight ounce bottles 75 cents. 134-ly

MARRIED.—On the 5th inst., at the residence of the bride's father, by the Rev. D. W. Walker, of Madoc, JAMES J. CAMPBELL, of St. Catharines, and JUDITH CAMPBELL, of Madoc, daughter of DAVID CAMPBELL, Esq., of Madoc.

Commercial.—Belleville Markets.—The deliveries of grain to-day were light. Barley sold all the way from 45 to 65c, at which price one load was sold. The ruling price of the day was from 55c to 65c, a few loads being sold at 62c.

Wheat was steady at 88c. Rye—\$1.00 to \$1.10. Barley—55c to 60c. Oats—35c to 40c. Corn—25c to 30c. Potatoes—\$1.00 to \$1.10. Apples—\$1.00 to \$1.10. Butter—\$1.00 to \$1.10. Eggs—\$1.00 to \$1.10. Cattle—\$1.00 to \$1.10. Horses—\$1.00 to \$1.10. Poultry—\$1.00 to \$1.10. Fish—\$1.00 to \$1.10. Vegetables—\$1.00 to \$1.10. Fruit—\$1.00 to \$1.10. Miscellaneous—\$1.00 to \$1.10.

On the 5th inst., at the residence of the bride's father, by the Rev. D. W. Walker, of Madoc, JAMES J. CAMPBELL, of St. Catharines, and JUDITH CAMPBELL, of Madoc, daughter of DAVID CAMPBELL, Esq., of Madoc.

Commercial.—Belleville Markets.—The deliveries of grain to-day were light. Barley sold all the way from 45 to 65c, at which price one load was sold. The ruling price of the day was from 55c to 65c, a few loads being sold at 62c.

Wheat was steady at 88c. Rye—\$1.00 to \$1.10. Barley—55c to 60c. Oats—35c to 40c. Corn—25c to 30c. Potatoes—\$1.00 to \$1.10. Apples—\$1.00 to \$1.10. Butter—\$1.00 to \$1.10. Eggs—\$1.00 to \$1.10. Cattle—\$1.00 to \$1.10. Horses—\$1.00 to \$1.10. Poultry—\$1.00 to \$1.10. Fish—\$1.00 to \$1.10. Vegetables—\$1.00 to \$1.10. Fruit—\$1.00 to \$1.10. Miscellaneous—\$1.00 to \$1.10.

**Daily Intelligencer.**  
Spare the Trees.  
In a report published at Washington by the Secretary of the Interior, a copy of years ago the alarming statement is made that at the present rate of consumption the accessible timber of the United States will not last more than fifteen years. The supply has not only deteriorated in quantity but in quality also, and we may judge of the value the evidence furnished before a select committee on Immigration and Colonization taken before the Dominion House of Commons in 1879. The evidence then tendered by a specialist sent out from Britain finds its reflex in the experience of the lumber merchants of this country.  
The witness stated that thirty years ago pine trees attained the height of seventy feet. To-day it is difficult to find a stick of pine timber more than fifty feet long. The enormous loss of twenty-five per cent in square timber has a serious effect in diminishing the supply, one-fourth being absolutely wasted in cutting the tree into its square form. When it is learned that only one tree in five is sound and fit for shipment the loss is not only a serious proportion—the four being left to rot in the woods. The law may be slight, but sufficient to condemn the lumber trade, and instead of being utilized the waste goes on increasing year to year, and when dry fires are kindled to feed the forest, the damage is like tinder, and the trees leading from the wagon road to the forest, ready to ignite, and spread destruction far and wide.  
It really seems wicked that legislation does not step in and try to stop this state of things. True, in some of the Eastern and Western States, the State Governments offer free grants of land to the settler, to plant forest trees, and also premiums for the best exhibit; but at best it is a slow method of overruling the destruction which is continually going on. The forest pine stands, for which this country, and especially Canada, were once famous, are almost everywhere being cut down. The fact of the matter is that self preservation should compel the legislatures of both countries to prohibit the exportation of square lumber.  
In Bavaria every kind of lumber is saved on the ground, and sent out of the country in a manufactured state. Window frames and door sashes are exported to the consumer already tongued and grooved. The work gives employment to thousands of persons who would otherwise have to seek other employment.  
In Britain, however, the mill-owners stand behind the export and consumption. There is no reason why lumber cannot be sent to Europe already manufactured, as is done in Bavaria and Germany. Hitherto the Provincial Governments of Nova Scotia, Quebec and Ontario have received large annual grants from the sale of timber lands, and the authorities in the past have been disposed, for the sake of the revenue, to rest the subject with indifference.  
Forest guardians in Quebec are few and far between, and but little vigilance is in the protection of forests from destruction by fire. A spark from a passing locomotive having no fire guard on its smoke-stack may cause loss amounting to hundreds of thousands of dollars, which it would take the best part of half a century to replace.  
Forest fires generally arise from carelessness but strange to say loss by lightning is rapidly increasing. We gather this fact from the evidence already received, and carelessness is due to two causes—First, from unextinguished fires in lumber camps; second, from the carelessness of hunting and fishing parties. Persons should be heavily fined for lighting a fire within the given radius of a clear circle. The open space should be large and clear from all chips and inflammable substances, such as dead brushwood and branches, and the law should punish severely people who leave fires burning after using them. Long rows of pine chips extending half a mile act as gunpowder when once ignited, and the flames cannot be checked. It is not so much on farms that damage is to be apprehended as in the lumber regions or fishing locations. With this undergrowth properly removed a serious fire would be almost impossible. The day, however, will come when the rapidly diminishing supply of lumber will force itself upon the attention of the government of the United States and of Canada. We can scarcely find words strong enough to protest, as we have often done, against the laxity of the laws governing one of the most vital sources of national wealth—Scottish American Journal.

**The Secret of Happiness.**  
How often have we longed for perfect enjoyment and how seldom found it. Misfortune has come, or its health overtaken us. Perhaps a cough has come upon us which threatens that dreaded of all diseases, consumption, and we feel that death is near. With what joy should we then, when such a remedy as Dr. KID'S NEW DISCOVERY for Consumption is placed within our reach. It has cured thousands who were nearer the grave than ourselves and made their lives peaceful and happy. Asthma, Bronchitis, Hoarseness, Loss of Voice, Difficulty of Breathing, or any affection of the Throat and Lungs are positively cured by this. We desire to say that Dr. KID'S NEW DISCOVERY will cure, if you call and see Charles C. Co. You will get a full trial of its effects.

**Ruptures—pinches Purses and Snuffboxes.**

**A Father who Melted.**  
The other evening a citizen of Detroit beckoned to his 12-year-old son to follow him to the woodshed, and when they had arrived there he began:  
"Now, young man, you have been fighting again! How many times have I told you that it is disgraceful to fight!"  
"Oh, father, this wasn't about marbles or anything of that kind," replied the poor lad.  
"I cannot help it. As a Christian man, it is my duty to bring up my children to fear the Lord. Take off your coat!"  
"But, father, the boy I was fighting with called me names!"  
"Really can't help it; calling names hurts anyone. Off with that coat!"  
"He said that I was the son of a 'four puller'!"  
"What! what's that?"  
"And he said you was an office hunter!"  
"What! what leader dared make that accusation?"  
"It made me awful mad, but I didn't say anything. Then he called you a hiring!"  
"Called me a hiring?" "Why, I'd like to get hands on him!" puffed the old fellow.  
"Yes, and said you was a political lick-spittle!"  
"Lead off, gracious! but wouldn't I like to have the training of that boy for about five minutes!" wheezed the old man, as he hopped around.

**That a remedy made of such common, simple plants as Hops, Buchu, Mandragora, Dandelion, &c., makes in many cases such a powerful and wonderful cure as Hop Bitters do! It purges, for women old and young, rich and poor, Father and Mother, Lawyer and Editor, all tendency to having been cured by them, we must have and doubt no longer. See our column.**

**A RAILWAY BETTER SUPPLY TRAIN.**  
Farmers who are confining themselves to the reflection that they need not fear any more competition in supplying the home market with dairy produce, says the *Full Mail Gazette*, "will be surprised and disappointed by the appearance on English railways of a red and white butter truck which has just been started on the Northern line, for the purpose of supplying the butter dealers of Manchester with the produce of the dairy of Denmark. This latest addition to the rolling stock of our railways was built by the North-eastern to the order and from the designs of the United States Shipping company, of Copenhagen, and it pilots between Newcastle and Manchester. The truck is constructed with a double casing, the intermediate spaces of which are filled with sawdust, and the interior, which is light, is fitted at each end with large iron wheels, which reduce the temperature of butter from 68° at Newcastle to 38° at arrival in Manchester. By this arrangement the butter is in transit, and can be delivered in the hottest weather at inland markets in prime condition. The application of a large scale of a principle thus proved to be successful is certain at no distant date."

"What! what leader dared make that accusation?"  
"It made me awful mad, but I didn't say anything. Then he called you a hiring!"  
"Called me a hiring?" "Why, I'd like to get hands on him!" puffed the old fellow.  
"Yes, and said you was a political lick-spittle!"  
"Lead off, gracious! but wouldn't I like to have the training of that boy for about five minutes!" wheezed the old man, as he hopped around.

**That a remedy made of such common, simple plants as Hops, Buchu, Mandragora, Dandelion, &c., makes in many cases such a powerful and wonderful cure as Hop Bitters do! It purges, for women old and young, rich and poor, Father and Mother, Lawyer and Editor, all tendency to having been cured by them, we must have and doubt no longer. See our column.**

**A RAILWAY BETTER SUPPLY TRAIN.**  
Farmers who are confining themselves to the reflection that they need not fear any more competition in supplying the home market with dairy produce, says the *Full Mail Gazette*, "will be surprised and disappointed by the appearance on English railways of a red and white butter truck which has just been started on the Northern line, for the purpose of supplying the butter dealers of Manchester with the produce of the dairy of Denmark. This latest addition to the rolling stock of our railways was built by the North-eastern to the order and from the designs of the United States Shipping company, of Copenhagen, and it pilots between Newcastle and Manchester. The truck is constructed with a double casing, the intermediate spaces of which are filled with sawdust, and the interior, which is light, is fitted at each end with large iron wheels, which reduce the temperature of butter from 68° at Newcastle to 38° at arrival in Manchester. By this arrangement the butter is in transit, and can be delivered in the hottest weather at inland markets in prime condition. The application of a large scale of a principle thus proved to be successful is certain at no distant date."

**The Secret of Happiness.**  
How often have we longed for perfect enjoyment and how seldom found it. Misfortune has come, or its health overtaken us. Perhaps a cough has come upon us which threatens that dreaded of all diseases, consumption, and we feel that death is near. With what joy should we then, when such a remedy as Dr. KID'S NEW DISCOVERY for Consumption is placed within our reach. It has cured thousands who were nearer the grave than ourselves and made their lives peaceful and happy. Asthma, Bronchitis, Hoarseness, Loss of Voice, Difficulty of Breathing, or any affection of the Throat and Lungs are positively cured by this. We desire to say that Dr. KID'S NEW DISCOVERY will cure, if you call and see Charles C. Co. You will get a full trial of its effects.

**Ruptures—pinches Purses and Snuffboxes.**

**A Father who Melted.**  
The other evening a citizen of Detroit beckoned to his 12-year-old son to follow him to the woodshed, and when they had arrived there he began:  
"Now, young man, you have been fighting again! How many times have I told you that it is disgraceful to fight!"  
"Oh, father, this wasn't about marbles or anything of that kind," replied the poor lad.  
"I cannot help it. As a Christian man, it is my duty to bring up my children to fear the Lord. Take off your coat!"  
"But, father, the boy I was fighting with called me names!"  
"Really can't help it; calling names hurts anyone. Off with that coat!"  
"He said that I was the son of a 'four puller'!"  
"What! what's that?"  
"And he said you was an office hunter!"  
"What! what leader dared make that accusation?"  
"It made me awful mad, but I didn't say anything. Then he called you a hiring!"  
"Called me a hiring?" "Why, I'd like to get hands on him!" puffed the old fellow.

## **Daily Intelligencer.** **Hungerford Fair.**

The Township of Hungerford Fair and  
 Cattle Show was held at the Town Hall,  
 on Thursday, Oct. 14th.

It was well attended, the ladies being  
 present in numbers, which added to the  
 general attraction.

The articles displayed were good in the  
 main. Cattle were quite numerous  
 and attracted a good deal of notice, as  
 did the display of fowls from the various  
 manufacturing establishments. The display  
 of leather was conspicuous by its  
 absence, as only a few sets of harness were  
 exhibited. The ladies' department was  
 elegant in the extreme, great good taste  
 being shown in the exhibit. Fruits were  
 plentiful and of good quality, and  
 principally apples. Pears were good, and  
 grapes likewise, but not many to be seen.

The display of home-made goods was fine but  
 there were not many of pure blood.  
 In the description known as Grade goods  
 not to be surpassed in any township show.

In domestic manufactures the entries  
 were few, but of a good quality.

Some fine poultry were exhibited, including  
 some strange looking ones.

Sheep and hogs were good classes. The  
 farmer in Hungerford is showing that he  
 will not be surpassed for improvement in  
 the various branches of husbandry.

Legitimate and labor saving machines  
 were numerous and of the best description  
 of the kind made.

Dairy produce was excellent, as shown  
 by the cheese and butter. The quality of  
 all others, should be of the best quality,  
 and the Hungerford show of 1880 is a good  
 proof that they are such.

Roots and vegetables were in abundance,  
 and the size of some of them was without  
 exception, the largest ever seen in this  
 township, what the quality was at close  
 range of the roots grown in Mr. McChesney's  
 garden, Twp. 2, Range 1, Sec. 1, was  
 every other description of vegetable was  
 equally fine. Grain was No. 1, and a large  
 quantity shown of almost every description.  
 The show in the main was good, and quite  
 a success. The following is the

10 a.m.  
Arrive from Stirling, Campbellford and  
Hastings, at 10.30.  
Trains run twice per week.  
E. H. BRENNAN,  
Superintendent.

MANHOOD.  
HOW LOST, HOW RESTORED.

We have recently published a new  
edition of Dr. Oliver's "Celestial  
Balm" on the radical and per-  
manent cure (without medicine) of  
Debility, Mental and Physical Incapacity,  
Impotency, etc., resulting from  
excess.  
Price in a sealed envelope, only 6 cents,  
or two postage stamps.  
The celebrated author, in this admirable  
Balm, clearly demonstrates from thirty years'  
successful practice, that alarming con-  
sequences may be radically cured without the  
dangerous use of internal medicine or the  
application of the knife; pointing out a mode  
of cure so simple, certain and effectual,  
by means of which every sufferer, no matter  
what his condition may be, may cure himself  
cheaply, privately and radically.  
"This Balm" should be in the hands of  
every youth and every man in the land.  
Address  
THE CULVERWELL MEDICAL CO.,  
41 Ann St., New York.  
Post Office Box 4556 601v

From Belleville to Liverpool or London  
duty, 10s. 6d. and 20d. according to  
position of time-room.

Passage only, with first-class Railway 54s.  
Passage only, with second-class Railway 42s.  
Children 1/2 to 12 years half price, under  
year free.

Storage tickets at reduced rates.  
Holders of tickets are issued without extra  
charge, but from Liverpool, London, Bristol  
or Cardiff.

The last train connecting with the Ocean  
Steamer at Quebec, passes Belleville every  
Friday at noon. Passengers go at once on  
board.

Experience. Surgeon accompanies each  
vessel, and is on board until paid for.  
Passengers wishing to send their friends can  
do so by forwarding letters, rates from  
Belleville, Montreal or Toronto, to any railway  
station in Canada or the United States. (When  
tickets are not used the amount is returned,  
less a small deduction.)

Letters and telegrams forwarded at a  
special rate to each of the vessels.

For through tickets and every information  
apply to  
U. E. THOMPSON,  
Canadian Express Office,  
May, 1880.  
Belleville.

BANKING OFFICE.

U. E. THOMPSON,

BRIDGE STREET, BELLEVILLE, ONT.

448  
\$12 A WEEK. \$12 a day at home easily  
made. Money lent on any terms.  
T. DONNELLY, Agent, Belleville.

MINORE,  
UNDERTAKER.

OUR business is conducted strictly upon  
the One Price System, in connection  
with which we may be allowed to state that  
in stores where a small price is made, more  
than the right price is ALWAYS asked,  
and what it were for the buyer, more than  
the proper price is obtained. For the con-  
sumer after having been put to the annoy-  
ance of haggling for an abatement, gets a re-  
duction in the price, often such a large one  
that in itself it might create suspicion, and  
leads him to ask if he has not been paid  
more than he asks.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

**Daily Intelligencer.**  
BELLEVILLE, FRIDAY, OCT. 22.

## An Anti-Chinax.

The Picton Times in an editorial article roundly denounces the coal duty and almost every other duty in good set terms, and concludes by saying: "There is nothing like it in England." There is nothing like it in England. There has been truly remarked that a poor man need not pay a farthing to the revenue if he confines himself to the necessities of life, leaving out tea, coffee, spirits, tobacco, etc., which habit, it is true, has rendered almost necessary. Here the poor man's fuel, his pork, his flour, his clothing are all taxed, and against such a barbaric policy. Immediately following this "barbaric yawn" appears the following little paragraph:—"Mr. D. A. Manson, Conservative, was elected M. P. for Broms on Monday by a majority of 127." What an anti-climax is thus afforded! It is, however, the best practical evidence that could be given of the estimate which people place upon such stuff as that above quoted from the Times.

## Municipal Statistics.

The assessors having completed their labors in the assessment of the city for 1881, we are enabled, by the courtesy of the City Clerk, to present the following abstract of the assessment, together with a statement of the school population and of value of property in the city exempted from taxation:

Number of ratepayers.....	2,314
Number of acres in City limits.....	1,493
Value of resident lands.....	\$4,484,527
Value of non-resident lands.....	25,806
Total value of resident and non-resident lands.....	\$4,510,333
Value of personal property other than income.....	64,800
Amount of taxable income.....	42,350
Total value of personal property and taxable income.....	107,150
Total value and amount of real and personal property and taxable income.....	\$4,617,483
Dogs.....	424
Blebs.....	3
No. of persons in the family of each person rated as a resident.....	9,392
Number of cattle.....	133
Number of sheep.....	3
Number of hogs.....	121
Number of horses.....	64
Statute labor—number of persons rated 21 to 60 years.....	2,138
No. of school children from 5 to 15.....	2,713
Public schools.....	2,713
Roman Catholic schools.....	421
<b>LIST OF EXEMPTIONS FOR 1881.</b>	
Churches.....	\$166,032
Ministers' residences.....	21,670
Schools.....	45,400
Dominion Government.....	15,728
Ontario Government.....	4,300
County property.....	73,000
City property.....	63,500
Fire department.....	5,400
Salaries or incomes.....	1,600
Burying grounds.....	1,600
<b>Real and personal property and taxable income.....</b>	<b>\$4,617,483</b>
<b>Exemptions.....</b>	<b>\$337,563</b>
<b>Total.....</b>	<b>\$4,279,920</b>

As compared with the assessment for 1880, that for 1881 shows a decrease of 140 in number of ratepayers; an increase of \$102,501 in value of resident land; a decrease of \$9,900 in value of non-resident lands; an increase of \$11,800 in value of personal property; of \$12,470 in taxable income; of \$115,946 in total value of real and personal property and taxable income; of 182 in dogs; a decrease of 596 in the number of inhabitants; an increase of 5 in the number of cattle; a decrease of 64 in hogs; of 20 in horses; and an increase of 17 in number of persons liable for statute labor. The list of exemptions is heavy in amount, and it does seem as if the law should be so amended as to wipe out a large sum from that amount.

**COINING WAY.**—According to the New York Times, there are \$45,000,000 of silver dollars stored away in the vaults of the Treasury, and as it is bound to go by Act of Congress, the Mint still goes on coining silver dollars at the rate of two millions a month. Being actually worth only ninety cents it becomes a serious matter to the Savings Banks of the country whether they shall not be obliged to take it at its face value. At present the demand for silver dollars is almost wholly from the South, caused doubtless by the collapse of the Freedman's Bank. In one week recently \$842,000 was sent southward, and in spite of its being worth only ninety cents in gold it is a popular coin with the negro. It is good for storing away, for it will neither rust, rot, or burn, and his recent experience teaches the negro that it is better to bury his talent in the ground than give it to the exchangers.

**WINDSOR HOTEL, MONTREAL.**—This superb hotel furnished with elevator and all the latest improvements, and carefully maintained at the right standard of excellence, offers good rooms with board at \$2.50, \$3.50, \$5.00 per day. Windsor is a free block from the O. T. B. Station, and a free coach, plus constantly between the Hotel and the Office. It is better to come to 153 St. James Street, free to commercial travellers. 14634m

## NOTES BY THE WAY.

Messrs. H. R. Ives & Co., who are amongst the largest iron founders in Montreal, have recently commenced the manufacture of the famous *Thurmoil* Four Point Bashed Gun from the *Thurmoil* Iron Foundry. The company called the "Canada Wire Company," of which Mr. Ives is President, occupy the upper stories of the immense Foundry of Messrs. Ives & Co., and are well able to fill the orders for this fine gun, so great and universal is the demand for it. The Grand Trunk Railway Company have taken from this season, over one hundred tons, and will in a very short time, have their whole road enclosed with it. Other Railways in Canada are gradually supplanting the old board fence with it, and as lumber becomes more difficult to get, this wire fencing will become principally used. It costs at least one-third less than the ordinary board fence, and its cheapness, lightness, and its general utility will make it the favorite fence of the country. The Iron Works of Messrs. Ives & Co., extend from King to Queen, and Queen to Prince, and Prince to Ottawa Streets, these being 180x100 feet, and give employment to between 200 and 300 men. A specialty of this establishment is Composite wrought iron work, iron gates and ornamental iron work, and the heavy portion of their work that they have supplied orders from nearly all parts of the Dominion. A recent addition to their manufacture is chilled mould board ploughs, of which they have made half 2,000 for one concern. Their fine castings are done in one portion of their extensive works and the heavy portion of their work that they are doing, which is four stories in height, is connected by an iron bridge—an ornamental feature of the establishment—on Queen Street, with the warehouse and offices. Here may be found samples of the house furnishings, railings, &c.; and another specialty of their work is Mr. Potts' celebrated smoothing iron, which they manufacture in large quantities. On King Street is a machine shop where the ploughs are ground and polished. Mr. Ives, the head of the concern, is a live business man, and he reports a largely increased business since the inauguration of the National Policy, with bright prospects for the future.

The culture of the grape is largely increased throughout the Dominion, but it is not confined wholly to Ontario, for we find here in Montreal, where until recently it was comparatively unknown, it is cultivated on an extensive scale. Messrs. Gallagher & Gauthier, the former being well known in Belleville, have extensive vineyards at Point de Claire near Montreal, and have entered largely into the cultivation of the Beaconsfield variety, a grape which is very prolific, of a superior flavor, and which is becoming a general favorite wherever introduced. Their vineyards comprise some 40 acres, 40 of which are planted, and they are preparing the remainder of the land for planting in the spring. Although only in the market for the last two or three years, they have supplied large orders from all parts of the Dominion, including Manitoba and Prince Edward Island. Mr. Gallagher left on the 15th for Prince Edward Island, to superintend the planting of some 8,000 vines, for which they had received orders from that Province. In addition to the Beaconsfield grape, they cultivate all kinds of small fruits, such as currants, raspberries, strawberries, &c. The friends of Mr. Gallagher in this vicinity will be glad to learn that his venture has thus far been highly successful, with prospects of still greater success in the future.

The New York Piano Company, to which reference is made in another column in a letter to the Montreal Herald, have in Montreal one of the largest and finest Musical Houses on the Continent, and we understand they are about establishing another warehouse in Toronto. This Company manufactures the celebrated Weber Piano, which is spoken of by the greatest musicians as among the best made in the world. They are most elegant instruments, having a pure, sweet tone, full of brilliancy and fire; immense power, capable of filling the largest hall; and being made with a view to durability and standing in time, they have become the favorite instruments of the art loving public. Sir Hugh Allan has purchased one of the largest of these instruments for the new Music Hall, built by him on St. Catharines Street, in Montreal. Amongst our citizens who have these pianos in use is Mr. Fuller, late of Montreal. The warren of the New York Piano Company are well worth a visit from lovers of music and those who may want to purchase a good musical instrument.

Among other objects of interest we visited in Montreal, was the extensive Boot and Shoe manufacturing establishment of Ames, Holden & Co., who during the past year have got into their new, handsome and commodious warehouse, erected for them on Victoria Square, near Beaver Hall Bridge. The building is of cast stone covered with galvanized iron, sixty-five feet long, eighty-five feet deep, and five stories high, and magnificently lighted by numerous windows on three sides. Upon entering the building we found ourselves in a large and commodious packing room, with ceilings 14 feet in height. Here we ascended eight or ten men busily engaged packing into cases and trunks, boots and shoes of all sizes and descriptions, for shipment to the different points of our wide spread Dominion, from British Columbia on the west to Nova Scotia and Cape Breton on the east, and even down to Bermuda. On either side of the packing rooms were the offices and sample room, which for comfort and convenience could not be surpassed. We noticed one firm were already preparing their new samples for the spring trade, as some of their travellers have to go from three to four thousand miles before reaching their customers; they will be leaving this month, as it will take all the intervening time to get to their customers, and the orders home, and have the goods reach the customers before the spring trade commences. We were very much taken with

their new spring samples, and pleased to note that the changes this year were all for the better, and that the abnormally high and pointed toes were giving way to the round toe and common sense heel, not more than an inch or an inch and a half high, and we were assured that fashion now calls for broader soles, better quality of material, and less ornamentation than heretofore. Their agents, walking shoes, made of kid goat, French calf, and pigskin, and well as the Congress and Balmoral, seemed all that the most fastidious could desire for elegance, comfort and durability, and as far as we were able to judge the large display of ladies', misses' and children's shoes could not be excelled for style, modishness and completeness in every way. Upon ascending to the factory to see the modern machinery by which these results were produced, we were at once struck with the thoroughly business like and systematic manner in which the whole establishment was conducted; every man, woman and child, in his special work to perform, and constant practice seemed to have made perfect in every case.

The variety of machinery now employed by this firm in the manufacture of boots and shoes is marvellous, and the ingenuity displayed in the use of the machinery is well worthy a visit to see, and process in the manufacture, which a short time ago were considered impossible to be done except by hand work, are now performed by machinery with precision and despatch. The firm employ about three hundred hands, and turn out from seven to nine thousand pairs of boots and shoes weekly with the greatest ease.

The boot and shoe manufacturers of the Dominion have felt very keenly the crisis through the last few years, but they speak very encouragingly of business now and seem to have got back to the good times of seventy-three and four. The many friends of Mr. J. C. Holden, of the firm of Ames, Holden & Co., will be glad to hear of his continued prosperity since he left his Belleville home.

## PRINCE EDWARD ASSIZES

## Verdict of Manslaughter

Six months in Gaol.

(By our own Reporter.)  
FROST, 21st Oct. 1880.  
The Court opened this morning at 9:30 for the hearing of the defence of the prisoner Thomas Thompson. The room was as densely crowded as it was during yesterday, and the interest taken in the trial as intense and deep as before. One of the jurors complained of illness, but the case was allowed to proceed. The evidence advanced in behalf of the prisoner went to show that on some portion of the testimony of the girl Catherine Vincent and James Pearson, who by his discharge became a witness and gave evidence, as did also his wife; to the effect that after Ames was shot and Thompson entered the room where Mrs. Pearson was, as each remarks as "By G— I've shot him," or "Yes, by G— I have," was said by Thompson. Other witnesses swore as to marks on the window glass and window frames that were made by human hands.

At this juncture (11 o'clock) the juror alluded to was seized with an epileptic fit, and the Court adjourned for two hours. A telegram from Pictou announces that the jury, after half an hour's deliberation, brought in a verdict of manslaughter against Thompson. He was sentenced to imprisonment in the common gaol for six months.

## Fatal Accident at Bancroft.

## Killed by a Runaway.

A melancholy accident, attended with the loss of life, took place just below the village of Bancroft on Saturday evening about 7 o'clock. Mr. John Powers, blacksmith of Bancroft, was returning to his farm in Dunagans, about 2½ miles from here, in company with his son Albert, a promising young man about 20 years old, who was driving a team of horses. In going down a hill something gave way about the tongue, causing the wagon to run foul of the horse, which caused them to run away, throwing both father and son out. It is supposed that the son held on to the lines until he struck a log, the horses having left the road, when the wagon striking also, broke, throwing out the heavy spring; and which struck the young man on the back of the head and neck, causing a deep wound and severing the neck-bone from the head, causing instant death.

On the father's return, and making the sad occurrence known, numbers turned out and brought the body to the Bancroft House, Mr. Davy's, where I examined the head, which was not bruised, but found a great hole, and advised that the corpse be removed to his father's house, which was done, quite a number of the villagers following.

The funeral took place at L'Amable on Monday at 2 p.m. and was largely attended for so short a notice, some going 7 or 8 miles. It was estimated that not less than 200 persons were present. The services were conducted by Rev. Mr. Wheeler, Methodist minister. I am told his discourse was very impressive. Deceased was a most dutiful, obedient and affectionate son and brother, estimable in life and conduct, and was much respected by all who knew him. His loss will be a great one to the family as well as throughout the community. Surely "in the midst of life we are in death."—*Com.*  
Bancroft, Oct. 20th, 1880.

## MARTIN.

The Kingston News says: The Hero arrived last night, and is a fine up at Gann's wharf. She is said to be a new and speedy boat for the bay service between the Hastings. Her deck is all open and particularly adapted for the transport of cattle and vehicles.

The steamer Hero made her first trip up last night. She makes good time. The ship, Pelmore, has cleared for Oswego with her cargo for Tuesday. The R. & J. Collier is loading for the same firm.

The tug boat arrived this morning with the schooner Marguila and J. Beatty in tow and proceeded with them to Trenton.

Messrs. Fuller & Hall have loaded the J.N. Carter at the western elevator with barley for Oswego, and are now loading the Ontario at the Grand Junction wharf. The former is bound for the western market, and the latter is said to pull for the same market. The Phila Delph is loading lumber at Wm. Sutherland's.

## News Condensed.

—Several large bears have been killed near Ottawa.  
—The mountain ranges to the north of Quebec are covered with snow.  
—More gold has been discovered in the Tangle district, near Halifax, N.S.  
—The Pacific Railway Commission will resume its sittings on Tuesday next.  
—The exemptions at Ottawa crossed the total number of taxable property.  
—On the 21st inst. a lively stable at Denver, Col., with 60 horses, was burned.  
—It is thought the water will be let out of the Rideau Canal about the middle of next month.

The value of the school buildings in Toronto is set down at \$322,000; school furniture \$24,000.  
—The New Zealand Parliament has passed a bill legalizing marriage with a deceased wife's sister.

It is said the Governor General will shortly visit St. Clair Falls on a duck shooting expedition.

—New has been received from Mexico that all the Indians of Victoria and party have been destroyed, including the Chief.  
—There is a great lack of transportation facilities on all the Western Railways. Double the number of cars could be used if they were to be had.

—Mr. George Lamond, late editor of the Hamilton Times, received the appointment of Secretary to the Provincial Secretary of the Province of Ontario.

—The tobacco trade in Quebec are more serious than generally supposed, some four thousand pounds in all having been taken from fifteen different establishments.

—The wife of the Rev. Newman Hall is married to the lively stable man, Richardson, who was the co-responder in the suit for divorce instituted by her late husband.

—The farmers have taken up the best-roasted sugar scheme as enthusiastically in Arthursville, that over 1,000 acres more than asked for will be sown with sugarbeets.

—Munka seems to be a good country for potatoes. Two hundred bushels were raised from half an acre there this summer, some of the tubs weighing three pounds.

—A syndicate of Toronto cattle dealers is said to have contracted with the Allan and D-minion lines of steamers for space for 20,000 cattle for the ports of Liverpool, London, Bristol, and Glasgow.

—Capt. James Norris, ex-M.P. for Lincoln, with headquarters at St. Catharines, has met with a streak of fortune, and is said to have made \$200,000 in shipping lumber and milling speculations this year.

—A sea monster twenty feet long, with black stripes and large black spots on its body, attacked Capt. Duncan Adams while fishing in an open boat off New London, P. E. I. With the aid of two boys the monster was beaten off.

—Gold has been discovered near Perth which yields \$128 to the ton. The mine is situated on a lot of one hundred acres about seventeen from the town, and is the property of W. Hicks, who, with several other gentlemen, is arranging to develop it.

## Sporing Notes.

What has become of our local Curling Club? Some time ago it was to have met for the election of officers, but did not. There ought to be sufficient interest to keep the organization in life, at all events.

At the games of the Irish Athletic Club at Boston, E. W. Johnston cleared 5 feet 11½ inches in a running high jump, and this being disputed the height was measured, when it was found to be 6 feet 4½ inches, being the highest jump ever made in America.

At the Ottawa meeting there was a race of half mile heats for three year olds and under the race, which required seven heats to decide, was won by Mr. John Wilson's filly Nelly, a two-year-old, which took the last three heats. Time: 1:44; 1:41; 1:40; 1:38; 1:38; 1:38; 1:39—pretty good time for a two-year-old. Nelly won a slashing brown filly, two-year-old, by General Ken, out of Nelly Flange by St. Lawrence. General Ken is by Dr. Her's Mambrino Patchen, of thoroughbred Wait-a-Bit. This filly shows plenty of range and substance for one of her years, as well as her way of going and the burst of speed she will show as something marvellous for a two-year-old.

The smallest trotting horse now on the track, probably the smallest in America, it is said to be Lumps, who was a starter in the 2.26 class at the recent Louisville, Ky., meeting. Lumps is but 14 hands and 1 inch high.

Mr. P. Lordill has succeeded during this week in purchasing the celebrated French sire Mortimer, the sire of Vennell, Chamant, Suzette, Clementine, St. Christophe, Ellet, and La Buzard. Mortimer was foaled in 1855, as an son on the Arcot cap when six years old, with 131 pounds. The price paid by Mr. Lordill was \$25,000.

The weather in England is rather so bad that Hadden declares he would rather trade in Canada in the middle of winter and row on Lake Ontario. Laycock and Trickett are still at the Isle of Wight. Hanlan, Homer and Hawdon continue practice on the Thames. Rily has arrived at London and commenced practice for the Hop Bitter price.

Mr. Soule, the president of the American Company states that he does not desire to assume the slightest authority with regard to the International Regatta, but wishes that a number of influential aquatic gentlemen form a Committee to superintend the affair. He is settled as yet, but the regatta shall be held, and says he considers ten o'clock will be enough to fight the battle. A race for second-class scullers would receive his favorable consideration, and the question will be settled on his arrival in London on Monday next. He has gone to Newcastle, where he will remain until the end of the week.

## FURS!

Before buying, Call and See Our Stock of

HATS, CAPS, GLOVES, FURS, AND MILLINERY.

GOOD VALUE

MUR'S, Late Mfr & Lawrence.

Four Pointed Galvanized Steel Barb Wire Fencing. The best and cheapest Fence in the world. Adopted by the G. T. Ry. Co.

RELLVILLE, SATURDAY, OCT. 23.

## That Shield Again.

"Richard's shield again"—that is, Sir Richard John Cartwright, Knight of the venerable shield, "the shield of the wheel" ex-Plenipotentiary of the Dominion, and M. P. for Centre Huron. Sir Richard has been silent for some weeks, but on the 18th inst. he took occasion to address his constituents, and to discharge the bile which had accumulated within him since his speech in Manitoba at the heads of Ministers, and at their commercial policy and their action in regard to the North-West Territories. We have heretofore seen the labor of carefully reading the verbatim report of Sir Richard's speech at Goderich, which fills nine columns of Thursday's *Globe*, and find but little to reward us for so much industry, the conclusion arrived at being that, like the tilt of the no less famous Don Quixote at a wind mill, the gallant and learned knight's attack upon those points of the Government's policy which he saw fit to assail, will be productive of very little effect. Ministers will continue to carry on the Government of the country in their own manner—a way which, it may be said, the people have practically shown their approval of, even if their course do not give entire satisfaction to the ex-member for Leamington, who has for a long time imagined that all that is worth knowing is contained in the cranium which is covered by his own bonnet.

Sir Richard devoted one-half of his speech to an elaborate attack upon the tariff, in which he but repeated in effect what he had said before, namely, that the tariff had been a detriment to all the people of the country except a few lucky monopolists, but as this assertion has been so frequently made before, we will not at this time devote space to its refutation, for its falsity our readers are fully informed. The latter half of his address was an equally lengthy criticism of the policy in regard to the Pacific Railway and the North-West. In his remarks upon this theme, the ex-Minister was not consistent with himself, and displayed alternately the silver and the copper sides of his shield. First he spoke of the enormous value of the land, and then he said that it was not worth anything, and further on he industriously endeavored to depreciate their value as being subject to adverse frosts at critical times; then he commended the selling of 64,000 acres to Mr. Brassy, and admitted that he had made a similar purchase himself. Sir Richard wound up a dreary and wearying address, the tedious of which was only relieved by some venomous attacks on Ministers, in attempting to justify his speculation in North-West lands, stating that he had purchased from a private individual and not from the Government. That the hon. gentleman may be fairly represented in this connection, we give the following extract from the *Globe's* report of his remarks on the point:

He had been charged in some of the organs of the Government with highly improper conduct, in that, as alleged, he had bought lands in the North-West under a private purchase policy, and was therefore inconsistent in declining to sell them. Even if the statement were true it had nothing to do with the policy. As a private citizen he had a perfect right to purchase land at the terms offered, even though he might disagree with the policy. They might as well argue that no man had the right to buy goods manufactured under the tariff, or engage the manufacturer of any article himself, without being a supporter of the National Policy. But in any case the statement was not true, as the lands were purchased, not from the Government, but from private individuals. He could not but think it an act of extreme stupidity for his opponents to attack him for buying lands, while at the same time they defended the land policy. If there was anything wrong in supporting the policy of the Government, and that policy was wise and patriotic, then he and any one else who bought those lands were doing a highly patriotic and were to be highly commended. But if they chose to assail such purchases, what must they think of the policy of the Government which was the way of their doing all possible inducements to persons of all classes to speculate to the utmost in the purchase of those lands?

Sir Richard's argument is specious, but it is not sound. The Government does not denounce land speculation and land speculators, therefore it was not inconsistent in him to speculate in lands, he does not himself which he condemns in others, and the fact that he bought from another speculator, instead of from the Government, makes no difference whatever in the principle governing the sale. His different with the consumer of imported goods who is opposed to the tariff and with the case cited to engaging in manufactures. In the first case the article being amongst the "necessaries of life," as the *Globe* organs have it, the consumer is obliged to purchase in order to live, whilst in the second case, the article is invested in a legitimate business. Sir Richard and his friends hold that speculation in lands is not a legitimate

business. Hence the failure of his attempted analogy. The worthy knight who, it may be said, had, during the course of his speech, denied the truthfulness of Professor Macdonald's estimate that there are 200,000,000 acres of land fit for agriculture in the North-West, and argued that the Government was not to be held responsible for the failure of the public, that the professor and others who had gone over most of the territory, know less of it than did the speaker, concluded by expressing his continued lack of confidence in the Government. Of course, Sir Richard has no confidence in any Government of which he is not himself a member; but fortunately for the country the people do not agree with him, and have persistently endorsed Sir John Macdonald in refusing to accept that gentleman at his own estimate.

## The Pacific Railway.

The negotiations with the representatives of the capitalists who have undertaken the construction of the Pacific Railway have been progressing at Ottawa during the week with what result will be learned by the following telegram from Ottawa, which appears in the *Montreal Gazette* of the 22nd inst.: "The Cabinet has been in session all day to-day, and met again this evening at nine o'clock. It is an open secret that the subject which engaged its attention was the proposed contract for the construction of the Pacific Railway. The leading Canadian members of the syndicate and the representative of the European members of it were present, and it is said the details of the contract have been finally agreed upon, the documents formally drawn up, and, as is believed, it has been signed to-night. What those details are the public is not yet informed, but I am in a position to say that all the stories which have recently been circulated about disagreements between the European capitalists and their Canadian associates in the enterprise, and the withdrawal of the latter from the project, are entirely unfounded. The gentlemen who are here from London come formally accredited by the continental members of the syndicate, to act for them, and to sign in their name. The scheme adopted and the parties interested in it are precisely the same as when Sir John Macdonald made his statement at the Hochelaga station. It is understood that the most ample security is taken by the Government for the completion of the line from the Atlantic to the Pacific Ocean within ten years. It is said that the members of the syndicate are pressing very strongly for an early session of Parliament, so that the Act confirming the contract may be passed, in order that they may be in a position to enter upon the work at the earliest possible moment. The Mail con- firms the accuracy of the above statement in its issue of to-day, by saying: 'We understand that after the sitting of the Cabinet protracted till after midnight on Thursday night, the contract between the Government and the railway syndicate was completed as to details, and, we believe, completed or nearly so as to signatures. Some minor formalities remain to be added before the contract can be said to be executed and binding.'

## Political Notes.

THE WORKMEN AND THE N. P. The *London Advertiser* is not yet satisfied. It says in its issue of the 21st: "Let the workmen ponder over these facts: Under the National Policy he works one full week in order to pay the additional cost of the sugar he uses; three days to pay the additional cost of his coal; and so on till fully one-twelfth of his time is spent in working for money to pay the Government taxes. How grateful would be a month's holidays each year to the men who now have to work from December to January to support their families.' Under the beneficent rule of the *Grit* party, workmen did not work from December to January, although they would have been very glad to do so. The Government of that day, having a paternal regard for Canadian workmen, took care that they were not overworked, by allowing foreign manufacturers to pass their goods under false invoices, and so to overwork our market. By this means our workmen were placed on half or three-quarters time, and consequently had plenty of holidays. It is strange, but true, that these misguided people did not appreciate the blessing thus conferred upon them, assisted in turning off the philanthropists who thus kindly looked out for the bond of labor, and are so stupid as to prefer to work full time and time and consequently facing the wolf at the door daily. The starvationists may think all this very queer, but they will find that their professed solicitude for the workmen is appreciated at its true value by those on whose behalf it is expressed."

THE DIFFERENCE. The *Montreal Star* puts this teaser to the principal organ of the free-traders: "The whole difference after all between the *Globe* and the *Generalist* organs, is whether custom duties should be levied simply for revenue purposes, or for revenue and incidental protection. It would be interesting to know, therefore, whether the *Globe* would like to have the duties imposed under the N.P. removed, and if so, where the revenue is to come from. Let us have something besides denunciation."

THE U.S. WHEAT CROP.—The wheat crop of the United States this year is estimated at 450,000,000 bushels, and of this amount about one-third will be exported to Europe. The failure of the crop in Central Russia makes the demand abroad larger than usual, and already large shipments have been made to Russia. The crop of the Pacific States is estimated to be 60,000,000 bushels, and the surplus for export will be at least 30,000,000. The shipment of this grain is a large item in the earnings of the Pacific Railway, and the capitalists of the Pacific States in the supply of agricultural products for exportation, as well as the steadily growing demand for merchandise in exchange, must from year to year continue to improve the business of the road.

## Rifle and Target.

## Matches at the Belleville Ranges.

The concluding match of the Hastings Rifle Association, namely the Merchants' match, 7 shots at each, at 200, 500 and 600 yards, took place yesterday. The weather was highly unfavorable, a cold wind blowing over the ranges from the right over with snow and rain, consequently the scores were much below the usual average. This match also decided the aggregate of the series of the meeting, which was won by Corporal Hilton, who thus secures the Ontario Association badge. The scores made were as follows:

MERCHANTS' MATCH.	
1. Corp. Hilton.	49th Bat. 75
2. Lt. W. H. Bignar.	67
3. Sgt. H. Tammage.	65
4. Sgt. J. H. Hamblin.	63
5. Sgt. J. H. Hamblin.	61
6. Priv. W. Kerr.	57
7. Lt. W. H. Bignar.	55
8. Sgt. H. Tammage.	53
9. Major P. H. Hamblin.	49
10. Priv. W. Kerr.	47
11. Sgt. Pope.	45
12. Masson.	40

The 49th Battalion champion cup was also competed for and was again won by Lieut. Bignar for the second time in succession. The principal scores were as follows:

5TH COMPETITION.	
1. Lt. W. H. Bignar.	79
2. Corp. Hilton.	75
3. Priv. W. Kerr.	67
4. Major P. H. Hamblin.	67
5. Sgt. J. H. Hamblin.	65
6. Priv. W. Kerr.	57
7. Sgt. H. Tammage.	56
8. Sgt. J. H. Hamblin.	55

## Seasonable Topics.

The coming winter casts its shadow before. The brilliancy of the autumnal foliage is beginning to wane. This is a good season of the year to begin preparing for the almost "lost art" of shutting the door. The *Globe Herald* says: "The morning wrappers which ladies now wear in their chambers are made of light flannels without lining. How does the editor know?" A country speaker speaks of a meteor "as long as a lance" and "the tail must be as long as a piece of string." A score of Christians are just like our milk. Both were intended to be sweet, but something has turned them, and after being turned they both become worthless.

The *Weekly Intelligencer* will be sent to new subscribers from the present time until Jan. 1881, for \$1.50, and a handsome premium of a picture of the Parliament Buildings, which retails at \$1.00 thrown in.

All Hallows' night on Sunday this year; one week from next Sunday.

The newspaper men of the Province think of setting apart a day of thanksgiving for that fall show season is over.

Those who want a job of printing done neatly, quickly and cheaply, call at the *Intelligencer* Office.

The *Daily* and *Weekly Intelligencers* have the largest circulation of any journals in Central Ontario, and are consequently the most valuable mediums for advertising.

A sensible exchange says: "Fence board advertisements are well enough, but if you want to purchase an article it is more convenient to look through the columns of a newspaper to see who has it for sale than it is to 'hook up' a team and drive round the country reading fence signs."

THE CONSEQUENCE OF THE DEFENCE. The *Pictou Gazette* gives the following summary of the evidence for the defence in the case of the Queen v. Thompson:

The defence of Thompson was then proceeded with, Mr. Dickson, who appeared on behalf of the prisoner—calling as his first witness

SMITH VIVANT—whose evidence was of no special importance.

JACOB STARR—testified to having a conversation with Amans on the night prior to the murder, when the deceased expressed his intention of going to Pearson's that night, and that he himself came out of Baird's hotel, cross the bridge and go in the direction of Pearson's.

JOHN TOMPKINS—The evidence of this witness merely had reference to the discovery of marks on the wall of Thompson's house, which seemed to indicate that some one had been trying or had succeeded in getting in.

Mrs. JAMES PIERSON—Was then called. The evidence of this witness differed a little from that given by Catharine Vincent. She denied that the gun had been placed in her bedroom after it had been found and prior to its being discharged; she also differed from the same person's evidence in reference to what Thompson said after the discharge of the gun, and that he said that no language was attributed to him as uttered; when he came in (he Thompson) said "bring a light; I've shot some one or something," it may be my own father."

## Marine.

Between the 1st of July and the 16th of October, 445 vessels arrived at Toronto from, and 415 vessels cleared for United States ports.

The schooner *Van Halburg* is dismantled and ashore at the entrance to Kingston Bay Canal.

The schooner *Orinda* went ashore near Muskogee, and all hands, except one, were lost.

The velocity of the wind in the late hurricane was at Frankfurt, 30 miles per hour; at London, 75 miles per hour; at Port-au-Prince, 45 miles per hour; at Havana, 60 miles per hour; at San Juan, 55 miles per hour; at Santiago, 50 miles per hour; at Mexico, 45 miles per hour; at San Francisco, 35 miles per hour; at San Pedro, 30 miles per hour.

The schooner *David Vance* arrived at Glen Haven with her foremast head gone. She was sent to the yard at Point St. Charles.

The schooner *North Star* has arrived from Oswego and is loading barley at J. D. Macaluso's.

The schooner *S. J. Collier* filled out her cargo at Oswego and is loading barley at J. D. Macaluso's.

The schooner *David Vance* arrived at Glen Haven with her foremast head gone. She was sent to the yard at Point St. Charles.

The schooner *North Star* has arrived from Oswego and is loading barley at J. D. Macaluso's.

The schooner *S. J. Collier* filled out her cargo at Oswego and is loading barley at J. D. Macaluso's.

The schooner *David Vance* arrived at Glen Haven with her foremast head gone. She was sent to the yard at Point St. Charles.

## Daily Intelligencer.

BELLEVILLE, TUESDAY, OCT. 26.  
The Latest "Double Shuffle."

The Provincial Government, in the transfer of Mr. Steadman, who was charged with brutality towards the prisoners in the Central Prison, from that institution to the Penitentiary Reformatory, set a bad precedent. They have done still worse by following out that precedent, in appointing Capt. Prince, the former Warden of the Central Prison, to be Registrar of South Wellington, and transferring Mr. Masie from the Wellington Reformatory to the Wardenship of the Central Prison. The double shuffle has been severely commented on by the press, and even the Guelph Mercury, one of their most pliant organs, feels constrained to condemn the transaction, which it does as follows:

"As to the transfer of Captain Prince to the Registrarship of South Wellington that is no pleasant matter to deal with. There has been much talk in the newspapers about this gentleman, and not a few charges have been brought against him. In connection with his management of the Central Prison. Not a little scandal has also been circulated about his habits etc., which has tended to give the public mind against him. The Government have cleared him of the charges as affecting his duties as Warden, and there is little doubt that the scandal referred to has been greatly, and for a purpose, exaggerated. But the fact remains that the Government must feel that they could not keep him any longer in the position he held, that his 'usefulness was gone,' and that they must provide with another officer. They have chosen to put him into the Registrarship of South Wellington. No doubt they did so with the intention, and on the ground that no positive charge against him had been proved. But it will be hard for the Reformers of the Riding to accept the transfer, or to acquiesce in the convenient way the Government have of shaping things to suit the extreme straits of their principle of expediency, or to prevent them from believing that this riding is now regarded as a convenient refuge for politicians of faded reputation, and for holders of record and habits render them unsuitable for the positions they held in other places, and are consequently removed from office in our much patronized riding."

There can be no doubt that the action of the Government was wrong in both cases. Messrs. Steadman and Prince were charged with serious offences and ought either to have been honorably acquitted or discharged from the public service. Our Ontario readers rendered a verdict of acquittal in each case, but practically acknowledged the truth of the charges by removing the accused from the positions which they held and placing them in other places in the public service. Shilly-shallying is the characteristic of Mr. Mowat's Government, which ought for such conduct to receive the condemnation of all, irrespective of party. They have proved themselves to be removed from office.

## N. P. Notes.

Norhansen & Co.'s button factory, at Berlin, is being enlarged to three times its former capacity.

The Kingston News says:—"A further notice has been issued by J. Silverstein & Co., who lately kept an extensive fur establishment in New York, which speaks for itself. Messrs. J. Silverstein & Co., late of New York, take pleasure in informing you that having been encouraged to establish in Canada the manufacture of fur trimmings, they are now prepared to execute orders for muffs, tassels of superior quality, cloak ornaments, silk cord, croquet barrel buttons and loops, hat and cap cords, etc. As we employ only experienced hands, we will guarantee all our work equal to the imported and at prices considerably lower."

The capacity of McMillan's malt house at Kingston is to be doubled. It will, when refitted, turn out 140,000 bushels of malt per year and give employment to 25 men.

**DEATH OF JOHN MATTHEWSON.**—Montreal papers announce the death of Mr. John Matthewson, who for half a century was one of the most active and influential citizens. He died on Saturday night, at the ripe old age of ninety years. His commercial career was characterized by surprising activity and industry, which never declined even in the face of repeated and serious reverses. His works were three times destroyed by fire. He was a member of the City Council in 1843 and 1844, and took a lively interest in immigration matters. Until about ten years ago he continued active in business, in spite of personal afflictions. His influence was felt in a marked degree in all movements of religious progress. He took an active interest in the foundation of the Ottawa Street Methodist Church. He was connected with the Bible Society from its formation, and was a trustee of the old St. James Street Church, as well as of present churches.

## Political Notes.

## THE NEW DEPARTURE.

The Globe comes favorably upon an extract taken from a letter in the Ohio Farmer, and calls the attention of the Minister of Agriculture thereto, in which the following argument is used:—"I take it to be the highest duty of Government not only to protect and defend the rights of its citizens, but also to consider such circumstances as will compel other Governments to respect them, at least to the point of equality of rights and reciprocal reciprocity of privileges." In the Globe heretofore the aid given to the protectionist has been to the Ohio Farmer is just what the advocates of the N. P. claim the present Government is doing by the existing Canadian tariff, and looks as if our contemporary was making another new departure. Hon. Mr. Tilley has said that as soon as the American Government will give us reciprocal trade he will be prepared to recommend the same to the Commons of Canada and take down the high wall which his existing protective tariff has erected."

## COAL OIL RINGS.

The Toronto Telegram says: "While they are employing the vials of their wrath on the heads of the coal speculators who have formed a combination to keep the price of coal oil up to a high figure, and blaming the Government's trade policy for allowing speculators to do this, it would be as well for Reform journals to bear in mind that there were coal oil rings before the National Policy was dreamed of."

## OUT OF THE QUESTION.

The London Advertiser sensibly says it is out of the question to discuss the terms made by the Government with the syndicate who have undertaken the construction of the Pacific Railway, until those terms are made public. The Globe does not harmonize with that view of the matter, but continues its harmless occupation of making three new sets of terms per week and "pitching into" them unmercifully. At this rate the Opposition organ will have expended all its powder before the game has been started.

## The Bridge Street Methodist Sunday School Tea Meeting.

As previously announced, a tea meeting was held last evening in aid of the Bridge Street Methodist Church Sunday School, which, despite the unfavorable weather, was very successful. The tea meeting was held in the newly fitted basement of the church, which has been fully described and which proved particularly well adapted for such meeting as well as for Sunday School purposes. During the course of the evening, the President, Mr. Wm. Johnson, was called to the chair, when brief and pleasing addresses were delivered by Mr. A. G. Northrup, Rev. Wm. Hall and Dr. Jeffers. On the platform were Rev. D. Mitchell, Rev. A. Turnbull, Rev. A. Schuster and Mr. James Ross.

The proceeds of the evening's tea amounted to \$114.50, which, together with the collections on Sunday amounting to \$47.50, made the sum of \$162 in contributed towards the improvement fund.

## For the Intelligencer.

## Dunngannon and Faraday Agricultural Show.

The Dunngannon and Faraday Agricultural Society held their annual fair on Wednesday the 13th inst., which was as fine a day for the purpose as could be wished for. There was a large attendance of people and all the articles exhibited in the show room were of first rate quality. I read in the INTELLIGENCER of a solitary oob of corn finding its way from Bancroft to the INTELLIGENCER office, if it was something wonderful to find corn growing in these back woods. Now you see the corn had been in the show room on the day of the fair he could have seen 36 heads of corn which averaged 12 inches long and took 1st, 2nd and 3rd prizes, also apples which would not disgrace any market in Canada, and as for wheat I leave your readers to judge, as the bushel of spring wheat was sold at 82 1/2 cts. There was also a splendid show of ladies' work, which astonished every stranger that beheld it, and what may astonish some of your readers all this splendid exhibit was produced far south of Bancroft, there were two cabbages, which took a first prize, there was a fair show of corn, but the prize was poor, with one hundred barrels of corn, and a number of passengers. The grain was the first shipment of wheat from the new elevator at Duluth, which is now in course of reaping. The steamer brings reports of heavy damage to property at Duluth, Silver Lake and elsewhere by the nor-easter of the 16th and 17th inst. The steamer is carrying a steady gale of wind from away and the landing place at the outside elevated floor with boulders and gravel, necessitating dredging before any boats could land. Cars were washed by track and houses were washed down on Minnesota Point. All work in the boats could not be kept at the dock. A number came to anchor in the harbor and three vessels dragged their anchors and went ashore, but got off before the City left. It has been blowing a steady gale of wind since the 11th inst. from one direction or another. At Prince Arthur's Landing the vessels had difficulty in lying at the dock. The dock pier left the breakwater was demolished and the blacksmith shop washed away. The City left the harbor on Sunday morning, leaving the Mitisiora and barges lying there winnowed.

## Commercial Notes.

**NOTES.**—The Montreal Gazette says:—"The sale of 75 bbls of extra No. 1 wheat at 140 per lb. New Canadian chestnuts have been sold at \$10.00 to \$11.00 per bbl."

**CANADIAN TOBACCO.**—The Montreal Star says:—"Producers of Canadian tobacco around Quebec are taking advantage of the new law which allows them to put in pound rolls their leaf tobacco. Packages from a quarter to a pound in weight may be seen exposed for sale in groceries, all bearing the Government stamp, and instead of being obliged, as formerly, to conceal their tobacco in small packages, the producers can carry it to market and claim the price, without fear of confiscation, provided each package bears a stamp. Some have been sold at 20c per lb. Salt—A despatch from Turkey's island says:—"The salt crop is below average. Shipments up to September 17th amounted to 300,000 bushels. Stock, 100,000 bushels. Prices at Grand Turk and Salt Cay were firm. Coarse, low: steam ground flaxseed 12 1/2 cts; at East Harbor one-half cent less."

Mr. J. E. Norbury, of this city, has been awarded the contract to deliver to the Grand Trunk Railway Company 90,000 railway ties the coming season.

—The insurance on vessels expires at the end of this month, and any trips made afterwards will either be done under extra insurance or none at all. The latter is generally done.

## News Condensed.

—Sir A. T. Galt returned to the capital last night.  
—Sir John A. Macdonald will shortly visit Toronto.  
—Sir Charles Tupper, it is said, will visit Manitoba this week.

—Mr. Lewis, Secretary of the Department of Agriculture, is visiting Manitoba.  
—The report that the Consolidated Bank Committee was to prosecute the Directors was not correct.

—On the 23rd inst., a fearful hurricane visited the Nova Scotia coast and the damage was serious.  
—A number of prominent citizens of Toronto have requested Mr. C. W. Bunting, of the staff, to stand for the Mayoralty.

—On the 23rd inst., the store of Henry Sheffer, Kipper Village, County Middlesex, was robbed of \$2,000 worth of goods.

—On the 23rd inst., Jas. Warner, of Toronto, was robbed of a watch and chain valued at \$75 while asleep on the G.T. Railway near Cornwall.

—A few days ago, a boy twelve years of age living at Sherbrooke, was poisoned by swallowing a quid of tobacco. He died in great suffering.

—A Swiss watch making firm evades the tariff law by sending small watches to Rome to be carried by mail. Twenty pigons a day were employed.

—The Grand Trunk Railway Company have reopened their station at the western end of Prescott, doing away with Prescott Junction and the branch to Prescott.

—California is picking up a large trade in shipping preserved potatoes to England. The tubers are pressed and dried, and will keep any number of years.

—Diphtheria is creating frightful ravages in Halifax and throughout the entire province of Nova Scotia. An alarming number of deaths are reported.

—A Philadelphia man died the other day and impartially divided his property among his three wives. Each was entitled to one-third of the estate.

—The Governor-General entertained Hon. Wm. Macdougall and Mrs. Macdougall, Mr. Austin, of the London Times, and others at dinner at Rideau Hall on Saturday.

—The steamship Saratoga on Saturday last brought out 150 orphan girls from eight to fourteen years of age, and three boys, sent out by Cardinal Manning to the care of Bishop of Chicoutimi.

—All the way between Prescott and Toronto Americans are scouring the country for hay, which is being pressed and shipped to the other side. Fuel will be dear this winter in consequence.

—Large bodies of British troops have been ordered home from India. This is considered indicative that the Government apprehends no further serious disturbances in that quarter.

—Mr. Wardle reports that the whole of the 25,000,000 franc capital stock of the Credit Franco-Canadien has been subscribed in France. He intends advising the Board to increase the stock to 50,000,000 francs.

—Alarming and serious news has just been received from the Government from Cape Town. The natives of Natal have revolted against the Government authorities, and the British colonial forces are in great danger.

—The report of the destruction by fire of the town of Quenneville Forks, in the Cariboo Territory, is confirmed by direct advice from Victoria. Only one house in the place was left standing.

—The fall term of the Supreme Court of Canada opened at Ottawa to-day. The appeals included for hearing number eighteen, and include the Belcher case. Charles Lewis, election named and the Mayor of the city.

—On Wednesday last, while a young man named Richardson, and aged twenty-four, living a few miles distant from Port Elgin, was feeding a threshing-mill, his arm was drawn in and almost torn from his body, causing death within an hour.

—On Sunday morning, fifty students who had left Minden in a yacht to witness the departure of the mail steamer from Amsterdam for India, ventured too near the steamer, and their yacht was buffeted against its side so violently that twenty-six students were thrown overboard, of whom twelve are missing.

## The Storm on Lake Superior.

EXCITING TIMES AT DULUTH AND PRINCE ARTHUR'S LANDING—BOATS, CARS, AND BREAKWATERS WASHED AWAY.

COLLINGWOOD, Oct. 25.—The steamer City of Owen Sound, of the Collingwood and Lake Superior Transit Line, arrived down early last evening with 20,000 bushels of cattle was poor, with one hundred barrels of corn, and a number of passengers. The grain was the first shipment of wheat from the new elevator at Duluth, which is now in course of reaping. The steamer brings reports of heavy damage to property at Duluth, Silver Lake and elsewhere by the nor-easter of the 16th and 17th inst. The steamer is carrying a steady gale of wind from away and the landing place at the outside elevated floor with boulders and gravel, necessitating dredging before any boats could land. Cars were washed by track and houses were washed down on Minnesota Point. All work in the boats could not be kept at the dock. A number came to anchor in the harbor and three vessels dragged their anchors and went ashore, but got off before the City left. It has been blowing a steady gale of wind since the 11th inst. from one direction or another. At Prince Arthur's Landing the vessels had difficulty in lying at the dock. The dock pier left the breakwater was demolished and the blacksmith shop washed away. The City left the harbor on Sunday morning, leaving the Mitisiora and barges lying there winnowed.

INTERESTING RELIQU.—The weekly Mail of Oct. 23rd says:—"A very curious and interesting relic is in the possession of the Rev. J. Ridley, Alisa Craig, viz., an old book bound in parchment, nearly 300 years old, bearing the printer's date of A. D. 1692, and 151 years after printing was invented by Faust in 1441. It is printed in Italian, with Latin headings, and is profusely illustrated with quaint but suggestive woodcuts. We doubt if there is any older book in the country. There is at least one book in the country we know of more ancient than the above. The Rev. R. S. Fornier of this city has a copy of Dante's "Divina Commedia" from the Italian press dated 1605, and therefore older by nearly a quarter of a century. It has two engravings illustrating the poet's Paraglyph and Paradise."

## Amusements.

Trains run by Belleville time.  
R. H. BRENNAN, Superintendent.  
May 31st, 1880.

## MANHOOD—HOW LOST, HOW RESTORED

We have recently published a new edition of Dr. GUY'S "MANHOOD," a treatise on the various causes of nervous debility, and the means of restoring the system to its normal state. It is a work of great value to all who are afflicted with this complaint, and is sold in a small envelope, only 6 cents, and two postage stamps.  
The celebrated author, in this admirable treatise, clearly demonstrates that thirty years' successful practice, that alarming consequences may be readily cured without medicine, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.  
Send for this treatise at once to the hands of every youth and every man in the land.  
Address: THE CULVERWELL MEDICAL CO., 41 Ann St., New York City.  
Post Office Box 4586.

Arrive from Strathroy, Campbellford, and Hastings at 10.30 a.m.  
Trains can be taken at Belleville, Malton, Strathroy, Campbellford, and Hastings.  
R. H. BRENNAN, Superintendent.

## MANHOOD.

HOW LOST, HOW RESTORED.  
We have recently published a celebrated Essay on the radical and permanent cure (without any medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess.  
Price, in a sealed envelope, only 6 cents, or two postage stamps.  
The celebrated author, in this admirable Essay, clearly demonstrates from thirty years' successful practice, that alarming consequences may be readily cured without medicine. Dr. Williams' Pink Pills for Pale People, is a sealed envelope, only 6 cents, or two postage stamps.

## NORMAN'S ELECTRO CURATIVE APPLIANCES

Relieve and Cure Spinal Complaints, General and Nervous Debility, Rheumatism, Gout, Neuralgia, Sciatica, Catarrhs, Throat and Chest Complaints, Nephritis, Bronchitis, Incipient Paralysis, Asthma, Sciatica, Consumption, Sleeplessness, Cholera, Indigestion, Ask for Norman's Electro Belt and you will be safe against impostors, for they will do their worst work and are cheap at any price.

A. NORMAN, Esq., 100 West Third Street, New York, N.Y.

Dear Sir—Please send me a waist belt, Enclosed find price. Head band got for my four trials.

MR. NORMAN, 100 West Third Street, New York, N.Y.

Dear Sir—I am pleased with the belt I got for my four trials and with you would send circulars to the following addresses.

Yours truly, B. H. TILLEY, 100 West Third Street, New York, N.Y.

Dear Sir—The belt I got last September did me a lot of good. I was not able to work then, but I am now. I have had no more of the kind of backache and two pairs of shoes. Enclosed amount, \$21. Please send them by mail.

Numbers of such testimonials can be seen at my office, proving that they are doing a good work and worthy the attention of all sufferers. Circulars free. No charge for consultation.

B. H. TILLEY, 100 West Third Street, New York, N.Y.

I have entirely retired my establishment with my electro and other baths, which are now the best in the city. Electro and vapor baths, hot and cold baths, and all the latest machinery, ladies and gentlemen, whether invalid or not, will find these baths tonic, strengthening, cleaning, enlivening, cheering and comforting. Come and try them.

A. NORMAN, 4 Queen Street East, Toronto.

N. B.—Trusses for rupture, best in America, and Electric Batteries always on hand at reasonable prices.

129-131 West Third Street, New York, N.Y.

It is a

Gems of Thought

to love.  
 is of man's life a thing, a part; tis  
 existence,  
 and in doing no injury to man;  
 giving them no offence,  
 every of all pleasure is as transient  
 which man makes round its blooming  
 condemn more powerfully the  
 the wicked than the moderation of  
 man is not he who wrongs no one, but  
 who, having the power, to injure, re-  
 will.  
 giving yourself on your enemy you  
 your equal; by pardoning him you  
 yourself superior,  
 selfish.

ere the common people to treat you  
man, you must conduct yourself as  
towards them.

general fear, remember how very  
life is, take what care you will; how  
last as long as it ever does.

edoms escape as it may at the bar, it  
to be justice on itself; for every guilty  
is a hangman.

ad men combat. A good must as-  
ure they will g by one, an  
sacrifice, in emptible stran-

h narrow would, would not interpret the

they make in pouring out.  
 speak ill of the sex generally, they  
 against us; if we do the same of any  
 woman, they will all agree with  
 is progressive, instead stationary.  
 and years have added to improvement  
 of the bee, nor the horse of the bee-  
 an empties his purse into his head, no  
 take it away from him. An invest-  
 knowledge always pays the best inter-  
 ility puts the mind to sleep; trouble  
 it; great men are the products of evils;

the speak of obedience we should ask: Faith is the first and vital act of obedience. Faith is the light of obedience. Confidence of the wise man in himself is in proportion as his knowledge is as the shadow of the sun decreases in proportion to its elevation. A man who maintains an error with the assurance who is never mistaken; a man who maintains a truth with the circumspection who may be mistaken. Iron and steel will not shine in the dark; no reason, however refined or cultivated,

ance is a sleeping giant; we may fall to a longer or a shorter slumber; but we are frightful, and terrible is the man he awakes.

ing the hands and eye to work well individuals to form correct habits in respect; and a good workman is in essence a good citizen.

nd conscience is the best looking glass to, in which the soul may see God's love and purpose; concerning it reflected any shining stars

can, for any considerable period, can

prosperous and happy, never require  
vice, and we will remain your friends."  
not what society says, but it is often  
people on which it acts.

stode was fancifully said to be the memory  
being; but, also for human nature's heart  
be thus exposed to have wondrous short  
for.

tales are contemptible beings. To retail  
house what was seen or spoken of in ano-  
a treason against society, which cannot  
thoroughly despised.
